

REMEMBER the Great Economy of BOVENS

ARE STILL SEEDING IN ESSEX COUNTY

Fall Wheat and Rye Have Picked Up During Warmer Weather.

Following is a summary of weekly crop reports made by district representatives to the Ontario Department of Agriculture:

The young fall wheat and rye have picked up somewhat owing to the recent warmer weather, although comparatively backward because of late seeding and delayed growth during the cold weather in October.

Beans have suffered from the unfavorable weather of the past month and are unusually late in being harvested. Considerable of the crop was injured by frost.

Roots are turning out well as a class, and storing is nearly completed. Turnips are described as being very uniform in size, and mangolds and sugar beets are also favorably conditioned, both as to yield and quality.

Some potatoes were yet undug as representatives reported. Statements will enter the market in very fair condition where they have not been pastured too close.

Some spiny apples were still on the trees in Norfolk at the end of the week. Apples in that county are selling at from \$1.75 to \$2 a bushel, tree run in boxes, properly graded, they bring \$2.50 to \$3.25 and in barrels bring from \$5 to \$6, according to variety and quality.

Live Stock Situation. Stockers are selling well at auction sales, over the of only medium quality. Many cattle already have been put in for the winter, as pastures had got very poor owing to the bad weather of October. For this reason also the milk flow has fallen off, more especially as milk feeds and other concentrates are very high in price.

The Leeds representative states that the factory at Athens is paying its members \$60 a ton net for milk delivered at the factory in its condition to ship to the Brockville condenser. The Lanark representative says: "The total output of milk with will be about the same as that of last year; the first part of the season was very much ahead, but the latter part is behind."

Hogs are being marketed steadily, but some sold have been below weight and generally unfinished. Prices range from \$15 to \$18 per cwt.

As to foders, hay and coarse grains are plentiful, but ensilage and shelled corn will be comparatively scarce, and much of it inferior in quality.

Labor Conditions. The agricultural labor situation is more or less in a state, and will be until the more immediate matter of military conscription has been settled. Farmers are naturally waiting to see how this calling out of men is going to affect them before they finally make their plans for the coming season. Meanwhile all necessary field work, such as the storing of roots and other late crops, is being pushed along together with a fair amount of fall plowing, which has been favored during the week by more open weather. Threshing for various reasons has been greatly delayed this season. One representative states that more farms are going to be worked on shares.

To Make Hairs Vanish From Face, Neck or Arms

Keep a little powdered delatone handy, and when hairy growths appear make a paste with some of the powder and a little water, then spread over hairy surface. After 2 or 3 minutes rub off, wash the skin and it will be entirely free from hair or blemish. This simple treatment is unailing, but care should be exercised to be sure and get genuine delatone, otherwise you may be disappointed.

SOCIETY CONDUCTED BY MRS. EDMUND PHILLIPS

The following telegram has been received from the director of records at Ottawa: "Sincerely regret to inform you that Lieut. Gerald Lynham Porte Grant-Suttie, infantry, officially reported admitted to the 12th Field Ambulance on Nov. 2, 1917. Gas poisoning. Mr. Grant-Suttie went to Bermuda with the Royal Canadian Regiment at the beginning of the war, and two years ago left for the front with his regiment, returning to Canada eight months ago on the death of his father, and then back to France, where he has been almost continuously ever since. He is well known in Toronto, having graduated from Trinity College."

General Sir Sam Hughes was at the King Edward yesterday and left last night for Montreal and Ottawa. Captain Randolph Macdonald, Royal Sussex Regiment, who was in the hospital at Cairo, Egypt, has been moved to Alexandria. Captain Macdonald was very badly wounded in the head with shrapnel and the sight of one eye is badly impaired.

Mr. and Mrs. Kenneth MacLaren are in Atlantic City for ten days of a fortnight. Mr. Tom Woods, Bloor street, gave a very smart little tea yesterday afternoon.

The Strathcona Chapter bridge party and tea takes place this afternoon at the Sherbourne House Club. Mr. and Mrs. Peter Freyberg are leaving for Florida where they will spend the winter.

Mr. Babe Bradford has been transferred from the Royal Flying Corps to the Cyclist Corps, and has returned to England for training.

Mr. and Mrs. C. S. W. Long, 387 Indian road, are leaving town shortly to spend the winter in Florida. Colonel McKelvey Bell entertained at dinner at the Halifax Club last week in honor of four doctors, Colonel Cameron, Courtney, Wilson and McGillivray.

Mrs. N. W. Rowell, Lady Pellatt, Lady Eaton, Mrs. P. H. Torrington are patronesses of the Women's College Hospital and Local Council of Women's bazaar, which Lady Hearst will open in Foresters' Hall today.

Mrs. Benson entertained at luncheon on Tuesday in Halifax in honor of Colonel and Mrs. Leslie, Kingston, Col. Leslie was reviewing the artillery.

Mr. and Mrs. Charles Archibald have taken apartments at the Fairview Hotel for a few weeks before leaving for Toronto where they intend spending the winter. A naval officer has taken a house in Inverness for the winter.

Mrs. H. D. Warren is lending her beautiful house in Wesley street for the winter party in December. Mrs. King, who has been visiting Mrs. Henschel, returns to her home in Peterboro today.

Colonel King, St. Catharines, is spending a few days in town with his daughter, Mrs. E. N. Bate, Warren road.

