

Her Last Corn Ache

When pain brings you to Blue-jay, it means the end of corns. Blue-jay proves that corns are needless. And never again will you let a corn pain twice.

The pain stops instantly. In 48 hours the corn completely disappears. The action is gentle. No soreness results. It is sure and scientific and final. Millions of people keep free from corns in this easy, simple way. Please try it. Blue-jay is something you should not go without. And nothing can take its place.

CONTROLLERS REFUSE TO APPOINT A BOARD TO TAKE OVER WELLS

Want Utilities Commission to Give More Information.

WILL EXTEND LIBRARY

Another Store in East End Hall Will Be Fitted Up.

The board of control yesterday afternoon refused to name a board of arbitration to take over the Macgregor wells at once, but decided that the utilities commission should furnish the board with more information as to the quantity and quality of the water in the wells, the cost of pumping the supply, and piping it, and what alternative schemes were being considered. The board thought this information should be forthcoming at an early date.

The board, with Building Inspector Piper and Librarian Landon, inspected the east end hall, and it was decided to give the library board the west store for extensions. Mrs. Chief Alden will make room for the motor fire truck in some other portion of the building. The controllers discussed the question of a breakwater on Blount street, and laid it over for further consideration as to policy. It is possible that a bylaw will be submitted to the people to raise a portion of the \$25,000 needed for the work, quite a portion of which will be charged against the property. The new motor fire truck was insured with J. A. Nelles & Sons. The policy goes into effect at once.

Starts at Once.
Work on the diversion chamber at the Evergreen avenue syphon chamber will be proceeded with at once, the contract having been let some time ago. The W. E. Seagrave Company, Walkerville, offered to rebuild the old fire truck destroyed at William street two years ago into a tractor for the aerial truck for \$4,000, or allow the city \$1,200 for the old truck and give a new tractor with modern improvements for \$6,000. The board was favorably impressed with this offer, but action was deferred until Monday morning.

The ladies of the Adelaide Street Baptist Church were given the use of the East End Hall for a rummage sale on October 23, 24 and 25.
BELL-FERRIS.
BLYTH, Sept. 22—"Oak Grove," Hullett, the home of Mr. and Mrs. Robert Ferris, was the scene of a pretty wedding September 20, when their oldest daughter, Miss Alice Bell, was united in marriage to the strapping Lohengrin's wedding march, played by Miss Alice Bell, sister of the groom, the bride party took their place before a bank of ferns and asters. The ceremony was performed by Rev. Mr. Abrey of Londonboro, in the presence of the immediate relatives and friends of the bride and groom. During the signing of the register Miss Leithwaite of Godrich sang "I Love You Truly." The bride wore a dainty gown of white silk crepe and carried pink carnations. Her traveling suit was a carnation brown with black hat, trimmed with metallic flowers. Among the beautiful gifts received by the bride was a leather rocker from the D. A. M. D. Club. Mr. and Mrs. Bell will be at home to their friends at "Idelwild" after October 15.

A FINE GROWTH.
W. Foster of Cranbrook, in Grey Township, Huron County, brought to the advertiser yesterday a sample of alfalfa 4 feet 2 1/2 inches in height and of alfalfa 4 feet 2 1/2 inches tall. The stalks were splendidly developed in every way.

GUARD BABY'S HEALTH IN THE SUMMER

The summer months are the most dangerous to children. The complaints of that season, which are cholera infantum, colic, diarrhoea and dysentery, come on so quickly that often a mother is beyond aid before the mother realizes he is ill. The mother must be on her guard to prevent these troubles, or if they do come on suddenly to cure them. No other medicine so effective as Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe. Sold by medicine dealers or by mail for 25 cents a box from The Dr. Williams' Medicine Company, Brockville, Ont.

Doctor Tells How to Strengthen Eyesight 50 Per Cent in One Week's Time in Many Instances

A Free Prescription You Can Have Filled and Use at Home.
Philadelphia, Pa.—Do you wear glasses? Are you a victim of eyestrain or other eye weakness? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their vision restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind, could not see to read at all. Now I can read everything without any glasses, and my eyes do not water any more. At night they would pain dreadfully, now they feel fine all the time. It was like a miracle to me. A lady writes: 'I had my eyes so sore and itched so much that I could not wear glasses, but after using this prescription for fifteen days everything seems clear, I can even read fine print without glasses.' It is believed that thousands who wear glasses can now discard them in a reasonable time, and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. By troubles of many descriptions may be wonderfully benefited by

MORE WORKERS FOR FRENCH FLAG DAY NEEDED AT ONCE

Women Are Hoping to Raise at Least \$5,000.

