

PEERLESS PERFECTION

The first cost should be the last cost.

You should put up a fence that will give you real fence service first, last and all the time. The cheapest is always the most expensive in the long run on account of repairs necessary.

Peerless Fence

because it is the poultry fence that never needs repairs.

Peerless poultry fencing is made of the best steel fence wire—tough, elastic and springy—and will not snap or break under sudden shocks or quick atmospheric changes. Our method of galvanizing positively prevents rust and will not flake, peel or chip off. This feature alone adds many years to the life of a fence. The joints are securely held with the "Peerless Lock" which will withstand all sudden shocks and strains yet is so constructed that Peerless Poultry Fence can be erected on the most hilly and uneven ground without buckling, snapping or kinking.

The heavy stay wires we use make Peerless Poultry fencing rigid and spreading thereby preventing sagging and needing only about half as many posts as other fences.

We build our poultry fence stronger than seems necessary in order to keep marauding animals out and close enough to keep the smallest fowls in. Many of our customers are using this style as a general purpose fence with entire satisfaction.

Peerless Poultry Fence when once put up is always up and will look better, wear better and serve you better than any other fence built.

Our Catalogs are all Free to You

Write us for literature and address of nearest agent. We also manufacture a complete line of general fencing, farm gates, walk gates and ornamental fencing. Agents almost everywhere.

The People's Choice

Continued from Page 7

your sound judgment and your delicate understanding of ethics. Now what is your opinion of this?"

"The sparkling eyes of Cordelia Blossom widened and glowed.

"Why, Watt, I think it is simply noble of you!" she exclaimed with beautiful enthusiasm. "How much of a campaign contribution shall you need, Mr. Dickson?"

Mr. Dickson studied her with renewed attention. She was an unusually interesting woman!

"Well, about ten thousand to begin with," he replied, rubbing his hands softly together.

"Ten thousand!" gasped the colonel.

"Sir, I do not intend to buy my way into office. If I am not to be elected as the full and free choice of the people, convincing them that I am a man of integrity and ability and proper dignity to become their public representative, if I cannot so present the sterling principles of my party as to convince my fellow citizens that their welfare is safest under the wings of the grand old organization which assisted at the very formation of this republic, then, sir, I decline to permit my name to be dragged in the mire of political chicanery—and this is final!"

"Besides," added Cordelia, warmly seconding her husband's creditable sentiments, "the amount is too much. I have it on excellent authority that Judge Purdee's last campaign only cost him three thousand, and that young Mr. Ferron's which was unusually showy, only cost his father seven thousand all told. Of course, Watt, there are many expenses—advertising and bands and whatever else they spend money for; but ten thousand is entirely too much, especially since Mr. Dickson intimates that this is only to start with. Don't you think you could manage it for five thousand, Mr. Dickson?"

"We're going to win this one, Mrs. Blossom," Dan carefully reminded her. "Those other campaigns we didn't have a chance, and we knew it, so we kept expenses down; but this is different. If the colonel comes across we can absolutely guarantee him to win."

Mrs. Blossom sighed resignedly. "Then I suppose we'll have to give it to him, Watt—in the interest of future party purity, you know. But I'd only give him five thousand to begin with and watch where it goes."

The colonel pondered the matter deeply, gazing into the handsome eyes of Cordelia as he did so.

"You are right, my dear," he ultimately confessed. "I agreed to accept conditions as I found them in order to gain control of them and change them. It will be worth much to my fellow-citizens and to my party to throw out of office the corrupt Fleecer gang!"

POTATO GROWERS WARNED

A note of warning has been sounded from Ottawa in regard to a very dangerous potato disease that has been brought to Canada in tubers imported from Europe during the present year. The disease, which is known as Potato Canker, was recently discovered in an imported shipment. To warn Canadian farmers against the danger of planting imported seed, the director of the Experimental Farms has issued a leaflet known as "Farmer's Circular No. 1," prepared by Mr. H. T. Gussow, the Dominion botanist.

Attention is called to provisions under the Destructive Insect and Pest act, which show that to use or sell for seed potatoes imported from Europe is illegal. Copies of this Farmers' Circular may be obtained by applying to the Publications Branch, Department of Agriculture, Ottawa, Ont.

BRANDON FEARS FLOOD

Brandon, May 27.—Old timers who have keenly observed the vagaries of the Assiniboine river over the course of many years say that present indications point to the river rising into a great flood during the next month, and to much the same extent as occurred about five years ago. Then the flood lasted over two weeks and the river at this point was about half a mile wide.

TRADE

in your old separator on account of a new DE LAVAL CREAM SEPARATOR

38,796 Users did so Last Year 26,569 in the U.S. Alone

It has come to be an accepted fact that DE LAVAL cream separators are as much superior to other separators as other separators are to gravity setting systems, and that an up-to-date DE LAVAL machine will on an average save its cost every year over any other separator.

In addition to the actual saving in more and better cream and butter, in time of separation and cleaning, easier running, greater durability and less repairs, there's a sense of pride and satisfaction which none but the owner and user of a DE LAVAL machine can feel in his separator.

In consequence thousands of users of inferior and worn-out separators of various makes take advantage every year of the educational allowances which the DE LAVAL Company continues to make and trade in their old separators.

APPLIES TO OLD DE LAVAL USERS ALSO

This not only applies to the users of other makes of separators, but likewise to the many thousands of DE LAVAL machines now 10 to 25 years old. They are still good, of course, but there are so many improvements embodied in the modern DE LAVAL machines that these old DE LAVAL users can well afford to make an exchange and would soon save the cost of doing so.

SEE THE NEAREST DE LAVAL AGENT

He will tell you how much he can allow on your old machine, whether a DE LAVAL or some other make, toward the purchase of a new DE LAVAL. If you don't know a DE LAVAL agent write to the nearest DE LAVAL office, giving make, number and size of your present machine, and full information will be sent you.

BREEDERS! ATTENTION!

Summer Pests injure the condition of your Cattle—Let us improve it
Are your Horses and Cows tormented by flies? Is your Cattle worried by lice?
Do your Sheep suffer from mange?

COW COMFORT

The most powerful insect destroyer and disinfectant, will rid all domestic animals of flies, mosquitoes and other vermin.

Far from injuring the skin, as do most preparations claiming to be "just as good," Cow Comfort possesses remarkable antiseptic qualities and has a remarkable healing effect for all skin affections.

Given internally it constitutes the best preventative against cholera in swine or poultry and cures intestinal worms, sores in the mouth, etc.

Cow Comfort is a wonder-worker and a boon to all breeders.

Sold in gallon cans at \$2.00 each, but as the contents of a can is to be diluted in four gallons of water, it makes the price really 40 cents a gallon.
