

MEXICO IS STILL IN UNQUIET STATE

Revolutionary Movements Are Reported From Various Parts of Country.

Washington, July 7.—Revolutionary movements in various parts of Mexico were reported in advices received at the state department from United States officials in that country.

United States Consul Blocker at Piedras Negras, opposite Eagle Pass, Texas, telegraphed the department that General Ricardo Gonzales, a nephew of General Pablo Gonzales, with a force estimated at between 50 and 200 men, had revolted against the present government, ousting the lines south of Monclova, Coahuila, on July 4, and advancing as far north as Bermejo, where they are now holding a coal mine.

Another federal column is reported to be advancing from Saltillo with 200 soldiers to attack the revolting force. Another federal column is reported to be advancing from General Carlos Osona and General Larabee Aguirre in rebellion. General Osona is reported to be between Tampico and Monterey, and General Aguirre on the San Luis Potosi line.

There also were reports at Piedras Negras that General Jesus Guajardo had revolted at Gomez Palacio, near Torreon, with 300 men, and had advanced towards the United States border over the old Mexican International Railroad line.

MEANS DESTRUCTION OF BRITISH MARINE

Genoa, Italy, July 7.—Representatives of the seamen and shipowners clashed at today's session of the International Seamen's conference, when Cuthbert Law, representing British shipowners, presented an amendment providing that the eight-hour day and 48-hour week should be applied only when vessels are in port.

Mr. Law said: "The 48-hour week would mean destruction of the merchant marine, which is the greatest asset of the British Empire, and raise the black flag of discontent."

A representative of the British seamen, Daniel MacKay, replied by assuring that the shipowners have been the greatest exploiters and had gained millions during the war. "If you do not treat seamen as they deserve, it is not a question of the black flag, but of the red flag of revolution," he declared. This was applauded by the seamen's delegates.

PACKERS INDICTED FOR PROFITEERING

Boston, July 7.—Indictments charging profiteering in food were reported here today by a federal grand jury against E. C. Swift and Company, Armour and Company, N. E. Swifts and Company and the Independent Sugar Company of this city.

The Swift indictment charges that there was received for beef which cost the corporation only 10 1/2 cents a pound, yielding a net profit of 8 1/2 cents. The Armour Company, it is charged, sold New Zealand lambs which cost nine and a fraction cents for 25 1/2 cents a pound. The Hollis Company, according to the indictment, charged 18 cents for beef which cost only 10 1/2 cents a pound.

YACHT CLUB HOUSE TUMBLES INTO BAY

Whole Side of Queen City Building Collapses—No One Hurt.

After slipping slowly, but steadily from its foundations, the Queen City Yacht Club building near the foot of York street, yesterday collapsed and fell partly into the water. The whole of the east side of the building was wrecked and crumbled to the ground.

The building stood on a wharf which jutted out into the lake, and was between the Argonaut Rowing Club and another building both of which are still intact. Warning had been given several days before that the house was unsafe and only one man, the steward, C. M. Henney, was inside at the time. His wife and family were at the home of a friend.

The collapse occurred at 2:30 in the morning, and the noise attracted the attention of a passing tug, the captain of which at once investigated. As he approached the ruins, he heard the voice of a man frantically calling for help, and then notified the harbor commission's night watchman that the steward (as he thought) his family were buried in the debris. The watchman informed the life-saving crew of what had happened, and a crew was sent to render assistance.

By the time they arrived, Henney had managed to extricate himself unharmed, and the life savers returned to their quarters when they found that nothing could be done.

Durham, N.C., July 7.—Taken from the county jail at Roxborough by a mob of more than 200 masked men a few hours after he had been arrested on charges of attacking a 13-year-old white girl, Ed. Roach, 27, a negro, was lynched early today in a churchyard three miles from the jail.

Roach was hanged to a limb of a high tree, a chain being used instead of a rope. As his body swung upward it was riddled with bullets.

Sheriff N. E. Thompson, who reached the jail soon after the lynching, pleaded with the men to let the law take its course. The leader of the mob is said to have given the sheriff five minutes to leave the vicinity of the jail.

COTTON SUBSTITUTE

A new thread which is a mixture of cotton and sea grass that grows abundantly along the shores of Japan is much cheaper and stronger than one of all cotton. The process of removing the sea grass is being perfected by the Japanese inventor. He cut the plant, holl it in lye for two hours and then separates most of the covering, and the rest comes off when it is soaked in the boiling rice bran and brought to a boil for two days. The resulting fiber, after rinsing, resembles cotton and is ready for use. The grass is harvested in the fall and the fiber prepared by fishermen. It is expected to have a marked effect on the price of cheap clothing and to improve the durability of fishing nets.

DECLARE MEIGHEN CAPABLE LEADER

The Ottawa Journal Says He Has No Superior as An Administrator.

Ottawa, July 7.—The Ottawa Journal will say editorially tomorrow: "In Hon. Arthur Meighen, a leader is secured of whom it can be said without exaggeration that he incarnates those qualities which have been the mainpring of Anglo-Saxon-Celtic success in the realm of political progress. The youngest prime minister the Dominion has ever had (he is still in his forties), Mr. Meighen is nevertheless a leader of well-tried capacity, his name having been honorably and conspicuously associated with the most salient political undertakings of the past five years. As an administrator he has had no superior in a ministry which, despite all the criticism which has been leveled against it, contained a larger percentage of administrative and business capacity than any Canadian government, from 1896 down to the present day, while, as a parliamentarian and debater, the house of commons possesses few men who are his peer."
