REORGANIZE HIGH SCHOOL CADETS

Provincial Inspector Confers With School Officials at Simcoe CORPS TO BE REVIVED.

From Our Own Correspondent.
Simcoe, Sept. 19.—Col. McCrimmon, inspector of H. S. cadets, visited Simcoe on Wednesday and conferred with Principal Christie and Instructor Martin. He stated that he could have forwarded at once a supply of rifles and other equipment to replace that requisitioned three years ago for active military purposes and will return to inspect the corps on the last week in October.

Look Out For the Freshmen.
That the tenderfoot at the high school were not able to resist the sophomores on Wednesday was due to their own lack of consciousness of their strength. The senior boys counseled by the Principal, with one or two exceptions remained neutral spectators of the sport, and had this been known to the freshmen they might have packed the whole sophomore year into one of the watercuts at the rear of the campus and sat down on them.

Will Burn Coke in New School Heating System.
Falling to store any coal in the bunkers of the new school, and unable to secure any at the present time the Board of Education has ordered coke wherewith to heat the building. There was no fire there yesterday and the children were not any too warm.

Father Hennick, of Detroit, was in town for a few days visiting his mother.

Frank Reid returned yesterday from his golf trip to Montreal.

Mr. C. W. Lord has succeeded F. Lucas in the Water street blacksmith shop, owned by N. Chalton.

F. Lucas, blacksmith, has returned to Nixon and is succeeded here by Mr. C. N. Lord, who has rented the shop of N. Chalton, Water St.

Odd Ends of News.
The congregation of St. Mary's Church has made a contribution to the "Hut Fund" to assist in the work of supplying comforts at the front.
Cyril Johnson, one of our delivery squad got under a wagon when on his way to get his papers last evening and was badly hurt about the head. His nine year old brother took the route for the evening. In case the lad has overlooked any of our subscribers the issue may be obtained at this office.

Good Corn in Norfolk.
A sample of Norfolk corn stalks for which this county is noted, stands beside the office window. It is 12 ft. 9 in. high and the single ear is so high that a man over six feet high has to stand on tip toe to grasp it. The sample is from a ten-acre field on Dr. Esaid's farm and is an average stalk taken from the third or fourth row from the edge of the field.

SOCIALISTS HOLD OUT.
By Courier Leased Wire.
Copenhagen, Sept. 19.—German Social Democrats, says The Tageblatt of Berlin, while not actually refusing to join in a coalition government, the formation of which has been suggested, would join only under certain conditions and with certain guarantees. The article printed by the newspaper quotes statements made in parliamentary circles to this effect.

DOES NOT EXPECT CRIMES
By Courier Leased Wire.
Amsterdam, Sept. 19.—Konsaantin Fehrenbach, president of the German Reichstag, sees no reason to expect a ministerial crisis in Germany, according to an interview with him, printed in The Lokal Anzeiger in Germany.
Differences of opinion regarding peace aims no longer exist between authoritative political and military circles, he is quoted as saying, and hence there is no ground for objection to von Hertling retaining the chancellorship.
"No one needs doubt that the chancellor is determined to bring about a peace by understanding," he says. "It will, however, be necessary for the government to make a determined stand against the pan-Germans."

Some lines of manufacture in Canada may be put on coal rations.
A boy at Chapleau named Arthur Payne lost his life by electrocution in trying to copy a stunt he had seen at the movies.

R. R. Bangham, former Alderman and Street Commissioner of Windsor, who helped promote there the first electric street railway in Canada, is dead.

Rev. D. C. MacGregor of London, has been invited by the Government to visit the Canadian soldiers in France as representative of the Presbyterian Church.

Bad Runaway.
Mrs. William Earl of Charlotteville, her daughter and a little child were severely injured on Wednesday when the horse attached to the buggy in which they were driving took fright and ran away. The buggy was thoroughly smashed up and Mrs. Earl sustained a broken collar bone, broken shoulder and other severe injuries.

Tom Richards' Condition Critical.
Mr. Art Richards has had news of his brother, Pie, Thos. Richards now in hospital in France, too seriously wounded for removal to England. The nurse states that his condition is critical, but that unless complicated by other serious conditions, there are fair hopes of his recovery.

