

Motions for Papers

was made an order for return on October 7, 1970, following which all relevant correspondence was tabled on October 14, 1970. In those circumstances I wonder whether the hon. member would withdraw his motion?

Mr. Skoberg: Mr. Speaker, I will look at this correspondence and see whether or not I will withdraw the motion.

Mr. Speaker: Motion stands.

STUDY ON "PROJET DE RECHERCHE AUPRÈS DU MILIEU DÉFAVORISÉ URBAIN QUÉBÉCOIS" 1969-70

Motion No. 114—**Mrs. MacInnis:**

That an Order of the House do issue for a copy of the study undertaken by Le Centre de Planification Familiale, Montreal, in the fiscal year 1969-70 funded by the Department of National Health and Welfare on "Projet de recherche auprès du milieu défavorisé urbain Québécois".

Mr. Gaston Isabelle (Parliamentary Secretary to Minister of National Health and Welfare): Mr. Speaker, it is an understanding in the scientific community that details pertaining to specific research projects are a matter of confidence between the researcher and the donor organization. For this reason the Department of National Health and Welfare does not make public the findings of researchers.

As the hon. member has already been provided with the list of addresses of the researchers concerned, she may wish to withdraw her motion.

Mrs. MacInnis: Mr. Speaker, I believe that since the Canadian public has financed these reports it has the right to see what it paid for.

Mr. MacEachen: Transfer for debate.

Mr. Speaker: Transferred for debate.