CLERGYMEN TO HELP

Sock Shower for London's Own To Be Held on Wednesday.

Members of the committee in charge of arrangements for the French flag day on September 30 reported yesterday afternoon to the Municipal Chapter, I. O. O. F. E., at a meeting in Cronin Hall, that 125 workers have been secured to sell tags. At least 200 are wanted, as it is desired to raise as large a sum as possible for the relief of the heroic French people. The sum of \$5,000 has been set as the goal of ambition, and the co-operation of all citizens is earnestly requested. A plea is being made to the clergymen of the city to bring the work of French relief to the attention of their congregations in connection with an announcement of tag day.

Mrs. Thomas Gillman, Mrs. Ernest Smith and Mrs. J. B. McKillop will be glad to receive the names of any who are willing to assist on tag day.

Aiding the Blind.
Mrs. Allen McLean, regent of the Princess Patricia Chapter, announced that she had received an interesting communication from Sir Arthur Pearson, chairman of the Blind Soldiers' Regent Park, an institution of which Queen Alexandra is a patroness. The letter came in reply to an offer on the part of the Princess Patricia Chapter of assistance in a financial way with the work of caring for and training to enable the blind soldiers to earn a livelihood. Canadian soldiers blinded in the war, Sir Arthur states: "We have had seven blind Canadian soldiers, two of whom have returned to Canada. One has learned massage at St. Dunstan's and has attained a very satisfactory and lucrative position as a masseur at a London military hospital. Two other Canadian soldiers are learning massage, and one of these will enter for the final of the stiff examinations of the Incorporated Society of Masseuses, which examination has been passed by the other Canadian masseur in October."

Poultry Farming.
"One of the Canadian blinded soldiers is learning poultry farming, and yet another staying with Lady Pearson and myself at 21 Portland Place, has not decided yet what he will take up. Two more are waiting in the hospital till they are fit to come to us. It would be very good of the members of your chapter if they could assist us in carrying on our work, and should any of the Canadian blind soldiers of whom we know desire to be settled in your part of Canada, we will, if we may, let you know of these men. Any money you are able to send us we will be delighted to devote to the benefit of the Canadian blinded soldiers under our care."

Mrs. McLean, in connection with this, stated that the Princess Patricia Chapter had raised \$2,033, of which the members were prepared to forward \$500 to the St. Dunstan's Hospital, in the name of the Imperial Order of Daughters of the Empire of London. The Municipal Chapter heartily approved of such a course.

Ask Assistance.
A letter was received from the Women's Emergency Corps, asking for some financial assistance. In view of the nature of the work the opinion was expressed that the Daughters of the Empire should give most hearty support, and the matter was referred to the regents, to be taken up with the various chapters to see what can be done.

Owing to the prospect of her absence from the city, Mrs. Albright tendered her resignation as regent of the Hamilton Gault Chapter. Mrs. R. A. Brown, second vice-regent, will be acting regent for the present.

A welcome was extended to Mrs. A. H. Galbraith, regent of the Overseas Chapter, on her safe return from England.

Sending Supplies.
Mrs. W. D. Wright, regent of the 7th Regiment Chapter, stated that one of the most active members of the chapter, Mrs. Groschaw, is now in England, matron of a military hospital. As a compliment to Mrs. Groschaw, the chapter is sending supplies to the hospital. The Municipal Chapter expressed its warm approval of this action.

Resolutions of sympathy were moved to A. W. White and family, in the death of Mrs. White; to Major Milligan, and children, and Mrs. Atkins, mother of the late Mrs. Milligan. Mrs. Radcliffe in the loss of her brother-in-law, Capt. S. M. Lohrin, who was killed in action.

Announcement was made of the sock shower for the 14th Battalion next Wednesday afternoon in St. Andrew's Church parlors, and also of a band concert to be given Sunday evening by the band of the 13th Battalion by kind permission of Lieut. Col. Pritchard, O. C.

SORE THROAT EPIDEMIC BRITISH ISLES DISEASE

Considered "Vincent's Angina" by City Medical Officer of Health.
The prevalence of a severe type of sore throat to which many citizens have been afflicted lately is believed by Dr. H. W. Hill, medical officer of health, to be a type frequently seen in the British Isles, and known as Vincent's "Angina."

The disease was discovered by an English physician, Dr. Vincent, who found that it bore a close resemblance to diphtheria.

A membrane forms in the throat similar to a diphtheritic membrane, but is more easily cured than diphtheria, and does not require such strong treatment, although if allowed to develop without any means being taken to check its course it might develop into diphtheria.

