WOMAN'S BODY DISCOVERED ON SHORES OF POINT PELEE

Crowned Teeth Furnish Only Mark of Identifica-

Special to The Advertiser Leamington, Oct. 1.-The body of a young woman was found on the east short of Point Pelee this morning by Duncan Grey, inspector of sandsucker operations, as he was walking along the beach. It is believed the body was washed ashore by the heavy north east winds of yesterday and last night, because Captain Wilkinson of the life savers was along the beach last evening and the body was not visible then.

The body was only partially clad, and it is believed has been in the water for some time. In life the woman would weigh about 150 pounds, and was about 5 feet 6 inches in height. The only possible marks of identification are several crowned teeth.

Coroner Dr. M. A. Kendrick ordered the remains removed to Ferguson's Right Hon. Arthur Meighen. undertaking parlors, and the funeral will be held on Friday. There will not be an inquest.

Alleged Insane Couple Removed To Asylum Follows ing Attack.

Canadian Press Despatch Toronto, Oct. 1 .- Following & disturbance which involved two Rumanians, Mike Malowin and his wife Katie, some civilians and police, the Malowins were removed to an asylum for the insane. It is alleged they threatened their children, aged four and one and a half years.

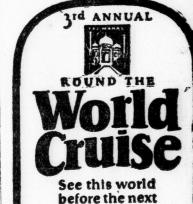

They had showed signs of insanity for some days and had been committed to the asylum, but had remained under the care of neighbors pending the completion of formalities for their detention.

Today they became violent and attacked their children with broken milk bottles. The children were saved by the intervention of citizens, who heard the cracking of glass, and suffered only minor injuries.

Granted by Government Pending Settlement of Dispute.

Associated Press Despatch. London, Oct. 1 .- The mines department announces that the amounts paid in the mining subsidy for the month of August totaled £1,517,678, which bears out the prediction that the first estimates of a million sterling monthly would be largely exceeded.

This subsidy was granted by the government to enable the mine owners to maintain the rate of wages for their employees pending a settlement of the controversy between the workers and the operators, which threatened a general strike.
