to Civil Servants or Their Heirs.

Cabinet ministers have been sitting Winnipeg—Futures closed yesterday: Jan 72%c bid, May 76%c, July 77c. for the approaching session.

"Well-defined rumors," as the even-ing newspapers style their imaginative attempts at news, are not agreeable to that the government is considering the when any real news exists. He characterized as baseless the several reports about a salary for the leader of the opposition, the settlement of a date for the West Middlesex by-election and other matters.

Chicago Markets.

Morshall, Spader & Co. (J. G. Beaty),
King Edward Hotel. reported the following fluctuations on the Chicago Board of
Trade; West Middlesex by-election and other matters.

He would not deny that G. H. Ferguson, M.L.A. for Grenville, would move the address in reply to the speech from the throne.

The gratuity list for the year was decided upon and announced by Hon. Mr. Matheson yesterday. The aggregate is less than two-thirds that of the previous year, when nearly \$30,000 was disbursed. The present total is \$17,410, including \$1525 paid some time ago.

Section 27, chapter 15, of the R.S.O. states: "When the services of an officer are hereafter dispensed with in consequence of a change in a department, or in consequence of the age and infirmity, or ill-health of the officer, but not for any fault on the part of the officer, such gratuity may be allowed him as shell be directed by election and other government, and if the state were to operate mines and give the people coal practically at cost they would earn appreciation from the consumers, and even if coal were supplied a little below the ordinary ruling price the government would prevent much suffering during the hard winters, such as at present.

Failing the execution of this public ownership scheme, it has been suggested that the government regulate the coal business of the country under a license system, and compel so much full to be kept in stock. This would place the business in fewer hands and serve the needs of the consumers much better than the present system.

Chicago Gossip.

Marshall, Spader & Co, wired J. G. Beatty at the close:

The market showed greater strength to day than it has for some time. Trading in wheat has been moderate, but the market showed firmness in sympathy with coarse grains, and was influenced by light reactions. Primary receipts continue light and the demand for good milling winter wheat is strong at ½c above price of May. Wheat looks like a sale on the bulges.

Ennis & Stoppani wired to J. L. Mitchell at the close of the market:

Wheat—Continued advance in grains finally awakened sufficient speculative interest in wheat and created a demand which absorbed all early offerings, resulting later in advance of a full cent from the low point. Around the best prices considerable long wheat came on the market, checking the upturn and causing a slight reaction, the undertone, however, being one of nervous strength. Aside from Daughters of Kivas Tully, consulting a slight reaction, the undertone, however, of prices but now that the market is out of the rit, it would not be surprising in the factor before mentioned, there was no reature to cause a change in the tendency of prices but now that the market is out of the rit, it would not be surprising its further advance of genuine strength. of prices, but now that the market is out of the rut, it would not be surprising if a further advance should be recorded, and in fact it should be experienced. The same might develop factors of genuine strength by attracting buyers for the stock of cash wheat now at primary points. The volume of business during the day was much greater than has been in evidence for some time and the market closed with a steady tone.

Corn and Oats—Were very strong, scording a splendid advance. There was considerable profit-taking, but all such sales were readily absorbed by the prominent for long interests and at no time did the market of control of the late John Murray, provincial detective, \$1900; sisters of Hugh E. Sinclair, chief clerk land titles of fice, \$1100; Thomas McCutcheon, public works department (injured), \$300; don Asylum, \$10,000, and the J. S. Young Company of Baltimore \$8000, to-day, following their conviction on the charge of combining to monopolize the trade in licorsiderable profit-taking, but all such sales were readily absorbed by the prominent long interests and at no time did the market closed with a steady tone.

Provisions—Were fairly strong.
