

INVITATION.

Our City Friends and Visitors to the City are cordially invited to attend the

Big Furniture Exhibition and Sale

Now going on at the Popular Furniture Store.

C. L. MARCH, Co., Ltd.,

Corner Water and Springdale Streets.

AFTER EFFECTS OF LONG ILLNESS

SPEEDILY VANISH WHEN YOU USE DODD'S KIDNEY PILLS.

Loren G. Ladd only found complete relief after using the Great Canadian Kidney Remedy.

Ladd's Mills, Stanstead Co., Que., November 7.—(Special).—That the seeds of disease left in the body after an illness are sure to cause trouble is the experience of Loren G. Ladd, a well known young man in this community. Mr. Ladd has also learned that those seeds can be cleared out of the body and perfect health restored by Dodd's Kidney Pills.

"At the age of six I had Scarlet Fever," Mr. Ladd states. "At twelve I had Typhoid Fever, and at fourteen I had Measles. About a year later I began to be troubled by swellings of the face, feet and hands. The doctor told me I had Kidney trouble. He gave me medicine but the swellings continued to come at intervals of a week to a month.

"Two years ago one box of Dodd's Kidney Pills stopped the swellings. Last winter the swellings returned and again I was cured by using Dodd's Kidney Pills."

Healthy Kidneys strain the seeds of disease out of the blood. Dodd's Kidney Pills make healthy Kidneys.

CAPE REPORT.

Special to Evening Telegram.

CAPE RACE, To-Day.

Wind west, fresh, weather dull, preceded by a S. S. E. gale with rain and fog last night. The S. S. Ellen passed east; 45 schooners passed west yesterday afternoon, and the S. S. Durango passed in at 10.30 a.m. to-day. Bar. 29.20; ther. 46.

FUNERAL TO-DAY.—The funeral of the late Mr. Charles Ellis took place at 2.30 p.m. to-day from his late residence, 37 Patrick Street.

Placentia Notes.

Mr. J. Moore arrived in town by Wednesday's train and went by the S. S. Argyle to Miramichi on Friday.

High Mass and Office was celebrated in the Sacred Heart Church on Thursday by Rev. Monsignor Reardon assisted by Mr. M. E. Mullen, for the repose of the soul of John Picco, late of St. Joseph's, P. B.—R. I. P.

The Cape Shore mail is now changed for the winter months. In the summer time the mailman leaves here on Monday's and Thursday's after the arrival of the train, and consequently would not get to St. Patrick's Cove before 10 or 11 p.m. During the winter he will not leave until Tuesday and Friday mornings, thus travelling by day instead of night as in the summer time.

At the present time there is a regular coal famine raging in this town; some people have not enough coal to last a few weeks, while others have to burn wood for fuel. I can't see the reason why that when coal is getting scarce that another load should be at hand. For it is a shame to have this town left without coal; but we are used to it, for this is the way that we are treated every year. Why not someone come along with a load of coal, they will sell it.

Mr. W. Burke came over from St. John's by Wednesday's train, and went to St. Jacques by the S. S. Glencoe.

Mr. T. Croucher arrived from St. John's by Friday's train. He was in the city the past week at the Exhibition.

Mr. G. Broderick, agent for the Catholic Record was in town the past week taking orders for the paper, and has done remarkably well.

We are going to have a Park. Yes, a Park would indeed be something that Placentia would need. And now that the King's Coronation is to be celebrated next year I think it would be a wise thing to celebrate it in Ye Ancient Capital. A park put here in honour of the King's Coronation would greatly benefit Placentia. Newfoundland being "England's Oldest Colony," and Placentia being one of the oldest towns in the Island, I think it would be only right that something should be done here, and that something should be the Park.

Mr. E. V. Greene came over from Harbor Grace by Saturday's train to visit his friends. He will return on to-day (Monday).

The weather of the past few weeks has been very disagreeable. Boats have been unable to take fish. Other boats that have sailed a month or more with a load for St. John's have not yet returned, though they have left the latter place.

CASTLE HILL.

Placentia, November 7th, 1910.

H. P. Sauce

Simply say H.P.

to your grocer—he will hand you a bottle of the most appetising sauce in the world

Be sure you do say H.P., because it is H.P. Sauce you want

You can easily tell it—there's a view of the British Houses of Parliament and the letters H.P. prominently displayed on every bottle of real H.P. Sauce.

H.P. is used on the dining tables of the British and Canadian Houses of Parliament—that's why it's called H.P. Sauce.

Items of Church News.

FROM POUCH COVE.

