

MAIN TRACK BURNING NEAR FERNIE; TIMBER DESTROYED

Some of the Few Houses Left Standing in the Mining Town Threatened by the Flames.

Already There Are Preparations for the Re-building of a Better and More Substantial City--

Some of the Dead--Aid From Montreal.

Some of the few houses left standing in the mining town of Fernie, B.C., after a fire which destroyed the main track and timber. The fire started on Saturday night and spread rapidly, destroying a large number of houses and the main track. The fire was caused by a gas leak in a mine. The town is now a scene of desolation, with only a few houses left standing. Preparations are being made for the rebuilding of a better and more substantial city. Some of the dead are being buried in Montreal.

Sanitary Arrangements. CRANBROOK, Aug. 5.—Sanitary and general hygiene conditions here have been organized by Dr. J. H. King, M. B., and Dr. Green, Major and Colonel. Patrols of special constables are in charge of the camps, leaving no stone unturned to see that the rules shall be strictly observed. As it is there not one case of sickness among the patients taken from the Fernie hospital are having every attention in St. Eugene hospital here.

Some twenty-five bodies, many of them charred beyond recognition by fire, have been recovered and of these names in a number of cases have not yet been issued for publication. As search among ruins continues, remains of other victims are continually being disclosed and the list of dead is being constantly added to. Owing to confusion incident to the return of citizens, reports of dead and missing are very conflicting, and it is impossible to accurately estimate the loss of life.

MONTREAL, Aug. 5.—The Board of Trade, in order that the Fernie need might get the money they are collecting, has authorized the committee on "Lost and Missing Persons." Fred Atkinson is in Cranbrook. Beatrice Atkinson, Fred's sister, is missing. Mrs. Albert missing, her children are here. Mrs. Sugar Brown in Cranbrook and wants her husband. Mrs. James Brown in Cranbrook. Mrs. Frank Brommelsbach wants her husband.

9,000 C. P. R. MECHANICS GO ON STRIKE

Won't Interfere With Running Operations

THE GRIEVANCE

Nothing to Say—Men Held Meeting

MONTREAL, Aug. 5.—About nine thousand mechanics in the various work shops of the Canadian Pacific Railway went on strike today as a result of the findings of the Board of Arbitration which has been investigating the differences between the men and the company. Of these nine thousand about three thousand belong to the Angus shops, the others being scattered all over the system from St. John, N. B., to Vancouver. They include boiler makers, electricians, machinists, mowers, blacksmiths, pipe fitters, helpers and men known to the trade as specialists. Their conductors, engineers and brakemen are not affected. The car builders did not go out, about 1,500 being at work. The scene presented at the Angus shops when about two thousand two hundred workmen dropped their tools and donned their coats was a very quiet one. Precisely at ten o'clock workmen came through the exits of the machine shop, the blacksmiths department, the foundry and the car manufacturing department. A statement was issued by Bell Hardy, president of the workmen's organization, which concludes as follows: "The primary cause of the strike was the action of the Board of Arbitration in reducing wages on West-coast lines. The secondary cause of the strike was the determined opposition of the railway and the hindrance thrown in the way of proper investigation. The immediate cause of the strike was the arbitrary action of the company in reducing wages on the West-coast lines. The men have no objection to a mutually completed scheme of agreement. (Sir Thomas Shaughnessy, D. McNeil (the vice-president), and H. H. Vaughan (who has jurisdiction over the Angus shops), all declined this morning to make any statement for publication in connection with the strike. Sir Thomas Shaughnessy has issued instructions that no information of his description is to be given to anyone. The watchmen at the Angus shops gates challenge everybody who attempts to go in, and unless he has business with the shops he is refused admittance on the premises, irrespective of the strike question. In 1907 the strike of the boiler makers, who stop at the same place as the company three million dollars. The men held a meeting at the Monumental National this afternoon, when some 700 men were present. The following speeches by the strike leaders:

BAPTISTS PROFIT BY WILL OF LATE GEO. W. CHRISTIE

AMHERST, Aug. 5.—By the will of the late George W. Christie the Baptist denomination will receive the following bequests: Ministerial Aid Society, \$200; Home Missions board, \$100; foreign mission board, \$100; Grand Ligne mission, \$200; Northwest mission, \$200, and a further bequest of \$100 to each of the above named societies. Mr. Christie was during his whole life a generous contributor to the different schemes of the church. The balance of his property is left to members of the family. His brother, J. Alex. Christie and H. W. Rogers are named as executors.

OTTAWA, Aug. 5.—His excellency the governor general today received the following cable from Lord Minto: SIMLA, India, Aug. 5.—Grateful to you if you can express my heartfelt sympathy to the sufferers in the terrible fire disaster in British Columbia.

Even the little I have been satisfied that the resources of Canada are practically boundless and that in the ordinary course of development it must inevitably become one of the important countries of the world. May I be excused if I venture to remind those whom I have today the honor of addressing that, as Canada grows in wealth and prosperity, her responsibilities will assuredly increase, and may I express my earnest hope that, as time goes on, her rulers and people will be fully alive to the necessity of making adequate arrangements to meet those responsibilities. Believe me to be not unnecessary to say this: nations have often forgotten this need in times of great material prosperity. If we look back on our history, and history is brought about by their failure in this essential duty. Flourishing and prosperous as these nations were they fell

Whole Male Population Should Be Prepared to Take Their Place in Defense of the Empire, Says Hero of Kandahar--Civic Address for Him at Ottawa.

OTTAWA, Ont., Aug. 5.—At Rideau Hall this afternoon Lord Roberts was presented with a civic address of welcome by the mayor and council of Ottawa, and at the same time he received some hundred and fifty of the local army veterans who had seen service under him in South Africa, India and in other campaigns. The field marshal in reply to the civic address spoke at some length, expressing his deep appreciation of the friendly and even affectionate greeting which he had received from the people of Canada, noting his regret at being compelled to forego his intended trip through the Dominion, urging the national duty incumbent on the citizen, and expressing his hope that at no distant time he might be able to return for a more extended visit to this most favored land destined to take its part in the defense of the British Empire. At the conclusion of his address, Lord Roberts passed up and down the columns of his old comrades in arms, asking each about his war service and delighting all by a kindly word or two. The reception took place in the banquet hall of Government House at three o'clock. After the civic address had been read by Mayor Scott, Lord Roberts, who seems to have completely recovered from his recent illness, replied as follows: "I believe myself that the advantages of such a training would be so manifold that public opinion would soon demand that all able bodied men on attaining the age of 18 should complete their training and so fit themselves to take their part in the defense of their country, should their services ever be needed. This is an easy matter and it requires very little with their civil avocations.