BLACK AND BLUE THE FALL COLORS

For early fall wear, before it is cold enough to don a winter suit, a coat dress is one of the most practical purchases. Fashioned of tricolette, of wool velour or tricotine, as well as heavy, double-faced satin, a dress of this type possesses the utmost distinction and in its tailored simplicity is a compromise between the more conventional coat and skirt costume.

Just at present there are any number of interesting frocks of tricolette to be seen, and their clinging, graceful lines are most attractive. Some are almost sheathlike in their simplicity, and it behooves a woman to be quite sure that she is properly equipped before attempting such a gown, for there are no folds or draperies to camouflage discrepancies of figure.

of navy serge, and over this is worn a modified tunic dress of navy tricolette stitched and showing novel touches in the cut of the sleeves and in the flaps, which are caught down by buttons of serge.
Once merely an integral part of the frock or blouse, the waistcoat has now become a decisive factor in determining the success of one's costume. Made of every conceivable material it serves to break the succeeding simple, almost severe, lines of our war-time frocks, and designers have shown great ingenuity and cleverness in planning and fashioning these little garments. They have gradually lengthened until now some reach almost to the knees, while others content themselves with stopping just below the waistline. As a rule a material is chosen which in texture is a decided contrast to the gown itself. Jersey is placed with satin, chiffon with serge or pique, and linen with velour, and the effect is always delightful, especially when the trimming takes the form of conventional motifs done in old-fashioned embroidery stitches, chain stitching, done in wool or silk—the good stitch of Chinese work, as well as odd designs carried out by couching or cross stitching.

more simple, but very graceful and becoming is another blouse of rose-colored batiste. This has a long stole collar of sheer white organdie ornamented by chintz designs placed back of the fabric and stitched to it with rose-color thread.
Black is a somewhat novel feature of our cotton or lingerie frocks. It is a fashion much beloved by the French, who are this season using trimmings and bands of black silk or wool jersey cloth. It is probably the violent contrast of black with light summer colors that goes towards making it such a charming adjunct to the season's frocks.
Another accessory of Fashion that will gain in favor as autumn advances is the knitted hat band and it is adorned with various colored wool or silk flowers. This is, of course, a very old mode revived, for beautiful silk flowered work existed in the sixteenth or seventeenth century, and some very quaint effects in woolwork are reminiscent of early Victorian days. The latter was, however, resuscitated with a new glory by a famous French genius about seven years ago, who managed to mix the most crude colors with daring success. He has, indeed, left us deeply indebted by his teachings.
A new record has been set for Canada in wooden shipbuilding. More Canadian troops are reported safely arrived in England.

Gentlemen! Order Your Clothes To-day or Monday POSITIVELY YOUR LAST CHANCE

"Buy Tomorrow - Save the Difference"

Before Our Price Goes Up

Let's Understand Why We are compelled to raise our price next Tuesday, Sept. 24th

The price of cloth and labor has continued to increase by leaps and bounds until it is impossible for even us, with our direct mill connections, great buying power and the tremendous outlet of the largest one-price tailoring business in Canada, to maintain our standard quality at \$17.50 to measure without losing money. It is Tip Top quality at the lowest price consistent with the market and cost of cloth production that has made this business

the largest of its kind in Canada and one of the largest in the clothing world. We are going to continue to grow, not by reducing our standard, but by continuing to give our customers the best that can be produced at the price we ask.

At our new price we will be precisely in the same position today as we always have been in relation to the general market, viz., you will not be able to equal our value in "mixed price" stores unless you pay \$10 more—the secret of our supremacy is SPECIALIZATION—we only have ONE PRICE.

SATURDAY and Monday, two short days, are all that remain-- then will end an opportunity that will not come again for many seasons-- maybe for many years-- to provide yourself with clothes of character and disdinction--tailored to your individual measure at a price that **does not cover today's actual cost of materials and workmanship.**

Don't wait your greatest opportunity to save money on all Fall or Winter Suit or Overcoat is Now.
Leave your order tomorrow or Monday and you will be glad you took our advice New fall and Winter materials included at \$17.50 until Monday night. Our iron-clad guarantee of satisfaction or money back goes with every order.
