Guelph Evening Mercury

TUESDAY EVENING, SEPT. 23, 1873

Town and County News.

A PEACH FESTIVAL is to be held to-night in the Drill Shed, under the auspices of the ladies of St. George's church. This is the first of the season, and a pleasant evening may be expected.

DR. BEROIN, M.P. for Cornwall, is in Guelph on his way to the London exhibition, and leaves by the afternoon train. While in town he was the guest of Mr. J. P. McMillan, who belonged formerly to Cornwall.

"OUR SMALL SHEET" is the caption of the salutatory article of the Thornhill Review, No. 1, published in Thornhill village by Mr. S. E. Horne, formerly well known in Guelph. It is a good-looking little paper, weekly, of twenty columns. If perseverance can ensure success, the editor and proprietor of this Review should have it, for he says, "This is the third time that we have embarked in the publication of a Local Newspaper within the short period of nine years, but unfortunately as yet, with anything but success," and he quotes the old saying, "There's luck in odd numbers."

BLACKWASH and WHITEWASH.—By way of comment on the direful threatening prophecies which have greeted some of his late efforts, Grip comes out with a cartoon livelier than ever this week. In the centre foreground is a large bust of Sir John. On one side are Mr. Geo. Brown, Mr. Blake, and Mr. Mackenzie, assiduously engaged in blackening the solemn-looking image, whilst Mr. E. Wood is kneeling on the ground mixing up a pot of the black stuff. On the other side Sir John, in judicial wig and robes, is busily engaged in whitewashing the bust. Patterson of the Mail and Besty of the Leader are holding the tub of whitewash for him. All the figures are spiritedly drawn and the likenesses are as good as ever.

INDICATIONS of the coming change of gauge on the Grand Trunk from 5 ft 6 to 4 ft 8 1/2 in, have for some time been visible along the line at Guelph. Just inside the southmost rail those of the ties which are at all higher than their neighbors have been shaved down with an adze for some inches, ready to receive the rail when shifted. The change is to be from Montreal to Stratford, and will be made on Friday and Saturday, the 3rd and 4th Oct. All the Rolling Stock working west of Montreal will also have to be changed from broad to narrow gauge trucks and this work was commenced on the 22nd September, which will cause a great scarcity of cars between now and the 4th October. A large number of new narrow gauge engines are also now being delivered, and by the end of October the majority will be in possession of a much larger number of engines and cars than they have ever before had. The forbearance of shippers is requested while these large alterations and improvements are being carried into operation.

HANDSOME STICK.—We were shown this morning a very handsome second growth hickory cane, which is to be presented to Rev. Newman Hall upon the occasion of his early visit here. It is the handiwork of Mr. John Saunders, a fireman in the employ of the G. W. R. Co. at Hamilton, Ont., and was made for Mr. Pearce, a well known engineer on that line and a resident of Hamilton. Mr. Pearce was a member of Dr. Hall's congregation when he was in England. Upon the crook of the handle is a neat plate bearing the inscription: Presented to Rev. Newman Hall from Wm. Pearce Hamilton, Ont., 1873. Below that is a beautifully cut space, about which are the words, "Come to Jesus," and "It is I," two of the greatest productions of the minister. Then handsome scrolls entwined about the length of the cane, which is well and strongly made. Within the words above mentioned is an index hand pointing heavenward, flanked by the initials "N. H." The whole case is the result of work that is creditable to Mr. Saunders, working, as he did, with only a jack-knife and a file.—Hamilton Times.

Board of School Trustees. The regular semi-monthly meeting of the Board was held last evening, in the usual place. The Secretary reported that he had advertised for a teacher to take charge of Class 5, in the Senior Girls' School, at a salary of \$300 a year, and read the applications, six in number, which he had received for the situation. On motion of Mr. Newton, seconded by Mr. Harvey, it was agreed that Miss Teresa McKenna be elected to fill the position. Mr. Raymond reported, from the Special Committee on School Site and Buildings, the names of the sureties proposed by the contractors for the mason and carpenter's work, and painting of the proposed Central School, when it was agreed that the same be approved, and that the chairman be authorized to sign the contract with the other tradesmen on their furnishing approved security. This being all the business the Board adjourned.

BY TELEGRAPH.

Yellow Fever Increasing. The Panic. Shoemakers' Strike. The Spanish Steamer Murillo. Insurgent Cause Declining. Editor Fined. Princess Bismarck Dead.

London, Sept. 23.—The members of the Polar expedition left Dundee yesterday for New York. A large crowd witnessed their departure and cheered as they left. The party have signed a letter of thanks to Capt. Adams of the steamer Arctic.

Nine of the Bury St. Edmunds rioters have been sentenced to from 3 to 8 months' imprisonment. A despatch to the Times says that two thousand insurgents made a sortie from Carthage yesterday, but retreated as soon as they came within range of the guns of the besiegers. The continuance of the insurrection now depends wholly on the success of the expedition to Alicante. Unbusiness with regard to the liberated convicts increases; stabbing cases and other deeds of violence are alarmingly frequent.

Berlin, Sept. 22.—The wife of Prince Bismarck died to-day. London, Sept. 22.—The Spanish steamer Murillo, which ran down the emigrant ship Northfleet, having arrived to-day at Dover has been detained there by orders from the Admiralty.

