The Hat Secret

**WATE** often wonder if the "man" who buys a hat in Toronto realizes just what a splendid chance he has to secure the world's best product at a reasonable price? The protective tariff of the great republic at the south of us has made "Millionaire Hat Makers," but it has given the public its money worth in quality.

The "English-made Hat" is the best in the world, both for quality and style. It sells on Fifth Avenue, New York, for twice the price asked for the best of "American Makes." In Canada the "English-made Hat" is marked at a lower price than the American product.

We are specialists on English-made hats. We handle exclusively in Canada those manufactured by Henry Heath of London, England, who has the honor of supplying His Majesty King Edward with the hats he wears---and "Edward Rex" has some good taste in the matter of headgear. Our exclusive hats are moderately priced also.

DINEEN 140 Yonge Street, Toronto

UNUERUNEUEPARIMENI Amalgamation of Three Civic Branches Favored by Controller Foster.

CONTROL OF STREETS

Hopes to Be Able to Stop Battleship in its Own Length. WASHINGTON, D.C., March 30 .- To

A CANADIAN'S INVENTION

The Great Rug Sale To-day.

The amalgamation of the works, stop a 10,000 ton battleship going at medical health and street cleaning and full speed within her own length is the scavenging departments may result problem which the United States navy from the resignation of Dr. Sheard. department has set for a Canadian in-Controller Foster announces that he ventor. duties being thus reduced, the salary could be also lessened. The position of grand jury of the sessions yesterday against Dr. J. E. Wilkinson, charging city engineer would also be made sub-

brdinate, since Mr. Rust would be him with purchasing silver ore from called upon to report to the general unauthorized persons. His trial has supervisor. Whatever is done, it is regarded as been raversed with the c unlikely that the work of the medical cases to the May sessions.

# Some Facts About The Manufacturers Life

# During 1909

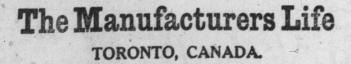

The death claims amounted to less than two-thirds of the Income from Interest, Rents, etc. This is another demonstration of the careful selection of lives made by this Company.

Without taking into account the profit on sale of securities, the Interest Rate on the Mean Ledger Assets amounted to 5.73 per cent.

In view of the great care taken in investing the Company's funds, this rate must be extremely gratifying to everyone interested in the Company.

Insurance in force over \$57,750,000.
