Directions for the Guidance of Electors in Voting.

EACH Elector, on entering the room where the Poll is to be held shall declare his name, surname and address.

After so doing he shall receive a Ballot Paper in the above form.

Each elector, if required by the Deputy Returning Officer, the Poll Clerk or one of the agents shall, before receiving his Ballot Paper, take an oath of qualification.

After receiving his Ballot Paper, the Voter shall go into one of the compartments and with a pencil there provided, place a cross to indicate his vote on the question at issue. An affirmative vote on the question submitted shall be made by placing a cross (thus X) in the space after the word 'Yes' and a negative vote by placing a similar cross in the space after the word 'No'.

## The Prohibition Campaign.

Little Bay East, Fortune Bay, Expects Victory.

October 28th, 1915.

Mr. A. Soper, Campaign Secretary, had the following wire from Rev. Mr. Sears, of Little Bay East, Fortune Bay: "We anticipate victory in this entire section—Sears." This is surely good news. Well done, Little Bay.

Horse Cove, Conception Bay.

Mr. R. J. Lawlor writing from this place says: "Good vote will be polled in this place for Prohibition; many of our men were up at St. Philip's to hear the Rev. Dr. Jones and since then they are heart and soul for Prohibition."

Good News From Fortune Bay.

Rev. Hugh J. MacDermott, telegraphs the Secretary Prohibition Campaign Committee from Pool's Cove, Fortune Bay: "Making complete canvass of district; every prospect of good majority vote."

Quirpon and Griquet Favour Prohibition.

Last evening the Prohibition Committee had word from a gentleman doing business in these important fishing settlements. He says both here and in surrounding places strong sentiment in favour of Prohibition.

Bellefleur Promises a Large Majority.

Rev. G. S. Templeton wires: "We are holding satisfactory meetings everywhere. Large majority favour Prohibition. This looks like a sure thing."

Old Perlican—No Opposition.

In Old Perlican the outlook is bright for Prohibition. All that is needed, as conducive to success here, is plenty of energy—plenty of efforts—plenty of optimism and plenty of faith as to the issue.

If Old Perlican rises to the situation she will uphold the honor of her good name in being foremost in the work of general reform in this Island and in the future it will be an un-failing pleasure to know that her labours in this grand cause of Total Prohibition were crowned with success. Well done Old Perlican—Don't permit your efforts to wane, or your ardour to decrease, until victory is perched upon our banners.

Bonayista to the Front.

Bonayista is to the front with Committees and Sub-Committees all in working order. An able secretary is at the helm here and the work is progressing favourably.

Gambo and Port Blandford.

Some difficulties experienced owing to the situation of the men at the lumber business but it is hoped that this will be overcome. The leaders there will do their best to help in the good cause to victory.

Heart's Content, New Perlican and Winterford—Trinity Bay's Grand Trio.

There are many excellent workers in this district, and, of course, in any work of reform they are sure to be in the vanguard. In the female population many ladies will be found whose interest and effort form an important and influential consideration in every good work and they will make good care not to be behind, or in any way a measure delinquent in this most important matter—a matter aiming at the salvation of the youth of the present population from the ruinous habit of indulging in intoxicating beverages. Well done ye grand trio. Your work will live in fact and in human memory long after you are gone to your reward.

Clarke's Beach.

Organization has been completed and a United March to Victory is in hopeful contemplation. In this old historic settlement, around which so much interest centres we hope to see grand work accomplished for a Prohibition Victory.

Springdale Solid for Prohibition.

Western Bay, Cat Hr. and Chance Cove, in the march. Some difficulties to be overcome. People generally favorable to the campaign and will do their best to bring about success to the undertaking.

Blackhead to the Front—"Organized Weeks Ago."

Blackhead, another old historic settlement, with many traditional remembrances, is to the front. There is nothing like being in time. It is said of the "Black Prince" that he contracted a habit of saying "In ten minutes time," when asked to do anything, and on one occasion when his army was in danger and he was advised to retreat he replied "In ten minutes time," and "before that period was expired his body was riddled with bullets. When an opportunity offers to do away with danger, or to get out of the way of danger, the best thing, and the safest thing, and the wisest thing anybody can do is to be in time.

Botwood is Doing It's Part.

Botwood is doing it's part—organized and progressing prospects favourable.

Brigus in the Fight.

Brigus realizes the importance of

the situation and is prepared to fight the campaign to the close.

Bay Roberts Right.

A very favourable Prohibition sentiment prevails in Bay Roberts where efficient organization has been effected. Suitable lectures have been delivered here and the voters, in a calm reasoning attitude, pronounce themselves favourable to a Prohibition Victory.

