Fruit Farm.

Partner Wanted.

A responsible active business man wanted as partner, to engage in fruit growing on a large scale. The subscriber has a fruit farm at Fonthill, adjoining the "Fonthill Nurseries," which he wishes a partner to take half-interest in.

The Farm is Well Located, and has a large number of bearing fruit trees on it, and a quantity of small fruit. This is a rare chance for a pleasant home and profitable business.

All those interested in Bees send for my 20 page circular and pamphlet on wintering bees (free).

My Hives are the Cheapest and Best in use.

My New and Latest Improved Hives will soon be ready for the market. It contains the usual size and number of Jones frames. I now manufacture ten different kinds and sizes of *Smokers*, and they are the most handsome, cheapest and best in use.

My New Honey Knife puts all others to shame, and is the finest and best that is in use.

My Latest Improved Honey Extractor has valuable improvements that no others have. It is the cheapest, strongest, lightest running, and best and most durable in America.

My Comb Foundation is made on an improved Dunham machine and from clarified wax, and is better manufactured than any other. I will make up wax into comb foundation cheaper and better than others.

My New Silk Bee Yells are made larger than any previous ones, the material having been ordered direct from the manufacturer, specially designed for beevoils. They have no equal.

I am the only one in America who manufactures *Perforated Metal* for raising comb honey, preventing swarming, controlling fertilization, etc.

My Latest Improved Wax Extractor shuts all others out. I challenge any others in America.

Honey Tins and Pails.

My honey cans are cheaper and superior to any others in the Dominion, as I am the only one who has machinery and dies to manufacture these new and improved self-sealing cans and pails. They can also be used for sealing fruit.

In a short time my new *Honey Labels* will be ready. They will be lithographed on nine different stones, blending all the colors, making a handsome varnished chrome label, finer than anything yet made so that each person can have his own name on them. The price will be wonderfully low.

Bees Wax

Those having wax for sale, please drop me a card. I can pay you a high price. Wax taken in exchange for goods.

TRAVELER'S FRIEND,

Portable Door Securer!

We give an engraving of a very compact and convenient device for securing doors, patented by Charles A. Crongeyer, of Detroit, Mich. It is designed principally for the use of travelers, and is very readily carried, and quickly and easily applied to the door, and when so applied renders the door perfectly secure. When in use, the hook of the metal strip is placed against the jam of the door, and the U-shaped piece is turned in such a manner as to permit the closing of the door, and by closing the door the hook is forced in to the wood of the jam. The U-shaped piece is then turned so that the long shank will rest against the surface of the door. The device does not mar the door, and keeps it perfectly locked, and is applicable to doors of any thickness, having any style of casing. —Scientific American, August 19th, 1882.

Each Lock Natty Finished and Nickel Plated. Weight 13 ounces.
