CUBS TO MEET COLLEGE TEAM.

Prospects Are For a Good Match Here on Saturday.

Canadian Contingent Made a Small Killing at New York Track Yesterday—Ballot Won Handicap on Election Day—Big Purse Offered for Burns and Johnston.

Reports from Berlin say there is great interest being taken in that sporty town in the football game to be played here next Saturday between the Jerome College team and the Tigers III, and that a big crowd will accompany the college team to this city. The Berlin team, like the Cubs, have yet to be scored against this year, while they have left no doubt of their ability to play football by the tremendous scores they have made against their opponents. The same thing can be said of the Cubs, and when these two teams meet on Saturday there will be something doing, sure. The Cubs are practising faithfully, and as it is a semi-final game they will take no chances. They will have a practice tonight and will be assisted by some of the seniors. That these two teams are the best in the series is generally accepted, and the winner of the championship will be picked from Saturday's game. It will be the last chance of seeing the Cubs in action this season, and as there will be only one more game on the home grounds there will likely be an immense crowd of football lovers present.

trumpet sounded telling Seaton, how to win that five furlong sprint. Seaton listened patiently and when the horseman finished he scratched his head and said: "Boss, if Ah rode out all dem omdahs Ah'd have to take dis coil two miles." So he straightaway forgot them all, and, breaking in front, won all the way.

A BIG PURSE.

Tommy Burns and Johnson Offered \$25,000 for a Battle.

San Francisco, Cal., Nov. 6.—A purse of \$25,000 has been offered by Jim Coffroth, the well-known fight promoter, for a thirty-five round battle between Tommy Burns and Johnson, to be decided in the arena of the Colma Athletic Club on New Year's afternoon, for the heavyweight championship of the world.

Coffroth made an offer to Johnson immediately after he had knocked out Jim Flynn last Saturday afternoon. Johnson accepted the offer in a hurry—more than one-third were sulphur buttons in England, notifying him of the offer.

GIVING NOTICE.

New Interprovincial Footballers Are Under the Ban.

Toronto, Nov. 6.—Secretary N. H. Crow, of the C. A. A. U., yesterday sent out a letter to all clubs in affiliation with the governing union. The closing paragraph of the letter points out that no entry from a club having in its membership disqualified members can compete in any sports or meets held under the union's sanction.

"Dear Sir,—I enclose herewith a list of men who have disqualified themselves from further competition in amateur sport by competing in the Inter-provincial Rugby Union. Kindly note that these men are ineligible for any amateur competition or for membership in any amateur club.

ROLLER SKATING RACE.

Hawkes and Rigg, the contestants in to-morrow night's race at the Alexandra, are both in the best of condition, having practiced every day since making the match, doing some remarkably fast time in their trials, so that a good contest is assured for the many who will attend the rink to-morrow evening.

SALLY PRESTON WON.

Canadian Contingent Made Small Killing at N. Y. Aqueduct, N. Y., Nov. 6.—Amid the rousing cheers of 15,000 people, Ballot, the 5 to 2 favorite, won the Election Day Handicap, one mile and a furlong, at Aqueduct yesterday, and equaled the track record of 1:52 for the distance. A high-class field went to the post with Ballot, an added starter, always the favorite. McCarter set a terrific pace with Ballot in third place. In the stretch Ballot moved out and won in a drive by half a length.

The victory of Sally Preston at Aqueduct track yesterday meant a lot to a large number of Hamilton sports, who sent bundles of the long green to the track and to the Buffalo pool rooms to back the mare. One hotel man went to New York on Monday night with a roll of \$2,000 and another went across the line yesterday morning with \$1,000 more. Miss Sally closed at 3 to 1, although she was quoted as high as 5.

Ever since the fall race meeting in Toronto there has been a walking craze in that city, and the peds use the car tracks—largely the belt line.

A New York man, in town on a visit, and a close friend of Frank Farrell, says that there is no chance of the Montreal Eastern League franchise going to Hamilton. If the franchise is transferred Farrell is determined that it will go to some American city.—Toronto News.

Few will doubt that the clubs in the Inter-Provincial League are sincere in their desire to play amateur Rugby, and there seems no reason why clean Rugby should not prevail among the Big Four as in any other organization. The worst that can be said is that the players are completely isolated and will likely stay under the ban at the pleasure of the C. A. A. U. The Argonauts find difficulty in securing senior recruits, and some of the players who sinned at the outset are indulging in athletic idleness, Micawber-like, waiting for something suitable to turn up.—Toronto Exchange.

A BOWLING MATCH.

An exciting game of ten pins was pulled off at the Brunswick alleys last night between the off staff and the warehouse staff of the Wood, Vallance Co. The warehouse team won by 56 pins. The scores:

The motor car will be a water-wagon, so far as the motorman is concerned, if State Senator Carl S. Burr, of New York, has his way. The Senator, whose name recalls the troopers of a generation ago, when Carl S. Burr was a famous driver, proposes to prohibit auto drivers from drinking intoxicating liquors when on duty, as is now done with trainmen.

Here's a System For You For Next Season.

The Success of Handicapping According to Cincinnati Player.

Cincinnati, Nov. 6.—Around Cincinnati one can find more handicappers, and good ones, it may be said, than in any other racing centre in the country. The writer met one of these "dope-smiths" recently, a business man, and a man who has played the races for the last two or three years, and gleaned some interesting ideas from him.

"I went into the racing game as a diversion," said he, "and I carried into it theories that had benefited me in business enterprises. After considerable study I came to the conclusion that the only way to beat racing was to beat the percentage, to beat the odds. That is what the bookmaker does. So I decided to devise a system whereby I could play the bookmaker against his own game. After considerable study I came to this conclusion—that in a fifteen-horse race, which is about the largest field that ever goes to the post on western tracks, not more than five can be figured as contenders. Therefore, it appeared to me plain to me that I would have to plan odds at less than 5 to 1 in order to break even. I have followed that plan religiously. That is to say, I play no odds but 3 to 1 or up, and when my figures point to a winner, the bigger the odds the better I like. I believe that I can take a bank roll of \$500 or \$1,000 and follow this system of playing the odds against the ring, use any good newspaper or other handicap, and beat the races, and the proof of the pudding has already been beating them for the past two years.

BEST HANDICAP.

"I use my own handicap because I believe it to be better than the average, although it is formed on lines largely that I figured out for myself. In studying the records, I made up my mind that, in a general way, the factor in handicapping, for the reason that the time made on two tracks is alike. A horse, say, that can run a mile in 1:40 at Latonia might not be able to perform in better than 1:41 on some other track. Therefore I decided to throw out of consideration all horses that records I also got the notion of the condition of the track cuts little or no figure, for the reason that, as a rule, you will find that a horse that can run well on a heavy track can also run on a fast track. The elimination of these two factors led me to the conclusion that winning percentage is the sum and substance of the whole matter of handicapping. Therefore I evolved a system of handicapping the horses on winning averages over a number of previous races. I also handicapped the jockeys in similar manner.

THE SYSTEM.

"Applying the system to any particular race, the percentage of winners gave towns which it is believed, would be far cheaper than water power.
