

July 8th, 1930.

Dr. F. G. Pedley,
Industrial Clinic,
Montreal General Hospital.

I have read with very great interest your report to Dr. Martin on the Department of Industrial Hygiene. To me it was most enlightening. I know, of course, of your intention to become Secretary-Manager of the Federated Charities, but I am glad to learn that you are retaining your association with McGill.

Ever yours faithfully,

Principal.