Mrs. Rex Nicholson returned yesterday from a fortnight's visit to New York. Mr. Dickworth and Miss Kerr, Walmer road, are going to spend the winter in St. Augustine.

Nursing Sister Dorothy Cotton, daughter of late General Cotton, and of Mrs. Cotton, is now on the staff of the Daughters of the Empire Hospital, London, where she is in charge of the service in the Anglo-Russian Hospital at Petrograd.

Mr. and Mrs. Daniel McIlroy, Scotia Junction, announce the engagement of their daughter, Estella Christine, to Mr. Francis Donovan O'Connor, son of the late Mr. Peter O'Connor and Mrs. O'Connor, Ottawa. The marriage will take place on November 20.

The Hon. Wallace Nesbitt is at the Chateau Laurier, Ottawa. Mrs. Duncan Donald attended a few friends to the Laura Matilda on Monday afternoon, to meet Mrs. Hart-Smith and Miss Helen Morgan, who are leaving on Friday, to spend the winter in California.

Young Jack Cusack returned from the front is proud of his assorted vocabulary. He talks a bit of Russian, Turkish, Arabic, Greek and German, to say nothing of French and Cockney slang. In the wards of the military convalescent hospitals he trots them all out and shows the greatest eagerness to learn more of any of them. Many of the boys who are in the eastern convalescent homes of the commission are taking French lessons. They practice in conversation with their French comrades, and are making great strides, just as many of the

French who never spoke English before are mastering that language. Word has definitely been received that the University Base Hospital has settled down for work on the south coast of England. It is understood that a spur line of the railway has been run into the hospital so that cases will reach the wards direct from the field tender first aid from the front. So good are the lines of communication. The capacity of the hospital has been raised from 1040 to 2000 beds, and it is expected that even more valuable work will be done now than in Salonica. As it was impossible to bring any supplies from the east, complete new equipment is needed. The supplies left in Salonica will, of course, be used by the unit taking up the work of the University Base Hospital, and it was considered neither wise nor possible to attempt to transport them to England. In consequence of this the University Hospital Supply Association has been asked by the commandant, Col. Hendry, to send with shrapnel and the Doherty both the necessary articles. Therefore both the association so that the work of the unit may not in any way be hindered for lack of equipment. Garments of all kinds, as well as surgical supplies, are being made in the rooms of the association with as great speed as possible.

From the workroom of the University Hospital Supply Association come several interesting items concerning work being done for that organization. For instance, last week a very urgent call came for numerous gowns for the hospital in England. The workroom promptly called upon the firm which supply two years ago in order to make a business arrangement about cutting out the new gowns.

It was an estimate of the cost of cutting the garments the convenor received an offer from the operatives of the firm in question, the Doherty, to make them up. The work will be done in the evenings by the girls, and Mr. Hendry has very generously offered a supply both light and power. The employees of the Robert Simpson Co. also are making arrangements to work one night a week, and have been asked to knit. One church circle is coming in a body once a week to the workroom in the university buildings.

The ladies of Grimsby, Ont., have for several summers now had a tea-room at which a substantial sum has been raised for the University Hospital Supply Association. No evidence was produced to show which school the children attended, and Fred Nelson of the Board of Education asked the court not to deal with the case unless they showed a desire to be rated as separate school supporters. Judgment was reserved.

WOULD TRANSFER PUPILS. Court of Revision Reserves Judgment Concerning Catholic Children. In the court of revision on Tuesday E. P. Henderson of the separate school board made an effort to have 25 Roman Catholics transferred from the columns of public school supporters to that of separate school supporters. No evidence was produced to show which school the children attended, and Fred Nelson of the Board of Education asked the court not to deal with the case unless they showed a desire to be rated as separate school supporters. Judgment was reserved.

LIUET. G. K. HOLLAND KILLED. During the recent British offensive Lieut. George Kilvert Holland was killed, according to word just received in Toronto. He was only twenty-one years old and went overseas in May, 1916. He was the only son of George A. Holland, manager of the Bank of Commerce in Woodstock, and grandson of the late George Burton Holland of Toronto, and nephew of Mrs. J. Ross Robertson.

GIRL WOUNDED BY SHOT FROM REVOLVER

Assailant is Detained Over Night in Western Hospital.

Samuel Goldsmith, 176 Manning avenue, yesterday shot and severely wounded Winnifred Hughes, aged 16, of the same address. The bullet was fired from a Smith and Wesson revolver of recent pattern, passing thru the right thigh and lodging in the left, where at a late hour last night it had not been extracted.

Following the shooting, Dr. Tarofsky, whose office is on Bathurst street, opposite Dundas, was called and after rendering first aid he removed the girl to the Western Hospital in his motor car. The police were then notified and following the arrival of Policeman Rennie (433), at the Manning avenue address, Goldsmith, who is the owner of the house, and from whom the young woman and her mother

sublet, was also taken to the Western Hospital for medical attention, it being believed that he was under the influence of some drug or the essence of ginger. The hospital authorities last night requested that Goldsmith be kept at the house until his condition did not warrant his removal, so an officer was detailed to guard the man.

As far as could be ascertained Goldsmith walked up to the girl in the kitchen of the house and demanded a kiss. This being refused he put his hand into his coat pocket, and pulled the trigger of the gun, firing thru his coat, the flash of the discharge burning a large hole in the garment. If his condition permits he will be removed from the hospital tomorrow and placed under arrest. Goldsmith is held on a charge of shooting with intent.
