Committee Dealt with the Auditor's Report.

THE HERALD in a former issue stated that he auditor's report for the county of York was unreliable, inasmuch as on alnost every page there was an error in the addition or subtraction of accounts. At Tuesday's meeting of the council after a certain amount of bluster and buncombe from Messrs. Black and McCready a packed committee was appointed to examine the report and investigate the criticisms made by The Herald in the interests of the

THE HERALD believes that it is the duty and the privilege of a newspaper to criticise any accounts or any public man and the report of Messrs. Black and McCready is public property.

The committee met and in less than one hour concluded that the errors were the fault of the printer. We made the statenent that the report was incorrect as it contained many errors. The committee subbeen discharged at McAdam. Others are to stantiated THE HEBALD's statement, but follow. It is rumoured that the force will found out in the few minutes devoted to it that the printer made the mistakes.

No committee could go over the report in SLIGHT FIRE. - There was an alarm for the time taken, therefore they were not in fire on the roof of Scotch Barracks on a position to say whether the printer made This typographical error business is

neat way to blind the eyes of the people. The people pay for a correct statement and there is not the least reason for fifty mistakes or more to be palmed off on them year after year coupled with the weak excuse the printer made them. There are error since 1884. Messrs. Black and McCready say that the written records are corree We do not know as we have not examine them; but this we do know, that the printed report is misleading and unreliable and we can give the figures.

It is not only possible but very easy to print a report the size of the one under conat their Tuesday evening's meeting deideration without a mistake. We will guarantee that the next one printed does not contain so many mistakes as the present one. Whether the typographical errors of job press in the Globe office, Richard Gran- Pinder, Black & Co. affect the balance due by or to the county we cannot say; let those who have the accounts examine them for themselves. It is a farce and an injustice to the people of York an investigation such as the one conducted by Coun. Kinghorn, Scott, & Co. The report could not be examined in less than half a day; but this select committee of financial experts did it in less than an hour. We make the statement

Mr. Wilson's Dealings With the County and University.

SIR,- In an editorial of Thursday's issue of a local paper references are again made to my conduct as secretary treasurer, also a registrar of the University and my private dealings which are by no means new in their character, but are applied to new subjects of investigation. If I mistake not, this s about the sixth time that paper has referred to my dealings as secretary treasurer, s that the public are pretty well aware by this time, of the nature of the charges and I think it will be remembered that I answered every one of those charges at the time they were made. I will not therefore refer again to them except to remark that when this paper first referred to them it stated that my ambards ments were unwards of \$600.00

he was anxious to sail at once for home, drew upon me as registrar at thirty days for the whole amount of his quarter's salary, which draft I accepted and which was paid on the first of July, 1891, and was presented to the committee, composed of hon. Wm. Pugsley, hon. Archibald Harrison and Dr. Coulthard, appointed by the senate to examine my accounts, to whom I am safe in saying, it appeared perfectly satisfactory.

In regard to the reference to my dealings with a certain deceased, much respected and prompt paying citizen, whose son I attempted to defraud of \$140 of interest, I will ask the editor of this local paper, or his brother writer, to give me the names of father and son. Until that is done, I think the statements will be looked upon as a malicious slander. But then I should not complain. These boys cannot help slandering me. They come honestly by it. Their father, the ex-chief superintendent of education, sent me an open card through the mail from Quebec, charging me with holding funds belonging to the Brydon-Jack memorial scholarship in my hands for three

Hyde's actual work ended at the college on the last of May, 1891, but his quarter's salary, as well as that of the other professors, was not due until the first of July, when the provincial grant of endowment would be paid. He, therefore, as he was anxious to sail at once for home, drew upon me as registrar at thirty days for in the past a large business in dress goods of

morial scholarship in my hands for three years, which card I now have in my pos-session, and reads as follows:

last three years. Wm. Crocket.

Mr. Crocket was chairman of the committee of which Mr. Parken and I were the other members to collect funds to establish the Jack scholarship. Mr. Crocket made the last report that was made to the alumnisociety and gave a statement of the standing of the fund. He knew what I had collected and paid in and he made no such insinuation in the presence of the members of the alumnisociety, but from Quebec he could send an open card through the mail charging me with dishonesty.

When such a feeling, as is indicated by the editorial referred to and the above card,