A great many citizens have been subject to the disease during the past two weeks, and many are at the present time confined to their homes undergoing treatment.

The disease is communicable, although not to such an extent as diphtheria. Paralysis that frequently results from attacks of diphtheria is not present in Vincent's "Angina," although the sickness accompanying this throat disease is similar. The symptoms of the disease are fever, general weakness, headache, and sore throat, followed in a few hours by the formation of the membrane.

Dr. Hill advises that a physician be called to ascertain whether diphtheria may be present or not, as the two diseases so closely resemble one another that a culture is the only way to ascertain whether the milder or more serious disease may be present.

REGISTRATION AT WESTERN UNIVERSITY BEGINS WEDNESDAY

Many Splendid Courses Have Been Arranged for Year.

SECURING CERTIFICATES

Seven Graduates Leave Monday to Attend Faculty of Education.

As the time for the opening of the session 1916-17 at the Western University draws nearer each day brings fresh tidings of students intending to enroll. These include some who have passed the honor matriculation examination and will take honor courses at the university, as well as a number of others who will take the general course.

A special committee has been, during the last week, preparing application and registration blank forms that will be used for the first time this year. These will be ready for registration day next Wednesday. The purpose is to secure more particularity in the training and history of the students and to keep the registration in more systematic form. Permanent record books of the recent graduates, the career of each student will always be available in the records of the university.

Teachers' Course.
Some courses will again be given in the late afternoon so that they will be available for teachers and others who are otherwise engaged during the day. One of these will be the course in Modern English poetry, which was begun last year. This will be an hour a week course. Some slight changes have been made in the work to be covered, the principal one being the substitution of the new Second Georgian poetry book for some of the poems read last year.

Particularly the more recent English poets, Meredith, Hardy, the ballad movement represented by Buchanan, Davies, Stevenson, Kilmer, Flecker, etc., the Elizabethan revival in Bridges, Massfield, Brooke, etc.; the wild, free notes of Walt Whitman and W. H. Davies; the exquisite work of the school of Abercrombie, Ralph Hodgson, W. W. Gibson and T. Sturge Moore, etc. The course should be of particular interest to special students of various kinds.

Another course that should be interesting in this Shakespearean year is that given on the five plays, "Romeo and Juliet," "Henry IV., (parts I and II)," "Hamlet," and "Twelfth Night." Seven of the recent graduates are leaving on Monday to attend the Faculty of Education with the purpose of securing their professional certificates as high school teachers. This looks forward to the introduction of a new era in the extension of the influence of the Western University in the province. Thus far the graduates who have been teaching in the high schools of Western Ontario have been very few. As they begin to go out in greater numbers, however, it will mean a dissemination of the influence of the Western, which will tell very effectively for the future of the institution.

ESCAPED UNINJURED

About 4 o'clock yesterday afternoon, a McLaughlin-Buick car owned by Dan McIntyre of Dorchester, came to grief at the corner of King and Maitland streets. The occupants of the car at the time of the accident were Mr. McIntyre's daughter, Miss McIntyre, and a niece from Chicago, the latter driving. The car was going east on King street and skidded just as a turn was about to be made south onto Maitland. With the very sharp turn resulting, the hind wheel struck violently against the curb and was smashed to splinters, though the tire was uninjured.

The car was supported by the axle resting on the sidewalk for a couple of feet of its length, and in consequence the girls were scarcely jarred.

Dunlop Tires Achieve What Other Tires Only Attempt.
Dunlop Tires—"Traction," "Special"—represent doing best that other tires may have been trying to do well.

MOVING PICTURE TALK

MADAME PETROVA AT LYRIC.
"In 'The Soul Market,' a sensational all-five-part movie feature picture, produced by popular plays and players with Mme. Petrova, the gifted Polish actress, in the stellar role, will be seen on the screen at the Lyric Theatre today."

Mme. Petrova is surrounded by an excellent supporting cast, including Gypsy O'Brien, Arthur Hoops, Wilmutt Myles, Evelyn Brent, Frankie Frank, and Al Thomas, Fritz de Lint and other well known stage and screen artists. "The Soul Market" is an absorbing story of the behind the scenes life in a Broadway theatre, and the attending gay life along the Great White Way. It is a true picture of conditions in New York, and the story carries a moral of no uncertain quality and strength. It promises to be one of the most interesting features of the season.

"THE IRON CLAW."
The "Iron Claw," Pathe's successful serial, now showing at the Lyric Theatre, is full of stunts of chances. While directing a fire scene in Jersey City Edward Jones was startled to see one of his players, Charles Reveda, fall from a scaling ladder into the flames. Reveda had become stupefied from the smoke, and lost his grip. He was burned on the face and hands, but after being treated at his home returned to work a day later.