Last week the C. E. W. Association of All Saints Church held a very successful tea meeting in the fine hall of the S.U.F., kindly placed at their disposal for the occasion. The tables were well stocked with an apparently unlimited supply of tempting viands, while the decorations were very pretty and tasteful. For over two hours the ladies of the Association were kept busy waiting on the numerous company doing justice to the good things spread in rich profusion before them.

Relieved at length from their duties at the tea tables, a small sale of work was held, articles useful, fancy or ornamental being offered at most reasonable prices.

A delightful concert and entertainment next followed, the performers being chiefly the school children, who having been carefully trained and instructed under our active and indefatigable teacher, Miss McGrish, acquitted themselves admirably. Recitations, dialogues, action songs, various drills, &c., were rendered in excellent style and were thoroughly enjoyed by the large audience.

After Rev. T. G. Netten had paid the just tribute of appreciation to the ladies of the Association, and thanking the audience, the S.U.F. and all other kind friends who had helped to

make the tea meeting and entertainment a success, the enjoyable event was brought to a close by all rising to their feet and singing the National Anthem.

On winding up the entertainment it was found that the proceeds amounted to over one hundred dollars, and the sisters of the Association naturally feel much gratified at their success. It is rumored that they contemplate putting another stained glass window in the chancel of their church.

On Sunday (23rd Sunday after Trinity) a missionary service was held in All Saints Church in the interests of H. and F. Missions. Evensong being ended, Rev. Mr. Clarkson gave an interesting address on "Borneo," explaining the customs, religion and spiritual needs of its people, many of whom are still in heathen darkness.

Rev. C. H. Barton, M.A., Principal of Queen's College, next gave a striking address, emphasizing the fact that on a certain spot at the back of Olive, not far from Bethany, Christ issued His grand commission to the little company of chosen ones that they were to be the bearers of the Gospel, beginning at Jerusalem and Judea and Samaria, but widening out and expanding until it reached the uttermost parts of the earth. Jerusalem was to be the centre of light, but it was to radiate from thence until little points of light started forth in every part of the world.

The addresses were listened to with deep attention by the large congregation present. A collection was taken up during the singing of the last hymn towards the H. and F. M. Fund.

After service a large number of Missionary boxes which lay on the altar were opened, and the amounts they contained were quite up to the average. The collection was a little in excess of that of last year.—Com. Pouch Cove, Nov. 5, '10.

C. E. T. S.

There was a large attendance at C. E. T. S. public meeting held last night in the Synod Building. An excellent musical programme was rendered in which the following assisted:—Misses M. Carter, Maitland, Lyon, Willar, Duffett, Morris, Mr. Noonan and Mr. Boone. Rev. Mr. Bell, the chairman, delivered an address and spoke of the late decision of the Licensing Board. They were not discouraged but look to a higher tribunal for the enforcement of the Act. Five persons signed the pledge and six joined the cradle roll of parents promising to bring up their children as total abstinents by example and precept. The Band of Hope will open next Monday with a lantern lecture. Teas were served by the ladies before the close.

H. M. S. Brilliant sailed at 4 p.m. yesterday for Halifax.

This Immigrant Had Plenty of Cash.

Arrival at North Sydney by Bruce Laid \$6,000 Before Astonished Officials.

A foreigner who arrived from Newfoundland as a steerage passenger on the steamer Bruce yesterday morning surprised the immigration officials while undergoing the usual inspection before them. The man, who claimed to be of Greek extraction, presented a rather impoverished appearance. As the financial standing of immigrants must be ascertained before they can be passed by the agent, a query to this effect was put to the Greek, the officials doubting from his appearance whether he possessed the necessary cash. The man quietly dug into a bag, the only baggage he carried, and from it produced several smaller bags. These he proceeded to empty on the desk, and they were found to contain gold, silver and notes, amounting to \$6,000. Nor did the Greek stop at that but proceeded to take more money from his inside pockets, when the officials called enough. Needless to say they opened their eyes and quickly gave him his passport.—Record, Nov. 5.

PHOTOED THE BOOTHS.—In the dry goods store of James Baird, Ltd., are some excellent photos of the interior of the Prince's Rink during the Exhibition and the various booths. These are the work of Mr. Thomas O'Mara who is an expert with the camera.

