## About Our August Furniture Sale.

It is an easy matter to advertise an August Furniture Sale. A dash of the pen and a dollar or two to the newspapers for telling about the odds and ends of a surplus stock may answer the purpose. For us preparations for a Furniture Sale must be on a vastly different scale. It's all in gathering and getting together the goods-knowing how, when and where to buy. Months beforehand we commence operations by ordering special lines in Furniture. Manufacturers are engaged on these orders during their usually dull seasons. We pay them spot cash for their goods, which must be worthy and reliable, of desirable patterns and of good workmanship. Everything in readiness, we invite you to come and examine our stock, and urge you to make comparisons. And if satisfied it is to your advantage, we solicit your patronge. That the plan meets with popular approval is best evidenced by the hundreds who come and freely share the economy of our sale prices. And the fact that we are serving more Furniture customers this month than any previous August goes to show that our efforts are appreciated more than ever, and that homeowners and householders have confidence in our announcements and our methods of doing business.

These illustrations and prices help to convey an idea of what we are doing in Furniture this month :-

Mr. Hardy's bill pro-court of Appeal in a test case to be submitted under the law as it stands, and it legalizes the constables' votes in future. A section of the bill which will be fought by the Opposition is one providing that in case the co-stables' votes are declared illegal by the Court of Appeal the elections' revensed solely on account of this de-and the seat rendered vacant. On second thought, he decided not to hange the law, but to prevent the courts om giving due effect to the law. It is as if a prisoner were on trial for larceny. Mr. Hardy wishes to get him off, and in order to do so proposes, first of all, that larceny be excepted from the ist of crimes. Failing in this he allows e prisoner to be tried for the crim?, ut he proposes to pass a law preventing he judges from sentencing the prisoner. According to Mr. Hardy larceny is to be eld to be a crime, but no punishment s to attach to it when his interests ar cerned. It is surely as reprehensible or the Government to prevent the law ing carried into effect as 'o hange the law itself in a case already before the court. Mr. Hardy must either cognize the authority of the law or.

must accept responsibility for setting it at defiance. There is no middle course. The people of Ontario desire to see these lection trials settled in the ordinary way. They wish to see them left to the Service Institution to consider the posicurts entirely. END THE WAR GUSH.

We pray Heaven that the American many subjects were touched upon be wspapers and especially the American sides the inadquacy of the navy and food newspapers and especially the American magazines will immediately discover that the war with Spain is over and that they will accordingly direct their energy to something else. The amount of space and paper that have been devoted to this campaign is simply appalling, and we advise our readers to invest their money in English magazines, for more than one reason, if they wish to avoid the torrent of gush and sentimentality that is running through the U. S. ones. Eut we imagine that, as the civil war, which was fought 35 years ago and more, is still being discussed in the American press we will continue to hear of the. war in Cuba for many years to
