

and above all other things, for a copy of "Appendix—Memorandum concerning Article XXI of the Treaty of Washington." Also for all correspondence which has passed between myself and the present Government in relation to the Fishery Frauds, the North-West Territory Swindles and kindred matters. The letters from the Department of the Secretary of State to me, and from me to the Secretary of State are all important. Colonel de Winton's letter of 3rd Nov., 1881, and my reply exhibit astounding artifices. I enclose printed copies of a portion of this remarkable correspondence. The public have a right to know the contents of all. The Bank of Montreal is an especially interested party in respect of its deceived and beguiled shareholders, who are standing on a volcano. The "Fire-brick and Clay Series" ought to arouse them and the public to action. If the shareholders have not the courage to investigate they deserve to lose their money, and I repeat that it is cruel beyond measure to uninstructed Shareholders (families, widows and orphans) in the Bank of Montreal, and investors in all Canadian Securities, to keep them in ignorance of their certain fate, if the Directors and associates implicated in the Miall business, are allowed to escape by delay in just and open inquiry free from Star-Chamber influence.

I see that Mr. Davies of Prince Edward Island, is to move an address to His Excellency for other and different papers relating to the Fisheries. Mr. Davies will be glad to second your efforts on the ground that the Exports of his Province to the United States were shamefully distorted and mangled when presented under oath at Halifax. The "Appendix—Memorandum concerning Art. XXI of the Treaty of Washington" proves this. Mr. Davies was the Counsel who asked the British Witness, Mr. Barry, of the Customs Department, the questions which drew out the perjured answers, and Mr. Davies will be glad to vindicate the honour of his Province and save the Bank of Montreal from ruin, and show the Maritime Provinces the way to secure some compensation for loss of their Territorial Rights.

I seek and indeed now demand in the name of Justice and the laws of God and man full and open inquiry, for I hold officially the proof of the vilest frauds in the matters under review, and I was officially appointed to the work which has led me to the discovery of these frauds, and that the same men who recently appointed Miall as referee in a vast financial State matter, officially prepared at an earlier period the most important fraudulent figures upon which Miall's prior criminal work was based.

I demand a full and public inquiry in order to check further enormous frauds, to vindicate our rights to official morality, and to sustain the supremacy of law and justice.

I have the honour to be, Gentlemen,

Your obedient servant,

HENRY YOULE HIND, M. A.

British Scientific Witness at the Halifax Fisheries Commission, and Official Compiler of the Analytical Index to the Documents of the Halifax Fisheries Commission.

WINDSOR, NOVA SCOTIA, 27TH FEBRUARY, 1884.

*To His Excellency the Governor-General, Government House, Ottawa.*

MAY IT PLEASE YOUR EXCELLENCY,—I am in receipt of the acknowledgement your Excellency has been pleased to direct to be transmitted to me under date Feb. 8th, 1884, that the "Statements" concerning the work of Sir Charles Tupper, Sir Leonard Tilley, &c., have been duly received by your Excellency, and for this prompt and just acknowledgement of receipt, I beg to tender to your Excellency my grateful thanks.

I now respectfully forward a printed copy of these "Statements," a little more precisely and fully formulated and illustrated; which I have embodied in a letter to Sir Charles Tupper, premising that they represent but a mere shadowy outline of the impostures practised in relation to the same subject.

Your Excellency will see that each "Statement" is also a proof.

I observe that no notice whatever of these "Statements" and proofs thus presented in my letter to your Excellency, has been taken by the implicated parties. Also, that in the face of these "Statements" and known facts, the resolutions relating to the State aid to the Canadian Pacific Railway Co. have been pressed to successful issue in the House of Commons.

This act frees me from further reticence, and indeed compels immediate action. For it is unreasonable to suppose that if your Excellency had not been advised to withhold this information from Parliament, the House of Commons would have consented to receive the report of an officer proved to be an accessory to perjury in a most material matter; and further, making himself an accessory to perjury by the criminal use of false materials provided for him by the same parties who recently sought or accepted his services as referee.

Your Excellency will observe that apart from the gross immorality and injustice of the matter, some
