St. Regis Lumbago Cure

Guaranteed to Cure Lame Back or money refunded!

An excellent remedy for Rheumatism, Lame Back, Etc., Etc.

Read the following testimonial from a man you all know:

Forfar, Feb. 6, 1907

Mr. W. A. Singleton, Crosby, Ont.

Dear Sir,—Being laid up with lame back, I thought I would drop you a line to tell you that your St. Regis Lumbago cure will do all you claim for it, as I have only used part of the bottle and I feel no returning symptoms of the disease.

may say I have been troubled with lame back for the last ten years, and tried several other patent medicines but without result. I can heartily recommend it to any troubled with lame back, and I feel safe in saying that it's the cheapest medicine on the market.

Yours Truly,

JAMES McQUE

READING COURSE

The Epworth League of a District assists the local Leagues through the Literary Department. From Wesley Buildings, Toronto, are issued nine volumes in sets of three that can be obtained at half price. By the finest authors, they are educational and inspiring. Even a few in any League can obtain the books for autumn and winter studies, meeting at stated times at members houses for profitable reviews. A Reading Circle may be formed where there is no League.

Those who have had a course in the public schools may reasonably be expected to manifest a love for books and associations that are intellectual and uplifting, a desire to drink more deeply of the Pivian Spring. Yet many spend whole evenings in useless talk and voluptuous excitements, and will eventually be led by quacks. People know unless they cultivate their fields and gardens and care for their stock they will all run down, and by proper attention they can be brought up. Is this not especially true of human nature? And that Book, the sum of all true philosophy, teaches us to overcome evil with good. The cure for mental slothfulness and common gossip is largely to be found in reading those books and periodicals that educate the mind and widen the horizon of life. There is then wholesome food for thought and profitable matter for conversation. Busy, active people, by improving the fragments of time, may obtain broad and general views of the realms of knowledge and come in contact with the pure lives and gifted intellects of the ages, and practically turn the shop, the field, the kitchen, the parlor into a grand school of true attainment. Thus they shall do, not less work, but do it more skillfully and with more heartiness. Life will move on a higher plane, and there will come increase of power with the increase of knowledge.

W. HENDERSON
Frankville, Nov. 1, 1907.

HARD ISLAND

The apple crop of this section was a very satisfactory one.

Mr Will Wood, our popular milk drawer to Athens' cheese factory, made his last trip on Friday, to which we can all respond "well done."

An unusually favorable winter is predicted by the Island correspondent, not from an astronomical standpoint, but from the fact that He who rules the weather knoweth our needs.

Some of the Island people drove to Athens on Wednesday last to attend the funeral of the late Delbert Avery, whose memory will be long cherished by acquaintances here.

The shocks of corn are fully ripe, well eared behind they stand, They yield an hundred fold they wait
The master's gathering hand.

Who soon will come and bring them in
Some bright glad day and fair,
Nor one be lost or left behind,
Beneath his sheltering care.

Ah, joyful scene that then appears
When treading footsteps throng,
And lusty voices raise the cheer
And sing the "Harvest Song."

How like unto the pilgrim here,
The lesson thus appears,
With work well done and who has
reached

The harvest time of years.
The Master comes and brings them in,
Some bright glad day and fair,
And gives to them a resting place
Within his mansions there.

Nor will they ask the reason why
The waiting seemed so long,
But with a harp and crown will join
In Heaven's "Harvest Song."

Thus may our willing footsteps tread
The pathway they have trod,
And gain with them our long sought
rest—
The Sabbath of our God.

GROWING CHILDREN

Advice to Mothers of Athens

Perhaps th. most important principle involved in the care of a child is proper nourishment.

How many delicate children do we meet on our streets with colorless cheeks and thin little legs and arms. It is very plain to be seen that rapid growth takes all their strength and their little bodies are not receiving sufficient nourishment, to make them well, strong and robust.

We want to say to the parents of all such children in Athens that our delicious cod liver and iron preparation Vinol, will build up delicate children, fill out hollow cheeks and make them strong, robust and rosy. Vinol makes new vitality, sound flesh and muscle tissue and pure, rich red blood, and children love it. This is because Vinol is a delicious tasting cod liver preparation without oil, made by a scientific, extractive and concentrating process from fresh cod's livers, thus combining with peptonate of iron all the medicinal, healing, body-building elements of cod liver oil, but no oil.

As a body builder and strength creator for old people, delicate children, weak, run-down persons, after sickness, and for chronic coughs, colds, bronchitis, and all throat and lung troubles, Vinol is unexcelled. Try Vinol on our offer to return money if it fails to give satisfaction. J. F. Lamb & Son, Druggists, Athens, Ont.

Don't

Don't think because you have taken many remedies in vain that your case is incurable.

You have not taken Hood's Sarsaparilla.

It has cured many seemingly hopeless cases of scrofula, catarrh, rheumatism, kidney complaint, dyspepsia and general debility—many cases that may have been worse than yours.

What this great medicine has done for others it can do for you.

Almonte it is said has 88 cases of typhoid fever, and Dr. Hodggets, the provincial health officer has been asked to investigate the cause.

The weather prophets are out already with the annual prediction that the coming winter is to be a warm one because the corn husks are thin, the squirrels have not been as thrifty as usual in the matter of their winter supply and the bees have not made as much honey as usual, all of which are claimed to be sure signs of a warm winter.

The epidemic of typhoid which during last week was apparently abating in the city of Hull has broken out again in even greater volume and the number of new cases is increasing with alarming rapidity. One of Hull's foremost doctors has now over twenty cases, while the others are also busy fighting the epidemic.

If boys who indulge in profanity could be listeners instead of talkers, they would leave a good deal of it out. Profanity is a habit which grows upon the individual till it becomes part of his conversation almost without his knowledge. At first it appears to emphasize his conversation, but once it develops into a confirmed habit, it does not possess even the element of emphasis.
