

DR. LOW'S Pleasant Worm Syrup

This agreeable, safe and effectual remedy for worms has attained a world-wide popularity, and from its extensive use HAS SAVED THE LIVES OF THOUSANDS OF CHILDREN. It is *strictly vegetable and positively safe*, and so pleasant to the taste that a child once taking it will ask for more. It is free from Castor Oil, Calomel, or other nauseous, sickening and hurtful drugs. It is impossible for worms to remain when this syrup is given so freely as to act upon the bowels. *No other cathartic required during its use.* It destroys the worms entirely, at the same time its cathartic action drives them out of the system. A single bottle has frequently destroyed from 100 to 200 worms. Tape worms of 16 to 35 feet in length have been expelled by the use of this great Worm medicine. Worms prevail mostly in children, but the frequent use of this Worm Syrup as a laxative has expelled large numbers of worms from older people, where the cause of ill health was not suspected. Read the following testimonials:

Children Cry for It.

I certify that there is nothing near as good as Dr. Low's Worm Syrup. My children used to cry for it. Our storekeeper keeps it on hand, and it sells like hot cakes.

MRS. PETER MURRAY,
DeVizes P. O., Ont.

Six Years' Experience.

DEAR SIRS,—Have used Dr. Low's Worm Syrup for six years, and within that time one little girl has passed 78 large round worms, 4 to 8 inches long, and another I am now giving it to has passed 10 of the same kind. One little boy (a neighbor's) was taking fits every 20 minutes, when they came for me, saying they had tried four doctors without success. I told them my firm belief that it was a bad case of worms, and to send for \$1 worth of Low's Worm Syrup. They did so, and though the boy could not then speak, in less than a week he could talk again, and walk across the floor almost recovered completely. These things ought to be known to all anxious mothers.

MRS. JOHN ILLINGWORTH,

King St., Chatham, Ont.

Dr. Low's Pleasant Worm Syrup, sold by all druggists. Price 25 Cents.

Friday is not Unlucky.

Friday, February 22nd, 1732, George Washington was born.

Friday, March 5th, 1496, Henry VIII. of England gave to John Cabot his commission, which led to the discovery of North America. This is the first American state paper in England.

Here is a way to tell how fast you are travelling in a railway car: Every time the car passes over a rail joint there is a distinct click. Count the number of these clicks in twenty seconds and you have the number of miles the train is going per hour. This is a simple matter of arithmetic, as the length of the rails is uniform.

The women on the Magdalena river, while shaping earthen vessels on the potter's wheel, put large lumps of clay in their mouths. In the same place it is often necessary to confine the children to prevent their running out to eat earth immediately after a fall of rain.

A curious taste prevails in many parts of the world for clay. It is eaten in all the countries of the torrid zone, but the practice is also observed in the north, as hundreds of cart loads of earth containing infusoria are said to be annually consumed by the country people in the most remote parts of Sweden, and in Finland a kind of earth is occasionally mixed with bread.
