LEATHER.—There has not been any improvement in the general demand yet.
As stated elsewhere, shoe jobbers are withholding their orders very largely, in the hope of securing lower quotations, and it is said some manufacturers, who depend mostly on this class of trade, have instructed leather houses to defer further deliveries of sole, contracted for some time ago, until advised. In dongolas and black leathers there is a moderate business doing. All values are still well held We quote: Spanish sole, B. METALS AND HARDWARE.—Trading in these lines is of a quiet seasonable character. A few moderate lots of Hamilton pig iron have been sold to out-ot-town points at quotations, but we hear of no business doing in other brands. Spelter is also noticeably firmer and for ingot tin 17½c. is wanted for ordinary lots. The market for Canada and tin plates continues in very unsatisfactory shape, makers being unable to bind them and for ingot tin 17½c. is wanted for or dirary lots.
