## W. Z. HUTCHINSON,

ROGERSVILLE, GENESEE, CO., MICH.

WOULD respectfully call the attention of all who use foundation, to the fact that he has written, published, and now offers for sale a neat little book of 45 pages, entitled

### "THE PRODUCTION OF COMB HONEY,"

in which, among other things, is made as clear as possible the question of when, where and how to use Foundation. When empty combs are preferable, when the bees should be allowed to build their own combs. How to prevent the building of drone comb, etc., etc.

The price of this book is only 25 cents, and the knowledge gained from its perusal will enable its possessor to save more than the price of the book in foundation, upon each swarm hived; and secure more honey into the bargain. Don't wait until the swarming season is over, but send for the book NOW—and be ready to test, this season, the plans and methods it advises.

Stamps taken; either U.S. or Canadian,
