HAMILTON CONFERENCE.

Hamilton, Ont., June 4.-At the Hamilton Methodist Conference yesterday resolutions were passed changing the date of conference meetings next year to the first Thursday in June, and that all pastors be responsible for their charges to the end of June of the year of moving. A motion was passed that the conference sympathized deeply with the Montreal church and would indorse any general scheme for secur-ing assistance toward further reducing its debt. In response to the appeal of Joseph Gibson, of Ingersoll, \$1,500 was subscribed on the spot by the delegates in aid of the Woodstock church.

were recaltured." London, June 4-6 a.m.-The war office authorities have lost no time in saddling Lord Kitchener with the responsibility for not satisfying the public demand for more detailed news from South Africa. The suspicion, notwithstanding, still exists that the home officials are holding back some information. The war office is being inundated with numerous inquiries because of the currency that has been given to the rumor of a serious British defeat. It would not injure the British army if the details of the Vlakfontein fight, which by this time have reached Lord Kitchener, were telegraphed home at once, and it would help to relieve the uneasiness felt by a million or more of English men and

women who have relatives at the front. The war office made the following announcement last night: "All the information received from Lord Kitchener respecting recent engagements in South Africa has been communicat-

Yearly Statement—A Note of

Warning.

Montreal, June 4.-At the annual meeting of the Bank of Montreal yesterday the statement of the directors presented to the shareholders gave the following statistics for the year: Circulation increase, \$321,000; deposits not bearing interest, increase, \$1,963,-000: deposits bearing interest, increase \$5,422,000; current loans and discounts, decrease, \$360,000. It is pointed out that it is impossible to compare the above figures with last year's, on account of the changes necessitated by the amended bank act, as the figures include foreign as well as Canadian business. The profits are a little in excess of last year, and the statement, the directors point out, is one of the strongest they have had the pleasure of laying before the shareholders. The statement refers to the need lessness of a Canadian mint, and goes on to refer to the business situation which it says was generally good during the past year, notwithstanding the short crop in the Northwest and unsatisfactory state of affairs in the mining districts. After referring to the condition of the woolen business, the statement says: "The outlook for the lumber trade is not of the best. There are also signs of over-production in textile goods and manufacture of pulp, which only need judicious restraint to be put on a good basis. We must not forget the return of the wave," says the statement, "and get so far beyond our depth as to lose

Agitators. St. Petersburg, June 4.-Socialist agitators are now reaping a great harvest among the laboring class, whom they desire to excite to revolution. Arrests are very numerous daily in the district and neighborhood of St. Petersburg. Factories representing 64,000 laborers are daily invaded by socialist leaders,

who fearlessly defy the special police set to watch their movements. The higher classes in society are anxious over these manifestations. The editor of one of the best-known semi-political papers has just been arrested along with the entire staff for uttering seditious opinions. Several professors, -among them Baranovski and Ugan, two well-known political lecturers have been arrested and sent to Si-

beria. Others have been exiled to the Volga districts. The government tries to conceal the situation, but fails. There is terror in the air. Nobody is safe when the official ire is aroused. In St. Petersburg troops are ready to crush any further rioting at a moment's notice. This they are determined to effect even

if they have to make blood flow like water. MAY RETIRE TO A NUNNERY. London, June 4.-A rumor is current here to the effect that the Dowager Empress of Newcastle, mother of the present duke and of Lord Francis Hope, is about to become a nun. CURE FOR DIABETES

French Doctors Are Using Brewer's Yeast With Remarkable Success.

Paris, June 4.-There is probably no country in the world where more people die of diabetes than France. It is. therefore, not surprising that the doctors are racking their brains to find a remedy. The latest discovery of medical science seems to have touched the spot. A Bordeaux doctor, M. Beylot, has been giving his patients brewer's yeast with remarkable success. Two others have done even better. In one case the saccharine matter was reduced from 25 grams to 10 grams, and in another from 100 grams to nothing, accompanied with the cure of a gangrened foot. It appears that the yeast destroys the saccharine matter as it forms. Yeast is liable to cause eruptions, but this can be obviated by
