## NO ARMISTICE SIGNED BY THE BIG LEAGUES

Shamrocks Have Not Yet Replied to N. H. L.

TORONTO, Nov. 12.—Kaiser Bill was a fairly durable old "guy." His bluff and bluster and his comparative durability "got him by" for some time, but the war is over and he finished second. What was thought to have been the last fall smash in the only other war left to attract the attention of a public that had had enough and too much of it is the pro hockey war. Even that seems to have been reduced to a war of words. The "magnates" have taken to issuing statements, verbose and bombastic as any Teutonic communique perpetrated.

Now we are informed that the National Hockey League, which met in Montreal on Saturday and thought it had slammed the persistent Canadian Hockey Association into oblivion, was resorting to colossal bluff, fabrication, double-crossing, etc. Representatives of the C. H. A. maintain that the situation is unaltered. They claim that they have more money than the National Hockey League, that they have control of the Ottawa arena, and that of the Ottawa, Canadian and Wanderer teams they desire, because of the latter having been declared free agents. The C. H. A. further contend that the Shamrocks in Montreal is at their disposal.

Ready to Battle Further. These statements were made following the reports of the N.H.L. meeting in Montreal. It would seem that the C.H.A. does not propose to let the National Hockey League get away with anything without some further battling.

"All I have to say is that it is very interesting," remarked Percy Quinn when asked concerning the matter of the N. H. L. giving him until last night to decide whether or not he will join up with them or remain with the C. H. A. "I have seen or heard nothing about the N.H.L. proposals except what I have read in the papers, and I have not decided what I will do or whether or not I will do anything," concluded the owner of the Quebec franchise.

"At the meeting on Saturday at Montreal," states Charlie Quenneville, owner of the arena in Ottawa, made with Percy Quinn. "The agreement was dated October 2 and was to run for one month. That shows that the C.H.A. claim they have on the Ottawa arena has expired and that Mr. Deley is in with the N.H.L. There were stick together and fight any opposition. All that Mr. Quinn came in to make was that the representatives were very anxious that Mr. Quinn come in to make a four-club circuit, and personally I hope he does, because I believe he would be a good man for the N.H.L."

## BASEBALL LEAGUE IN ENGLAND NEXT YEAR

The Game Is Now Played by Englishmen in Preference to Cricket.

LONDON, Nov. 12.—It is proposed in various sporting centres in England to organize a baseball league to be operated throughout the coming spring and summer. The game has been popular in England since the arrival of Canadian troops here early in the war and especially since the coming of the Americans. The game is now played by English teams in preference to cricket. This is particularly true in the barracks where the British soldiers have been in constant contact with their American fellows.

It is pointed out that there will be many Canadian and American soldiers in England during the coming spring and summer, and the league receipts will give the game an additional impetus here. Baseball is bound to assume a permanent place on the calendar of British sport.

## AMERICAN LEAGUE SHOWS PATRIOTISM TO STATES

Subscribe One Hundred and Thirty Thousand Dollars to Loan.

CHICAGO, Nov. 12.—The American League didn't buy any Fourth Liberty Bonds. President Ben Johnson admitted this startling fact, and then explained: "When the first loan was offered, the league decided to convert all its available funds into bonds and subscribed \$100,000 worth. Then came the second issue and the league managers decided to scrape up another \$20,000 which likewise was invested. By this time baseball was beginning to feel the war conditions and the league receipts fell off so much that they hardly covered operating expenses. So when the third and fourth loans were offered the American League simply had no money to invest."

"That only goes for the league organization, however, for the individual club owners subscribed handsomely for every loan and their holdings of securities is considerably more than \$5,000,000."

The Blue Labels walked away with two games in the City League last evening. The high man of the evening was a total score of 556 for the three games. The Has-Beens and the W. O. R. teams will play in the City League this evening, and Thursday evening the postponed game between the Irish Rangers and the Brunswicks, which was scheduled for last Monday, will be played.

## And Now, Our Part!

Canada's army has splendidly finished its share in saving civilization on the battlefield.

Now let us take up the completion of OUR share of the task.

Canada must still continue for a time to maintain her soldiers; must provide transportation to bring them home; must arrange for their future, so that they may again become self-supporting units in a reconstructed world.

Canada must maintain prosperity at home—must continue for a time to finance the purchases of food and supplies for Great Britain and our allies.

Canada must press forward her great shipbuilding program in order that she may take her rightful place as a great sea-carrying power.

For all these things hundreds of millions of dollars will be required. To demobilize and re-establish our soldiers in civil life will take many millions.

Canada's Victory Loan 1918 will provide the necessary working capital.

Therefore, Canada's Victory Loan 1918 must be a great, over-subscribed success. Our part, then, is to buy bonds and complete our great victory.
