FOR SAFE KEEPING.

cultural depression in the Old Country, and from many other causes the industry is now about at a standstill in Canada. Three or four years ago the phosphate mines of Ottawa County gave employment to not less than 2000 men, while there are probably not 25 at work today at the same business. What the mining association desires is to impress upon the mind of the legislator, as well as of the people, the fact that Canada should become the most profitable market for the phosphate produced within her borders.

In the first place all the experts who have studied the mineral deposits in Canada are studied the mineral deposits in Canada and from many other legislator, as given in the sum of the sum of the legislator, as well as of the people, the fact that Canada should become the most profitable market for the phosphate produced within her borders.

In the first place all the experts who have studied the mineral deposits in Canada and from many other legislator, as well as of the people, the fact that Canada should become the most profitable market for the phosphate produced within her borders.

In the first place all the experts who have studied the mineral deposits in Canada and provided the mine

her borders.

In the first place all the experts who have studied the mineral deposits in Canada are of the opinion that long after the supply in Algiers and other phosephate producing countries is exhausted Canada will have plenty and to spare. Farmers here, adds Mr. Bell, must be educated up to the invaluable qualities of phosephate as a fertilizer, and when they do it will be the dawning of a new and better knowledge of the requirements of the soil. The secretary of the Mining Association gave an example in the case of lands in Georgia that had raised from \$\$3\$ to \$30\$ per acre in value by the use of phosephate, and he was do it will be the dawling of a new and better knowledge of the requirements of the soil. The secretary of the Mining Association gave an example in the case of lands in Georgia that had raised from \$3 to \$30 per acre in value by the use of phosphate, and he was sure the same experience would be felt by hundreds of our farmers in the Canaby hundreds of our farmers in the Canadian Dominion. In order to bring this about papers are being carefully prepared by experts from Canada and the United States, and the country may expect a great deal of useful information on the subject of phosphates as a fartiliger, in Canada are the One. tion on the subject of phosphates as a fertilizer in Canada as soon as the Que-

what will be the immediate, practical utcome of your meeting? asked the corespondent.

Possibly the Government may be sked for a bonus, but in any case the Departments of Agriculture, both at Ottawa and at the several provincial capitals, will be strongly urged to take the matter in hand, and it is understood that matter in hand, and it is understood that Hon. Mr. Angers has already signified his intention of sending an expert from the Ottawa Experimental Farm in order to take part in the discussion. Mr. Henry Wiggleworth, a New York expert, who has given a great deal of study to the question, will also be present, and read a paper, as well as Mr. F. R. Shutt of Ottawa.

Atlantic & Lake Superior Railway Bonds The news received yesterday to the effect that the first issue of Atlantic and Lake Superior Railway bonds, amounting to \$2,500,000 had been made in Lon-AUCTIONEERS.

Lake Superior Railway bonds, amounting to \$2,500,000, had been made in London, the superior Railway bonds, amounting to \$2,500,000, had been made in London, the superior Railway bonds, amounting to \$2,500,000, had been made in London, the superior Railway bonds, amounting to \$2,500,000, had been made in London, the superior Railway bonds, amounting to \$2,500,000, had been made in London, the superior Railway bonds, amounting to \$2,500,000, had been made in London, the superior Railway bonds, amounting to \$2,500,000, had been made in London, the superior Railway bonds, amounting to \$2,500,000, had been made in London, the superior Railway bonds, amounting to \$2,500,000, had been made in London, had been made to the was generally understood that the issue in question would not be paditionally. Sales at private houses receive careful attention. Prompt settlements, Advances on goods consigned for absolute sale.

MUSICAL:

MUSICAL: spiring firms in Great Britain, and the promoters of the Atlantic and Lake Superior Railway Co., it was decided to have severel issues, from time to time, as the demands of the road would require. It will be remembered that during Senator Thibaudeau and Mr. Armstrong's previous visit, temporary arrangements were made to furnish the company the required amount for the first section, but since then railway securities have taken a boom and the first issue was at once decided upon.

Vestigation showed that instead of spirits of nitre Miss Fuller had been given cocaine. She was taken to an infirmary where a stomach pump was applied, and the opmorator ran his fingers through the customer's hair in the usual way, preparatory to combing and brushing it.

"It does look pretty long, that' a fact," said the customer, regarding himself critically in the glass. "I guess you may cut it."

"Good heavens!" gasped the barber. "Can't you come just as well to-morrow ?"—Chicago Tribune.

cided upon.
A cablegram to-day states that the comments of the London press yesterday on the prospects of this new Canadian trunk line were very favorable.

To beep Water by September.

Messrs. Nicholas and Michael Councily, who are interested in the undertaking, and who are to build the Pasbeiae section,

Notes of News.

There is a big war on hand in Quebec, the question in dispute being the choice of delegates to attend the demonstration in Levis, in honor of the noble Marquis of that name, who is now in this city.

What was a Coult for Early Market and County of the Inter-State Commerce Commission has just been submitted. It covers the fiscal year 1894. The total railway mileage in the United States was 178,708, an increase during the year of 2247 miles. The increase during the year of 2247 miles. of that name, who is now in this city.

Trank Hannes was slightly stabbed tonight while a row was going on in St.
Martin-street. His assailant, a man
named Bertnies, was arrested. The
wound is not fatal.

The Fete Diagrams of the railways for the year show a decrease of \$147,390,

1 most of them are absolutely useless, and that is proven from the speedy manner in which a majority of them disappear from the market. "St. Leon" is the only perfect mineral water at proceed. The Fete Dieu procession to-day was largely attended and the Archbishop car-

stances Connected With

Suspicious Circumstances Connected With the Being MADE TO REFIRE THIS IMPORTANT WORK.

Chief Murray of the Previncial Detective Office has returned from Colhorne, where he investigated a suspicious case, A man named Foote, aged about 30, was a farm laborer for a Mr. Ainsley, asked for a Benus to Simulate Mining — Atlantic and Lake Superior Ealiread Loan Assured

Montreal, June 16.—The World correspondent learns that a strong effort is about to be made by the different mining associations of the country to revive the phosphate industry of the Dominion. The question is now being discussed in mines, and the all-important subject will be thoroughly threshed out at the coming meeting of the several associations in the Ancient Capital at the end of the month. Mr. B. T. A. Bell of Ottawa, who was in the city to-day, gave The World a general idea of what was to be attempted.

Although the superiority of Canadian phosphates has been fully established, the increase of the Florida exports, the agricultural depression in the Old Country, and from many other causes the industry is now about at a standstill in Canada Three or four years ago the phosphate mines of Ottawa County gave employment to not leave the phosphate mines of Ottawa County gave employment to not leave the phosphate mines of Ottawa County gave employment to not leave the not have a contracted in the contract of the country of the superiority of Canadian phosphates has been fully established, the increase of the Florida exports, the agricultural depression in the Old Country, and from many other causes the industry and from ma