Grand Falls and Millertown.

Both these lumbering settlements are favourable to a Prohibition vote. Grand Falls is organized and progressing. They report some disability as to voting and think some special arrangement should be made to meet the conditions there existing—applying to transient voters engaged in lumber operations.

This matter will no doubt receive due consideration.

Twillingate will give a Large Prohibition Vote.

The tide is running high for the good cause in Twillingate and the workers there are backing up a strong feeling with great activity. King Alcohol will receive some of his hardest blows from this quarter. Preparations for the fight have been made some time in advance and there is no such thing as defeat in the Twillingate vocabulary. Men of the North stand up for your rights and liberties against the common enemy of mankind.

Carboner Joins in the Fight.

There can be no doubt that some good work will be done at Carboner by the able workers residing there. The outlook is good for a large Prohibition vote and a triumphant victory. Of course difficulties may intervene but a people resolved to win will make their difficulties and disappointment the steppingstones to a glorious victory. Well done Carboner—go forward.

Obituary.

MICHAEL REEDY.

After a brief, though very tedious illness, the death occurred of Michael Reedy, this morning, at his residence, York Street. Deceased was 71 years of age and for over thirty years was a tide waiter in H. M. Customs, which position he held up to a week before his death as it was only then that he complained of being in failing health. He was a well-known figure in St. John's East. He is survived by a widow, one daughter, one son, several grand-children and a large circle of relatives and friends to all of whom much sympathy will be expressed.

"LOOKED THE PART."

Men must look right and be right to command success. Clear eyes, clear skin and clear brain mean money to the man who possesses them. Dull eyes, sluggish brain and a pimply, blotchy skin are a serious handicap.

O'Mara's Hypophosphites will remove pimples and blotches, brighten the eye and increase vital power by giving you pure blood and good circulation. Price \$1.00.

We recommend it because we know what it contains.

PETER O'MARA,  
The Druggist,  
46-48 Water St. West.

## Household Notes.

Wild grapes make the best of jelly. The bigger the closet in the sewing room the better.

To pack bottles for travelling, dip the corks in paraffin.

People are very apt to use more sugar than they need in cooking.

Cereals for milk puddings should be soaked before cooking begins.

Batter puddings are quite light made with part water instead of all milk.

A pinch of bicarbonate of soda added to stewed fruit makes it possible to use less sugar.

A stovepipe can be cut with the help of a can-opener exactly as you would cut a can.

Sally Lunn cake, fresh and hot, is a welcome accompaniment to the afternoon tea table.

Joists cooked in casserole do not waste nearly so much as those cooked in the ordinary way.

The ideal sewing room has an electric iron in it to save steps; also a roomy scrap basket.

If there is a fruit stain on a garment, pour boiling water through the stain until it disappears.

By keeping household supplies al-

ways on hand a great deal of the sense of rush and weariness is saved.

To keep brass candlesticks and handirons bright for years apply a coat of varnish after they have been scoured.

It is said that a bowl of lime in the closet where jellies, jams and preserves are kept will prevent them from moulding.

When serving hot meat or vegetables, serve them very hot. They are really more tempting nearly at boiling point than half cold.

If the blankets have been in use through the summer now is the time to sun and air them before the fall and winter storms set in.

Each week all dustcloths and scrubcloths should be thoroughly washed and dried in the sun. They will then be in good condition to use.

Cheese grated is considered more digestible than cheese sliced. Only a little should be eaten at a time, because it is concentrated nourishment.

When baking a cake a delicate flavour can be obtained by placing a few leaves from the peach tree in the bottom of the baking dish before putting in the batter.

When olive oil dressing will not thicken after the necessary amount of oil has been used, beat in a small

quantity of dry cornstarch. This prevents the curdling.

Now is the time to equip the sewing room with all needed materials. Needles, pins and thread purchased in sufficient quantities for the winter will save endless time and worry.

A good dressing for sliced tomatoes is made with a hard-boiled egg, chopped fine and mixed with mustard, some butter and cream. Season to taste and place on each slice of tomato.

If your eyes smart and feel tired, bathe them in a little warm water in which a pinch of boracic powder has been dissolved. Use an eye-cup for the purpose and take an eye-bath every night.

No matter how much dripping is used, fish when being fried is apt to stick to the pan's bottom. If a tablespoonful of dry salt is put into the pan and rubbed over it, it will be found satisfactory.

Remnants of meat of different kinds can be ground fine and mixed with rice, a raw egg, seasoned and made into cakes and fried brown on both sides. They are very good for a lunch dish.
