These were in the way of amendments which he ordered nade them with an obsequious meekness that has no parallel in history since the days of Heliogabalus. Just fancy a Senate passing a bill which was not be The clauses were gabbled over at the table and the amendments concur-red in with perfect indifference. Never was there a greater travesty of legislation The first weeks of the session were alowed to lapse without any work, the whole power of the Government having been devoted to the attempt to defea the Liberal Government of Ontario.
When the members who had been sent right and left to secure that object reurned to their places, they found nothing to do. The most important committees were not called to meet for weeks, and when they did meet they did nothing save in a few instances when the rivalries of railway companies came to a head. stance revealed the dissensions cabinet, and marked with peculiar emp hasis a departure in Conservative ranks which the division on the Orange bill The one bright contrast to the gloom

and dissatisfaction of the majority was the manful way in which Mr. Blake and the Opposition struggled to protect popular rights and resist the encroaching of the Government on the constitution. Great as Mr. Blake's powers were admitted to be, he astonished his most ardent friend with the mastery he displayed of every question that came before the From the most minute details to the widest generalizations, he proved him-self thoroughly informed. Were the House of Commons less a compact of partizans, his labors would have been requited by a large measure of success. The sym pathy of the House was usually with him, but the strength of the majority made individual effort hopeless. At one time there were indications of a split in the Conservative ranks, but Sir John tided over the difficulty for the nonce by coneding everything to the Bleus. Even in the License Bill he allowed Quebec to be sion that Quebec governs the Dominion and is the only province whose auto Sir John dare not invade with his policy of centralization. The few government measures that pass into law to-day all bear the one characteristic—invasion of

provincial rights. And so this desolate session comes to in end. With all its noise and nonsense it was only a huge imposition to give con-stitutional form to the tyrannical commands of one man. It is a good thing, ne as strong as he might be, the mischief he could have done would be incalculable. We may therefore be thankful that we have not to deplore greater misfortunes than the squandering of a few millions and the degradation of parliament.

[Special to Daily Telegraph.] An Alleged New Pacific Scandal-How Election Funds are Provided, Etc.

OTTAWA, June 1 .- The Toronto Globe of to-day publishes a statement, apparently involving a fresh Pacific scandal, of a very grave character. It says:—"Section B of the Canadian Pacific Railway has been in the hands of a contracting firm, consisting of Alex. Manning, of Toronto, Peter McLaren, of Perth, John Shields, of Toronto, and J. J. Macdonald. For some reason, better known to the Government, the whole management of the business was, at the instance of the Government, placed by power of attorney in the hands of Messrs. Shields and Macdonald, who had but small interests in the contract. Under the power of attorney Messrs. Shields and Macdonald controlled the purse strings, although Messrs. Manning and McLaren financed for the concern. Here was an opportunity in this enormous contract, the largest let by contract since Sir Hugh Allan's, for election advances to be recouped in the final settlement. Whether Shields and Macdonald made overtures or received them, the broad fact exists that they con-To-day the session, which has dragged candidates in the Dominion eleconment or exile, it is not remarkable its weary length through fifteen weeks, 1883.
