KITCHENER'S STAFF.

LONDON, June 6. Accompanying Earl Kitchener and his staff were Hugh James O'Beirne, former Counsellor to the British Embassy at Petrograd, and former Minister at Sofia, O. A. Fitzgerald, Earl Kitchener's private military secretary, Brigadier General Ellershaw and Sir Frederick Donaldson.

WAR COUNCIL MEETS.

LONDON, June 6. When the news of the sinking of the Hampshire was received in London, a meeting of the British War Council was immediately called. Sir Wm. Robertson, Chief of the Imperial Staff, who probably will become the head of the War Office, Sir Edward Grey, Reginald McKenna, and David Lloyd George were present.

BEATTY AND THE NORTH SEA BATTLE.

LONDON, June 6. Rear-Admiral Sir Hedworth Meux, who was elected to the seat in the Commons left vacant by Admiral Lord Charles Beresford, when the latter was created Baron, and who has become spokesman for the Navy, read at a public meeting to-day the following letter from Vice-Admiral Sir David Beatty, who commanded the battle cruiser squadron in the North Sea fight: "We drew the enemy into the jaws of our fleet. I have no regrets except for the gallant lives lost; for pals that have gone who died gloriously. It would have warmed your heart to have seen how gallant Hood brought his squadron into action. Would to God we had been more successful in the general result. We will be ready for them next time, and please God it will come soon. The battle cruiser fleet is still alive, and has a very big kick in her."

BATTLE RAGING ON RUSSIAN FRONT.

AMSTERDAM, June 6. Despatches from Vienna report that a violent battle has been raging during the past 24 hours on the Russian front, along a sweep of 300 kilometres (about 200 miles.) The correspondents describe countless waves of Russian infantry being sent into battle. General Brussiloff, who is believed to be in command of the Russian forces on this front, seems, according to advices, to be following tactics pursued by the Russians in the Carpathians, making mass attacks in an effort to break through the hostile lines.

REPORTED CAPTURE OF PRISONERS BY RUSSIANS.

PETROGRAD, June 6. The Russians continue to develop the success won by their newly-inaugurated offensive. It is reported that up to the present time they have captured 230 officers, 25,000 men, 15 cannons and 15 machine guns.

OFFICIAL STATEMENT OF NORTH SEA BATTLE.

LONDON, June 6. The following official statement regarding the North Sea battle was issued here to-day: The German Admiralty official issued on June 2 said that among other casualties a British submarine was sunk in the course of the battle during the afternoon or night of 31st May. All British subs. on the sea at that date have now returned, and it must therefore be assumed if any importance can be attached to the German official that the sub. sunk was an enemy sub. This vessel should be added to the list of German losses stated in the British official of June 4.

EARL KITCHENER.

LONDON, June 6. Incidents and phases in Earl Kitchener's career are being numerously recalled now in connection with his untimely end. There is no question

that the tradition of recent times picturing him as a man of extremely plain life, was over-colored. The story that the first thing he asked for when he took charge of the War Office was an iron bed in which to sleep was fiction. The Government gave him a handsome mansion in York House, which is a part of St. James' Palace, for a residence at the beginning of the war. He surrounded himself there with costly art objects, of which he was an enthusiastic collector. A French writer who met Lord Kitchener at Fashoda on the occasion of his historic encounter with Col. Marchand's expedition, which brought France and Britain nearer war than they have been since Napoleonic times, described him as a man known to his officers as 'without physical fear. He was twice wounded in earlier campaigns. Lord Kitchener was one of the first public men to announce to the world that he would follow the appeal of King George that the nation abstain from the use of alcoholic liquors during the war.

ADMIRALTY ANNOUNCEMENT.

LONDON, June 6. The Admiralty made the following announcement to-night: A Berlin official communiqué, signed by the fleet commander, has been issued to-day, which reports the loss of the Warspite, Princess Royal, Birmingham and Acasta, in the action on May 31st, claimed on evidence of British sailors picked up by German ships. This is false. The complete list of British losses has been made public.

LOST ON QUEEN MARY.

TOKIO, June 6. Lieut.-Commander Chosuka Shimomura, Japanese naval observer in the British battleship Queen Mary, was lost in that warship when she sank in the Jutland engagement last week.

CARSON AND ULSTERITES.

BELFAST, June 6. Sir Edward Carson, Unionist leader, addressed five hundred representative Ulster men here to-day, on the proposed terms of the Irish settlement. Members of the press were not admitted to the meeting.

WANTS GERMANS EXPELLED.

LONDON, June 6. On the stock exchange, where business was suspended as the announcement of the tragedy came in, no news since the outbreak of the war caused such bitter feelings against German members. While most members of German birth were expelled some months ago, a few who had sons fighting at the front were allowed to remain. To-day the members after the close, met and passed a resolution asking the committee to publicly expel all German members.