S. A. Congress.

Owing to a serious breakdown in health, Commissioner Coombs has had to forego the pleasure of visiting Newfoundland this year to conduct the Annual Congress. The Commissioner right along has been looking forward with great expectation to his visit to St. John's and to meeting his people once again, but the unsatisfactory state of his health would not permit him to take the long journey or the strain of conducting public meetings. Colonel Gaskin, the Field Secretary for the Dominion of Canada and Newfoundland, has been chosen by the Commissioner to take his place at the Congress this year. The Colonel is a practical and eloquent speaker, and is fully qualified by natural endowments, as well as a long and varied career of successful service in the Army, to inspire and help his audiences, be they S. A. officers in Council, or the public attending our great Congress gatherings. During the past week the Colonel has been making a tour of Notre Dame Bay and conducting officers' councils at Twillingate. He is expected to arrive by Thursday's express. A public welcome will be given him at 8 o'clock in the Citadel on New Gower Street.

Left For Catalina.

Mr. W. D. Reid left by the yacht Fife this morning to go to Catalina and thence will start to go down the Bonavista Branch line and make a complete tour of inspection. Capt. Delaney is in charge of the yacht which will be several days down there.

Exploits in Flood.

As exclusively reported by the Telegram on Saturday last the Exploits River, Red Indian Lake and other streams and parts have been very much swollen the past few days owing to the almost continuous rainfall of the past two weeks. At Bishop's Falls the new dam erected there has been pretty badly damaged, and for a while the settlement was threatened with inundation, but the bursting of the dam took away the waters and saved the place from the threatened danger. At Grand Falls a heavy boom of logs was carried away and the A. N. D. Co., the owners of the timber, will suffer much loss and no little inconvenience, though it is likely that many logs will be picked up at Norris Arm. Not for years have such continuous rains been experienced in this section.

Bachelor of Divinity.

The Rev. J. A. Adams, incumbent of Spaniard's Bay, has been successful in his examination for B.D., word from London to that effect having been received by last mail. Four colonials entered—three Australians and Mr. Adams. The latter was the only successful candidate. The rev. gentleman is to be complimented on his success.—The Standard.

Labrador Herring Very Scarce.

The old-time Labrador herring which was so much in demand amongst our people 20 years ago, are now almost an unknown quantity. Mr. P. J. Shea, grocer, while down at Bolster's Rock, the past fall, tried to get some, but on all that section of coast only a few barrels were taken, and these were taken in cod traps. He could only get 2 barrels.

Marine Notes.

The S. S. Glencoe was delayed on her last trip to the west on account of foggy weather.

The schr. Jean, Capt. Kennedy, sailed to-day fish laden by Crosbie & Co. for Bahia.

The schr. Nicola which took the balance of her cargo at Balne Johnston's premises sails to-day for Barbados. Most of the cargo was shipped by A. Goodridge & Sons.

The S. S. Tobasco, Capt. Yeoman, arrived here at 5 p.m. yesterday, after a run of 9 days from Liverpool. The ship had terrible weather on the run to port, and latterly it was moderate, while dense fog prevailed the past few days. She brought considerable freight and some mail matter. She sails for Halifax this evening.

GUARD AT LOCK UP.—Sergeant Cleary, who for years past has been doing duty at Ferryland, has been appointed guard at the lock up replacing Sergeant Corbett who has been on the sick list for several months past.

Training Observation Foresight Executive Ability Money Making Poor Health

Can You Afford A Weak Link In the Life Chain?

If you are forced to admit that the Health Link is growing weaker, suppose you look carefully after the cause.

Your own well-being and comfort may suggest determined effort to correct.

Perhaps you will permit a suggestion based upon some wide experience.

There is one particular thing which directly attacks the health of one in every three of the users.

Its work is plain enough. Nerves, heart, stomach and other organs becoming more and more unbalanced, but the real cause is frequently unsuspected.

To demonstrate the real facts as applied to yourself, and for your own satisfaction, it is suggested that coffee be absolutely discontinued for 10 days and observe the results.

If you discover a stronger, better acting heart, steadier nerves and sounder sleep, it will be reasonably clear that your body is offering thanks for relief from the daily drug, caffeine—the base of coffee.

When this destructive drug is discontinued Nature starts to repair the damage.

You will probably receive much benefit from simply leaving off coffee.

It will greatly add to your comfort to have a good, hot cup of well-made Postum each morning and Dame Nature will repair much more rapidly, for Postum contains some elements from the wheat which Nature uses in rebuilding nerve tissue.

You can have the scientific data on request.

The facts are here, and

"There's a Reason" for

POSTUM

Postum Cereal Company, Ltd., Battle Creek, Michigan.

WHEN YOU WANT OYSTERS BUY "SEALSHIPT"

and you get Oyster quality. The name SEALSHIPT guarantees you pure sea food, with the genuine sea flavour.
