

GRAIN, LIVE STOCK AND PRODUCE MARKET

WINNIPEG MARKET LETTER

(Grain Growers' Grain Company's Office, June 26, 1911)

Wheat. For another week wheat has ruled fairly steady. Despite a tremendous advance in the Chicago and Minneapolis markets, due to the drought, our cash wheat did not advance, although October wheat came up a little, and on occasions considerable has been worked. Receipts past Winnipeg, however, have continued quite heavy. Undoubtedly considerable damage has been done to the American crop, which will be reflected in better prices for our growing crop.

Crop prospects continue excellent, although we do not think the excessive growth would stand much hot weather as from various districts we hear that the wheat is too short rooted to withstand much drought. In some districts the growth has been altogether too rank.

Oats have held steady but it might be noticed that the American oat crop has suffered more damage than the wheat, with the result that the oats have moved up in the Chicago market from three to five cents per bushel for the September and December option.

Barley.—It seems to us that those who are now holding over old barley should market in the next few weeks unless they decide to hold on the chance of reciprocity being enacted into law. There is arising a little demand for barley, but it has not been manifested in even quotations on our market yet. It is coming we are satisfied.

Flax has had a big decline but has rallied a little although cash flax is not much wanted.

Cattle

There was no change in the cattle prices last week over the prices of the previous week. The receipts were somewhat lighter than the previous week but there was little change in the quality of the arrivals. Very little first class stuff arrived and much of the stuff marketed by shippers would have been better left in the country.

Cattle prices quoted are:

Fair to good butcher steers and heifers, 1,000 lbs. up	5 50 " 6 00

Hogs

Hogs are still selling at the 87.25 level. The run last week was a large one, in fact the largest for some time, but packers took them all in 2 hours. Prospects are for the price holding for some time at least. Hog prices quoted are:

Choice hogs 87 25
Rough sows 85.00 to 5.75
Stags 4 00 " 4 75

Sheep and Lambs

Prices are even with last week, as follows:

Eggs

Shipments of eggs were heavier than a week ago and the price was 1 cent lower, dealers offering 17 cents, f.o.b. Winnipeg.

BRITISH LIVE STOCK

Liverpool, June 27.—John Rogers & Co., Liverpool, cable that the strong demand which existed in the Birkenhead market on Saturday was continued today, causing an advance of one-quarter cent on all cattle, both States and Canadian steers, making from 12 1/2 to 13 cents per pound.

MINNEAPOLIS WHEAT

Minneapolis, Minn., June 26.—While there was further liquidation in the wheat market at the opening, based on the additional rains and the lower temperatures, the market had a very stubborn undertone and showed occasionally very good rallying power. Speculative excitement has subsided for the present, as the more favorable change in the weather has tended to check further crop deterioration and the buying stimulus has passed. Notwithstanding the fairly well scattered rains over the southern half of the spring grain belt there was no evidence reported that the situation of small grains had been benefited very much. Corn and flax were greatly helped and the former exceedingly in South Dakota. With more rains it would not be unusual to hear of a more optimistic condition. The greater area of the northwest is in good shape, although the strain of last week's weather might have touched the grain adversely in spots.

THE LOW COST of a "Want"
Ad in The Guide is one of its most attractive features. Only 2 cents per word for one week, or 10 cents per word for six weeks.
