live, their disregard of the laws of health and their utter failure to protect health when it is threatened and restore it when and their utter failure to protect health when it is threatened and restore it when it is lost. The most common result of neglect of health is that dread disease, consumption. Not many years ago it was considered incurable. Now it is known that Dr. Pierce's Golden Medical Discovery will cure og per cent. of all cases if taken in time. That is its record during a period of thirty years. Many of the thankful patients have permitted their names, experiences and photographs to be reproduced in Dr. Pierce's Medical Adviser. Any sufferer who wishes to investigate these cases may secure a copy of this book free, by sending 31 one-cent stamps to cover cost of customs and mailing only, to the World's Dispensary Medical Association, Buffalo, N. Y., and then write to the patients themselves. In consulting Dr. R. V. Pierce by letter, the sufferer consults a skillful specialist who for thirty years has been chief consulting physician to the great Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. With the assistance of a staff of able physicians, he has successfully treated tens of thousands of cases of bronchial, throat and lung affections. He will cheerfully answer letters from all sufferers, without charge. Address the Doctor as above.

Resting the Feet.

A hard mattress rests the sleeper more than a downy feather bed, because it does not press so many parts of the body at once, relieving certain bumps while the others are being lain upon.

No two pairs of shoes are exactly alike on the inside, and changing them once per day eases different portions of the feet by throwing the weight upon other parts. This gives a surprising restfulness to the feet, as well as to the shoe, which also gets tired, just as a razor does.

Leathers should always be chosen according to the condition of the feet, as they differ materially in effect and purpose.

On every pair of "Slater Shoes" there is a tag, which tells the exact leather used, giving its peculiarities and the wear it is

Nlagam Fails, Ont., Jan. 11.—The great ice bridge of 1899 has come at last. The early risers were rewarded this morning by seeing the finest fee bridge that may ever spanned Niagara's gorge below the falls, reaching as it does from the new steel arch bridge up to almost the Horseshoe Falls, and, unlike its predecessons, has no large crevices to make the trip across cumbersome, and has every appearance of remaining in its present quarters until the warm rays of the spring sun melt its usefulness away. It was crossed to day by two or three dozen of the more venturesome.

The last official act in the tragedy of Geneva has just been performed. The destruction of the articles was accomplished by means of ac'ds, and took place, attended with much solemnity, in the presence of the Austrian Minister, and the presence of the Austrian Minister, and the presence of the Austrian Minister,

Wolfhounds After the Hare.

London, Jan. 11.—A curious attempt was made at the Bangor coursing meeting today to turn the Russian borzoi, or wolfhound, to sporting account. Hitherto this day, both in England and in the United States, has been merely bred for show purposes, the Frincess of Wales' borzoi Alix being the most admired occupant of the royal kennels. Two wolfhounds were tried at Bangor, but the hare merely played with them, and then got clean away. Other trials are to be made, however, which, it is hoped, may prove more successful.
