Last week, while sinking a drain on his farm at Tamworth, Mr. Harvey Smith struck a lode of hematite iron, very rich and to all appearances very extensive and of course very valuable. It is evident there are extensive mines of iron, lead, silver, and very possibly gold, in this vicinity. and very possibly gold, in this vicinity.

The Port Hope Guide says:—"The killing of sheep by dogs in the township of Hope appears to go on with more fatal energy than ever. At the last Council meeting not far short of three hundred dellars was the amount required to foot the bills on this account. At this rate it would surely pay to buy up all the dogs in the township and destroy them.

We are glad to learn that the county of Prince Edward is alive to the advantages which must accrue from the construction of the Muzray canal. At a late meeting of the County Council the following resolution was passed:—Moved by Mr. Stinson, seconded by Mr. Knox, that this Council memorialize the Dominion Government to take the necessary steps to construct the Muzray canal; and that the Warden and Clerk be authorized to sign the same.

Referring to the recent visit of Chief Justice Wood to Portage la Prairie, the Marquette Review says:—"We are sorry to state that his Lordship met with a painful accident during his trip, which might have been much more serious. While the venerable gentleman was getting into the waggon, the horses made a slight start, throwing him down and straining the cords of his left leg severely, and causing him much pain. After a night's rest, he was so much better as to be able to walk about, and fears no danger from the accident."

From time to time sad stories come to light of reverses caused by the failure of the Glasgow Bank. A short time since a family arrived in St. Thomas from Scotland, who formerly enjoyed affluence and wealth, but lost their all by the closing of the bank. Unable to bear the thought of living in poverty where they were once so well off, the mother and sons emigrated to Canada, and finally brought up in the town mentioned, St. Thomas. The family now live in the most humble style, the mother being reduced to the necessity of taking in washing and the sons doing what odd jobs turn up. The lady is possessed of brilliant conversational powers, and is a splendid musician.