The Coast Guard officers boarded the steamer Murillo immediately on her arrival in English waters. Her coming here is considered a virtual surrender for the purpose of settling the question of liability. The Spanish Consul is held responsible for her custody while she remains in the port of Dover. It is expected that the vessel will be sent to London where the case will be tried. Her present Captain is not the same who commanded her at the time of the collision with the Northfleet. There is much excitement at Dover over her presence and detention. She is anchored close to the battery.

Chief Justice Cockburn has fined the Editor of the Cheltenham Chronicle \$750 for publishing criticisms on the conduct of the trial of the Tichborne Claimant, and threatens him with imprisonment if the offence is repeated.

MADRID, Sept. 21.—The end of the insurrection at Carthage is approaching; dissensions have broken out among the insurgents. The Government has offered terms which the leaders are willing to accept, but fear their followers and the liberated convicts.

The proclamation suspending the constitutional guarantee establishes a rigorous censorship over the press, and prohibits the carrying of arms by civilians. It is officially stated that the situation of the Carlists in the north is precarious. The discipline of Republican troops has vastly improved. General Garibaldi, in a letter to Senor Castelar, tenders his sword in the service of the Republic. The President replies, thanking the General for his noble offer, but declaring that Spain now needs no assistance.

New Orleans, Sept. 22.—A despatch from Shreveport to the Picayune says that the yellow fever there has not abated. The same proportion of deaths to the population in New Orleans would be one thousand per day. The weather is exceedingly unfavorable, and the disease is spreading in the suburbs. The wives of ex-Judge Leveise and Judge Toney have died. Capt. B. H. Sale, of the firm of Sale & Murphy, one of the oldest and wealthiest, and most valuable citizens of Shreveport, died this morning.

Later, 8 p.m.—The epidemic is on the increase. There were 20 interments up to 5 p.m. A number of deaths have been reported since, among them Dr. Wise. New York, Sept. 22.—The banks are generally open. Mr. Camp, of the Clearing House, states that all the banks have pulled through except two, and those are now settling through the Loan Committee.

New York, Sept. 22nd, 2 o'clock p. m.—The National Banks are paying all legitimate business in greenbacks, but anything like a run is paid in certified checks, which must pass through the clearing house. The feeling continues to improve in financial circles. Three millions of dollars' worth of bonds have been caught by the sub-treasurer up to this hour.

A terrible tornado passed over the region of Tallahassee, Florida, last Friday. Thirty houses were unroofed, and crops and cattle were destroyed.

New York, Sept. 23.—The Government is doing the best probably that it can under the circumstances. All the morning journals make in expressing opinion that the panic is over.

John Bonner, the banker, who over-drew his account at the Bank of North America to the extent of several hundred thousand dollars, has made a satisfactory settlement with the bank. Large orders continue to be received from all over the country, by brokers, for the purchase of stocks, so that a lively bidding is anticipated when the Stock Exchange re-opens.

Buffalo, Sept. 23.—H. W. Burk & Co., bankers and brokers of this city, have suspended. They say their assets exceed their liabilities.

New York, Sept. 22.—A general strike of shoemakers is imminent. Two hundred struck to-day.

The run on the Hoboken Savings Bank had stopped this morning.

Wroctser beat Listowel at base ball last week 95 to 99, and they think they can play Guelph now. "Come on, if you're fit."

J. Mitchell showed tumblers and pointers; Robert McCrae, fantails, Jacobins, and tumblers; D. Coffe, Jacobins. The display was a very pretty one, and elicited much admiration from the lookers-on.

LADIES' WORK. This department in several of the sections is not so well filled as usual, still there are many meritorious exhibits. In their work we noticed several fine specimens, a prominent amongst which those of Miss Andrews, Guelph; Miss C. Watt, Puslinch; Miss Stevenson, Guelph, deserve especial mention. In seed wreaths, and flower do., Mrs. W. Cockburn, Puslinch; Miss C. C. Cockburn, do.; Mrs. Joseph Shaw, Waterloo; Miss E. Morgan, contribute some exceedingly pretty handiwork. In moss work the first prize goes to Miss N. Strickland, the second to Miss S. Strickland; whilst Mrs. E. H. Madock, and Miss Lavinia Parkinson are excellent contributors. In shell work, Miss Jos. Parkinson carries off the first, and Miss L. Parkinson the second prize. Miss M. Brown, Chingacousy, exhibits a very neat tastefully arranged shell work in this class. The first prize is a shell work frame of a likeness of the Prince of Wales, and the second the same thing of a likeness of Mr. Gladstone, both very finely arranged and executed. Miss Tolton, Eramosa, comes off the first prize for worsted work raised; Mrs. Garbham, Guelph, is first for worsted work; Miss L. M. M. Guelph, very decidedly obtains an extra for a very fine drawing room chair in worsted work. Mrs. Landreth, Galt, obtains the first prize for an exceedingly fine specimen of worsted work in Berlin wool, whilst Jas. Stone, Miss Eliza Robertson, all of Guelph, and Miss M. Brown, contribute some fine specimens.