To-day's Messages.

WEDNESDAY'S CRITICISM OF KITCHENER.

LONDON, To-day. Premier Asquith's speech defending Kitchener from criticism reflecting unfavorably on the conduct of the war, was made last Wednesday, when Sir Ivor Herbert introduced in the Commons a motion for the reduction of the War Secretary's salary, which is the customary method when finances are discussed, to give an opportunity for criticism of any official.

ON WAY TO CZAR.

LONDON, To-day. An official statement issued last evening says Earl Kitchener was to have discussed the military and financial questions with Emperor Nicholas.

KITCHENER'S DEATH.

LONDON, To-day. The news that Kitchener, Secretary of State for War, and his staff, who were proceeding to Russia on board H.M.S. Hampshire, were lost off Orkney Islands last night, was the most stunning blow Britain has received since the war began. This is the second shock the country has sustained within a week. The other was when the newspapers appeared on Friday evening with the first information of the naval battle in the North Sea and from the list of lost with virtually no intimation that there was any compensation of enemy losses. The bulletin of the death of Kitchener gave the country even a greater shock. Kitchener was the one outstanding figure of newspaper attacks, which at a former period threatened to undermine his popularity. A telegram from Jellicoe, Commander of the Fleet, giving bare facts, was received by the Admiralty at 11 o'clock yesterday morning. The first official announcement issued was about 11.30. When the official announcement finally was issued the fact spread about London sometime before the newspapers could get into the streets. There was a crowd about the Stock Exchange which required the police and reservists to deal with. At the same time another mass of people assembled about the Government offices at White Hall. All the windows of the War Office had curtains lowered.

GinPills

What They Have Done

"I suffered a great many years with kidney trouble; tried several remedies, and also doctors' medicine, with no result. Two years ago I read an ad. in a newspaper of 'GIN PILLS FOR THE KIDNEYS,' and sent for two boxes. They did me more good than all the medicine I had ever taken. After I used the first two I sent for two more boxes, and I am satisfied, and also know, that Gin Pills are the best kidney remedy made."

I used to have to rise three or four times in the night; now I can sleep and don't have to get up at all, thanks to GIN PILLS. Am seventy-two years old.

They confirmed the rumor beyond doubt, and more gathered round the newspaper offices. When boys came out with armfuls of extras, people fell on them and fought for papers.

In the course of the afternoon the flags on all buildings were half-masted. The English undoubtedly are a stoical people and have taken good and bad tidings of the war as they came with the absence of emotion surprising to outsiders. But no one could have walked the London streets to-day without perceiving something which the common people took as a calamity before them. The Foreign Office is saddened by the loss of one of its most valuable members, Hugh James O'Beirne, while Sir Frederick Donaldson and Brigadier-General Ellershaw, Minister of Munitions, are known to be men whom the nation could little afford to lose.

The fact that the cruiser Hampshire, with between 200 and 300 men had been sunk was generally accepted as an unfortunate detail these days when thousands go under almost as an accident of warfare. The Canadians' battle gets only a scanty column in the newspapers. The King came from Windsor and sent for Premier Asquith when he heard the news.

The War Council held a long session, and naturally speculating regarding Kitchener's successor, began immediately. Among those discussed were David Lloyd George, Lord Derby, and the Chief of the Imperial Staff, Sir William Robertson, but whether a military man or a civilian will take the War Office has not yet been decided.

Kitchener met his death at a moment which will ensure his position in British history. He was almost the only member of the Government who from the beginning confidently asserted that this would be a long war; his lowest estimate was three years. He insisted that the Government should make its plans accordingly.

The organization of an enormous new British army is well underway; the General Staff, under General Sir William Robertson's direction, accordingly to belief, has well in hand the task of working out the details which in planning and launching; there is no evidence to show whether the Hampshire was sunk by submarines or struck a mine. Many ships have been passing between Russia and Britain over the same route to Queenstown since the Archangel route opened. Official news was a greater surprise than it would otherwise have been, because no one knew Kitchener had left England. A memorial service is to be held at St. Paul's. The nation was depressed and grieved at the news of General Townshend's surrender at Kut-el-Amara, but not before had it been as saddened as to-day.

proceeding on a special mission to the Emperor of Russia. Field Marshal Kitchener gave 48 years distinguished service to the State. Largely due to his administrative genius and unflinching energy we were able to create armies which are to-day upholding the traditional glories of our Empire. Kitchener will be mourned by the army as a great soldier who under conditions of unexampled difficulty rendered supreme and devoted service both to the army and State. His Majesty the King commands that officers of the army shall wear mourning with their uniforms for a period of one week; officers to wear crepe on left arms of great coats."
