About 5 o'clock in the afternoon a meteor was observed flying through the air. It presented the appearance of two balls. One was very black and the other very brightly illuminated. The latter appeared as if ready to drop on board amidships. This vessel was hove to under storm sails and the meteor dropped into the sea close along-side, making in its flight a tremendous rouring noise. Before falling into the water the upper atmosphere was suddenly darkened, while below on board everything appeared like a sea of fire. The torce of the meteor on striking the water caused the latter to form heavy breakers which swept over the vessel, rocking her fearfully. At the same time such a suffocating atmosphere was caused as to force perspiration to run down the faces of all on board and greatly convessed the heathure

Muricred Her Husband.

Greensburg, Ind., May 7.—John Fromer was shot and killed this morning by his wife in his brother Charles' bakery. They had separated a short time ago and John was living with his brother. The cause of their separation was Mrs. Fromer's violent aversion to her husband's two little children by a former wife. Since the separation she has asked him to return and put the children in a boarding house, which he refused to do. To-day she talked to him in the bakery awhile and was heard to say several times: "Won't you come, John?" As he said "No," and turned to go, she drew a revolver and fired. Just then she was taught and disarmed. She said she intended to kill herself also. She talks insanely, saying God's spirit told her to kill her husband.

We cannot imagine whom the Ouposition think they can deceive by so palpable a trick. For our own part we have every reason to be satisfied with the result of the debate."
