Can Control Smells From The Abattoirs

The civic delegation enquiring into the bad smells of the city have just returned from a tour of investigation in Buffalo, Boston and New York, and the conclusion they have arrived at is that the prevention of smells from abattoirs in Toronto is quite possible. They found in New York an abattoir not more than 300 yards from a hospital, large hotels and business places, and not the slightest odor. Controller Cameron stated that arrangements are being made to bring the chief inspector of the New York abattoirs to Toronto to confer with local abattoir owners with the idea of having the same system installed as is in use there. Those who made the trip were: Controller Cameron, Dr. Hastings, M.O.H., John Leston, J. R. Wainwright, assistant chief engineer of the harbor board, and J. Harris and Mr. Redfield of the Harris Glue Co.

BRADSHAW CHARGES ARE NOT SUSTAINED

Saskatchewan Government Not Linked With Road Frauds, Says Commission.

Regina, Jan. 6.—The Saskatchewan Government is exonerated of any guilty knowledge or wrongdoing in connection with the road frauds in the province in the interim report of the Western Royal Commission, just made to the lieutenant-governor-in-council. The report finds that there is no evidence to establish that any member of the government had any knowledge of the frauds until Mr. Bradshaw, M.L.A. for Prince Albert, made his charges in the legislature.

Mr. Bradshaw charged, at the last session, that during the years 1913-14 the province had been defrauded of some \$50,000 on account of road work that had never been done. Following an inquiry by the public accounts committee, a royal commission was appointed, consisting of ex-Chief Justice Wetmore, H. G. Smith of Regina and G. D. Mackie of Moose Jaw, to conduct an investigation into the whole matter. The commission sat almost continuously from April until December last year. They examined 115 witnesses, the evidence covering 8,000 pages of typewritten sheets, and the interim report just presented covers 71 typewritten pages.

The findings of the commissioners are unanimous. The commissioners find that no member of the government had any knowledge of the frauds, nor did any member of the government participate in the proceeds of the frauds. No evidence was adduced to show that the moneys realized by the frauds were used for party or election purposes.

It is said that the total amount of the frauds perpetrated by J. P. H. H. Smith, manager of the Brown partnership, and E. H. Devline was \$11,469.24. The total amounts of the other Brown frauds, with which the names of J. F. Lindsay of Swift Current and E. L. H. Smith, manager of the Brown street branch of the Bank of Ottawa, Regina, were connected, was \$52,924.12. Other road frauds carried out by Simpson, another employee of the highway board, and Godfrey, a road foreman, totaled \$226.80. The frauds perpetrated by Brown were based upon forged contracts and receipts, and the commissioners find that the frauds were carried out from time to time as chairman of the highway board, and as a road foreman, totaled \$226.80. The frauds perpetrated by Brown were based upon forged contracts and receipts, and the commissioners find that the frauds were carried out from time to time as chairman of the highway board, and as a road foreman, totaled \$226.80.

While suspicious of Lindsay's dealings with Brown, the commissioners unanimously agree that they cannot find that he had a guilty knowledge of Brown's crimes. The commissioners also find that there is no sufficient evidence to warrant them in concluding that E. L. H. Smith had a guilty knowledge of Brown's crime.

The commissioners find that the report indicate that the documents and vouchers connected with the fraudulent transactions were regular in appearance and that there was no evidence to warrant them in concluding that E. L. H. Smith had a guilty knowledge of Brown's crime.

Notices are being sent out by the department of public health, under the H. C. of L. order in council, to 100 Toronto firms, asking them to make a return as to the amount of food stuffs held by them, the price at which they are held for sale, etc., between Oct. 1 and Feb. 15. According to an investigation made by the department in the latter part of December, it was reported that there was no provision for the amount of food stuffs held by them, the price at which they are held for sale, etc., between Oct. 1 and Feb. 15. Will Continue Collection of Cards for Two or Three Days

Saturday was the last day of the "national service week" in the Dominion, but according to the return that have come to hand in all probability the time will be extended for another week. The World was informed by an official that the total number of cards distributed in Toronto amounts to about 150,000, and of these about 40,000 have been collected. "It is unnecessary to say anything about it until the return is completed," he stated, "which I should think will be in two or three days' time. A lot of the places have to be visited again by our men owing to the people being in the city and various other causes. So far we have had no trouble."
