TORONTO.

ESTABLISHED 1864.

FAITH CURE FAILED.

Stratford, Nov. 15.—A little girl,

daughter of Mr. and Mrs. Mehm, who

lives in Downie, just outside the city

limits, died yesterday afternoon without

medical attention. The parents are

Christian Scientists, and, therefore, do

not believe in the efficacy of a phys-

ician, relying on faith cure.

Medical Health Officer Dr. J. A.

Robertson and Inspector Duff visited

the home of the Mehms this morning to

ascertain if death had been due to an

infectious disease. Typhoid fever was

found to have been the cause. The girl

was fourteen years of age.

There is no talk of a prosecution. The

case is out of the jurisdiction of the

local authorities in Stratford, and from

Downie back to the home of the Mehms.

ANOTHER ONE CALLED.

Leamington News (Liberal): We

hope that the leaders of the Liberal

party can shake off the burdens of the

past and start afresh. Sullivan

should not be recognized as a political

leader, Jackson should not be rewarded

by Taylor who took advantage of the

disposition of the Liberal party to

dismissed. Renfrew should be en-

franchised and West Elgin re-elected.

Mr. Ross would only put away the

political harlots with whom he has

been consorting of late years. The

fall and happy wife of his youth

will take him to her arms as lovingly

as in the long ago.

NOT TO CERTAIN.

Berlin, Nov. 15.—The Governor of

Windisch, German Southwest Africa,

says the attempts which are now being

made to suppress the rising of the

Hondswart tribesmen at Warmbad,

will probably be successful.

# CHANGES SUGGESTED PUBLIC AND H.S. COURSES

University Senate Also Grants Con-

cessions in Acceptance of Western

Certificates.

The senate of Toronto University at

its meeting on Friday night adopted a

report from the Board of Arts Studies

on the draft of the proposed changes in

the public and high school courses of

study and organization and in the de-

partmental examination system. The

chief changes suggested are as follows:

1. That classes in Latin, Greek, French

and German may be provided in the

third, fourth and fifth forms of the

public schools. 2. That the high school

courses of study be: (a) the general

course; (b) the courses for university

matriculation and the preliminary ex-

aminations of the learned professions;

(c) the courses for technical and non-

professional certificates; (d) supplementary

to the general course; (e) the household

course for girls; (f) the agricultural

course. Omitting the manual

training course, (g) that algebra

geometry, Latin, French or German

shall be among the subjects of the

general course. 3. That pupils of the

general course shall take the first

course in art subjects in the second

year. 4. That Latin, French or

German of the junior school be com-

pulsory for the junior non-professional

examination for teachers. 5. That La-

tin, French or German of the upper

school be compulsory subjects for all

senior non-professional examination for

teachers.

Degrees at Oxford.

Since 1895 it has been possible for a

student who has passed the first and

second examinations in arts to be ad-

mitted as a junior colonial student in

the University of Oxford, and at the

end of two years' residence in Ox-

ford to receive a degree. The govern-

ment of the University of Oxford has

passed a decree granting admission as

a senior student to a student who has

obtained first or second class honors of

the third or fourth year of the arts

course. A second degree provides that

a student who passes the examination

in Greek of the second, third or fourth

year shall be deemed to have obtained

equivalent knowledge of Greek as re-

quired by the University of Oxford

from all candidates for the degree of

bachelor of arts.

Certificates for the West.

The senate appointed a special com-

mittee to consider the question of

physical training as a necessary part

of every undergraduate course.

As a result of the report of the presi-

dent's visit to the Northwest Terri-

tories and British Columbia, the senate

has agreed to accept for junior matriculation

the intermediate grade certificate of the

British Columbia, and the standard

seven certificates of the Northwest Ter-

ritories, and also the senior secondary

graduate certificate of British Colum-

bia, or the standard eight certificates of

the Territories, for senior matriculation

# NEW YORK'S CANADIAN CLUB.

Annual Meeting Largely Attended

and Patriotic Regard Supreme.

The first annual meeting of the Cana-

dian Club of New York was held on

Nov. 11 at the Caledonian Club Hall

and sixteen new members were re-

ceived. The association is rapidly grow-

ing. Those present were addressed by

E. Plummer of the London Old Boys'

Association, resident in New York, and

by Wm. Holland of the same body in the

city, who won the club. Many
