development, and the upset may add to

prarenal extract may have a decided favorable influence. In osteomalacia

Some "Bone Aids."

Outdoor life and hygiene are indispensable aids to gland treatments, and as there is usually more than one gland involved it is important to determine which ones. Tentative treatment and occasional failures are inevitable, but experience will gradually clear away the uncertainty. It is wise to begin with small doses of the particular gland needed.

Some "Bone Aids."

Outdoor life and hygiene are indispensable aids given good results, undoubtedly because there is a certain degree of supraging insufficiency.
