the interest they have created, afford the best guarantee that in the department of

The attention devoted to these subjects in the past and useful information the Saturday edition will not fail to keep up to a very high standard. The scientific contributions which have appeared during the past year have been equal to any-

thing in contemporary literature. Electricity, astronomy, exploration, scientific discovery and inventions will all receive in the future, as they have in the past, their full meed of attention. In this respect *The Mail and Empire* provides a mass of information and useful reading such as places it abreast of the best journalistic efforts of the age.
