NEW ELECTION MEASURE

The bill brought down in the Provincial Legislature by Premier Drury to provide for the holding of an elec tion every four years, thus doing away with sap verdicts so often sought by Governments uncertain of their tenure, has one strong feature that will comend it. More stability of administration will be possible.

pehed to best suit the government of limit provided by Act had been reached in which case an election had to be held, but generally the political party holding the reins of power has decided within itns own councils when it would appeal to the people.

While this practice, common, too, in the Old Country, has the advantage of permitting the electorate to vote if a government is defeated on a want of confidence vote on an important measure, there are several other things that condemn it.

When a political party holds office and all the keys to the inner workings of affairs and is in a position to announce an election when it thinks the date would most favor its chances, the objections that might be raised by critics are obvious. Such a government can shape events and legislation, can prepare to take an oposition unawares, can bring up a controversial matter that might be regarded as best suited to secure votes, and can use all the machinery of government consistent of course, with propriety and legality, to obtain a new lease of

By having an election every four years the province will know just what to expect and when to expect it. This is the practice followed in the Presidential elections in the United ceedure in Canada, either Federally or provincially.

#### FARMER KILLED DURING A BARN WRECKING BEE

MEAFORD, March 23.-Robert Young, a well known farmer residing about three and a half miles from Meaford, was instantly killed this morning while helping to tear down a barn belonging to Mr. Milton Taylor, on the adjoining farm. The work was being done by means of a bee and as Mr. Young was lowering some of the frame work a large beam fell on his head smashing his skull. The late Mr. Young was married but had no children. He was about 40 years of

NEW YORK, March 23 - Boxers some timeor other during ther career decid iv scarce. Only one of the present set of champions has finished all his tatt'es on his fett, and trange O'Dowd is the solitary titleholder who can boast of a clean record.

Heavyweight Champion Jock Dempsev has only one black mark against him. Just before he began the remarkable run of victories that cultimated in the defeat of Jess Willard for the title, Dempsey was stopped in one round by the veteran Jim Flynn.

Battling Levinsky, who claims the

light heavyweight title, was able to stall off decisive defeat in all his bouts until he met Dempsey at Philadelphia in 1918. Levinsky was not in the best Dempsey c caught up and hung the Battler on the ropes as limp as a wet

PAINT LENGTHENS LIFE OF BUILDINGS AND MACHINES

Many an old ship has stood the acket of ocean travel for years main on the strength of the tar or paint applied to her sides, but sailors do ot wait for the ship's hull to become weather beaten before applying the first coat of paint. Farmers, on the other hand, seem much inclined to let their buildings reach a state of partial decay before making any special Accept "California" Syrup of Figs effort to safeguard them against the play of wind and water. As a matter ing the life of the structure. The same applies to farm machinery parts will always pay to paint such repairs to machinery wagons, etc., as have to e made before the work season for these articles commences.

Good paint applied to farm build ngs and machinery, not only pre the good management employed in serves them, but calls attention to running the farm, a fact that helps greatly in case the owner wishes to sell tither the farm or some of its products. Many farmers have paid so much attention to the economic value of th efarm that they have neglected an important side of farm life. There is no reason why the farmer and his family should not have as attractive a home as attractive as the city dweller has. The farmer's neighbors as well as the passing oberver, will judge him largely by the care he takes of his stock, his machinery, and his buildings.

Painting is the easiest and least expensive way of making sure of neat clean surroundings, and is the best way of preserving the lumber in buildings, implements or machinnery With sprig approaching, the time has arrived for going the rounds of the machine shed to ick out these artieles that can be moved to a warm building for retuching with paint in addition to their annual overhaulig and repair.