AT THE STAR.
The Universal Circus serial, "Peg of the Ring," in 20 reels, starts at the Star Theatre, Richmond street, Wednesday and Thursday of next week. Grace Cunard and Francis Ford, well known to film-lovers, are featured in this picture, which is said to be one of the best ever shown in London.

BACK ON DUTY

Pts. L. F. Ailingham (wounded).

SEEKING INFORMATION

Real Estate Agents Want to Know About Trip to Toronto.

At last night's meeting of the Real Estate Owners' Association the following resolution was passed:
Resolved, That the R. E. O. A. would like information regarding the recent deputization to the municipal convention at Toronto. The expenses of two of the delegates were \$7.10 each, while the expenses of the other two were \$12.05 each. Why the difference? Were the services of the high-paid delegates worth the extra money or why did they claim it?

TRY IT!—ABSOLUTELY NON-INTOXICATING—TRY IT!
A HEALTHFUL BEVERAGE. KEEP IT IN YOUR HOME.

MISS EDITH MAYOU TENDERS RESIGNATION

Supt. of Byron Sanatorium Going to England Shortly.

At the meeting of the London Health Association yesterday afternoon, the resignation of Miss Mayou, superintendent, was received and accepted with the deepest regret. Miss Mayou will go to England shortly with her mother.

The proposition of the Soldiers' Hospital Commission to the effect that a building for treating tubercular soldiers be erected at Byron, for which the Government would pay half the cost, was not entertained. The association thought that the Government should pay the whole cost of the building and not place the burden on the city of London.

Some minor matters were disposed of.

SHOE POLISHES THE "BIG SHINE" 10¢

A combination of both liquid and paste. Requires half the effort. Easy for children to use. Gives a quick lasting shine. Contains no acid. Will not crack the leather. Preserves the leather and increases the life of your shoes. F. F. Fuller Co. of Canada Ltd. Hamilton, Canada.

CHOLERA INFANTUM

Cured by Using DR. FOWLER'S Extract of Wild Strawberry

Cholera Infantum is one of the most common, and at the same time one of the most dangerous summer complaints of infants, and many children have died who could have been saved had the proper remedy been used on the first sign of this trouble.

Cholera Infantum begins with a prostration, vomiting and purging, set in, and the child rapidly loses flesh, and becomes weak, prostrated and languid.

Mrs. B. A. Cirwell, Rossway, N. S., writes: "I can recommend, most highly, Dr. Fowler's Extract of Wild Strawberry. A friend of mine whose little daughter was ill with cholera infantum was given up by the doctors. The little one's mother asked me to come in and see the child. I told her I had a bottle of 'Dr. Fowler's,' and asked her if she would try it. When the bottle was half used the child was well. This cure was a miraculous one, for I thought the child was dying at the time."

Dr. Fowler's Extract of Wild Strawberry has been on the market for the past seventy years. Anyone who has ever used it will not accept a substitute. Get that you don't. When you ask for "Dr. Fowler's" be sure that you get it.

The genuine is manufactured only by The T. Milburn Company, Limited, Toronto, Ont. Price 35c.

When you Rise in the Morning take a dose of ENO'S FRUIT SALT

—for your health's sake. It's good for you. ENO'S FRUIT SALT is so pleasant to take, too. It prevents functional irregularities, corrects disorders of the liver and promotes good health.

ENO'S FRUIT SALT makes a cooling, sparkling drink—effervescent and refreshing. You can drink it at any time with benefit.

Prepared only by J.C. ENO, Ltd., "Fruit Salt" Works, LONDON, Eng.
Sole Agents for North America HAROLD F. RITCHIE & CO. LIMITED 10 McCaul Street, Toronto (5)
Beware of Substitutes.

I am convinced that many cosmetics, by overloading the skin and pores, tend to clog the complexion. Moreover, they have just the opposite effect. It keeps the pores clean, permitting them to breathe, and removes dead particles of skin which are constantly appearing and which give the complexion that aged look. Whenever my skin begins to get the least bit off-color, muddy or faded, I go to my drugstore for a ounce of Eno's Fruit Salt. I apply this nightly like cold cream, for a week or so, washing it off in the morning. This is what keeps my complexion so fresh, white and velvety.

The absence of wrinkles and flabbiness I owe to the use of a simple face-bath prepared by dissolving one ounce of powdered axolite in a half pint with water. This keeps the skin "tight" and "firm"—Social Register—Advt.
