"NA-DRU-CO DYSPEPSIA TABLETS

Proved of Great Value to Me"

There is only one explanation for the numbers of enthusiastic letters that we receive praising Na-Dru-Co Dyspepsia Tablets, and that is that these tablets certainly do cure any kind of stomach trouble.

Here is a typical letter from Miss Eliza Armstrong, Canoe, N.S.: "It is with pleasure I write to inform you that your Na-Dru-Co Dyspepsia Tablets have proved of great value to me. I tried remedy after remedy but without any lasting good. Having heard of your tablets curing such cases as mine I decided to give them a fair trial. They proved satisfactory in my case."

The remarkable success of Na-Dru-Co Dyspepsia Tablets is such a success as can only come to an honest remedy, compounded according to an exceptionally good formula, from pure ingredients, by expert chemists. If you are troubled with your stomach just ask your Druggist about Na-Dru-Co Dyspepsia Tablets, compounded by the National Drug and Chemical Co. of Canada, Limited, and sold throughout the Dominion at 50c. a box.

REGULATIONS FOR FRUIT PACKING

The Dominion Fruit Inspector for New Brunswick, Mr. S. L. Peters, is just now giving particular attention to imparting information regarding the packing and marking of fruit; and with special attention to the marketing of berries and small fruits. It may not be generally known that there is a definite, legal size prescribed for berry boxes and that to use any other than size boxes is punishable.

The fruit inspection and sale act prescribes that a berry or small fruit box must contain one full quart when level full. Any person who packs, sells or deals in boxes of fruit or berries containing less than one quart is liable to a fine of twenty five cents for each and every box found in his possession, and if the fine is not paid is liable to imprisonment, with or without hard labor, for one month. Any person may lay a complaint before the inspector regarding small or undersized boxes and one half of all fines collected under such complaint shall go to the person laying the information. The Inspector may enter upon any premises to make examination of any packages of fruit suspected of violating the requirements of the act, whether such packages are on the premises of the owner or in the possession of a railway or steamship company for transportation.

There are also special and stringent regulations regarding the size of apple barrels and the manner of packing and marking apples, and the Inspector is giving such information to growers, packers and dealers. It is the intention of the Department to stringently enforce the regulation regarding the packing and selling of fruit of all kinds, both for the protection of the consumer and for the benefit of the exporter.
