15,000 American users of poor or worn-out separators traded them in last year on account of new

and there are doubtless many more owners of such machines who will be glad to know that while such old machines have no actual value the DE LAVAL Company continues to make liberal "trade" allowances for them because of the opportunity such exchanges afford for the most practical illustration possible of the difference between good and poor separators and putting a stop to the sale of others like them in the same neighborhood. Nobody is injured through the re-sale of these old machines as they are simply broken-up and "scrapped" for their old metal value.

Then there are many thousands of DE LAVAL users who should know that they may exchange their out-of-date machines of from 10 to 25 years ago for the much improved, closer skimming, easier running and larger capacity machines of today.

Write in a description of your old machine—name, size and serial number—or see your DE LAVAL agent.

## Here are the Facts About Different Styles of Cream Separators

Don't Let a Man Push His One Hobby on You

Take Your Choice of The Standard Models From Headquarters

OUR book contains facts, instead of claims, about cream separators, because the Empire Company is the only manufacturer that makes different styles of cream separators, embodying the two models of bowl construction that are recognized as standard. So you are offered not only the choice of styles which others do not give, but you get the uncolored truth about each style when you come to headquarters. There is no one "hobby" here for which everything must be claimed in order to make a sale. Take your choice of Pattern, Capacity and Price from

### The EMPIRE LINE of Quality Cream Separators

The Frictionless Empire—The Empire Disc

In each pattern we offer you the best machine made in that style. EMPIRES differ in design but not in quality. They differ in price simply because one model costs more to produce than another. But—All are Backed by The Empire Guaranty—As Good As a Government Bond.

So, no matter what you have planned to pay, see the Empire Line. Remember, that the cheapest, flung-together job lot machine may look well and even skim well for two or three months. But they are "little while" separators. Money spent for such a separator is wasted. There are 365 days in the year. You want a separator that will do the work—one that is easy to turn and easy to clean, and that will stand the racket twice a day for many years.

Every EMPIRE, regardless of style, size or price, is that kind of a separator. Get an EMPIRE and be sure of service, satisfaction, profits.

#### DISC OR CONE BOWL

We show here the EMPIRE Disc. There are other disc separators—some higher priced, but there is no other disc at any price

EMPIRE CREAM SEPARATOR COMPANY OF CANADA LIMITED, WINNIPEG, MAN.

that will skim as close, turn as easily or is as easily cleaned as the EMPIRE. In fact, no other disc separator can be kept perfectly sweet and sanitary like the EMPIRE. The bowl of the EMPIRE is the only simple disc bowl. The reason is, the greatest separator experts, inventors, the top-notch mechanics are Empire men; these men are given the best materials and the best facilities in the world to work with. The original cone bowl separator is the Frictionless Empire. This machine established the name EMPIRE in its leading place years ago. Hundreds of thousands of these favorite separators are in use today. We have books of letters praising it, we will send you the story, as told by the users, if you say the word.

The point that must interest your pocketbook is that either one of these EMPIRES will make more money for you than any other separator to be had, regardless of style and price. Furthermore, no matter how few or how many cows you have, you will find just the right sized separator at the right price in both styles of Empire.

And whether you buy the highest priced or the lowest priced Empire, your separator will be backed by the same Empire Guaranty, as good as a Government Bond.
