

Astonishing Speech by President Wilson

Washington, Jan. 22.—President Wilson, in a personal address to the senate today laid down the question of whether the United States shall depart from its traditional policy of isolation and no entangling alliances and take part in a world league to preserve peace after the war.

Shattering precedent of more than a century, the president regarding the senate with its treaty-making power as his counsellor in foreign affairs, explained why he believed the time had come for the world to know America's position and discussed the underlying causes on which he believed a permanent peace of the world can be maintained. While President Wilson was speaking directly to the senators, after the manner of Washington, Madison and Adams, his address was in the hands of all foreign governments or on its way to them. No such history-making event with such far-reaching possibilities to the United States probably ever has been seen in the senate chamber.

In the background of the fundamental proposition of whether the United States should alter the foreign policy, laid down by Washington and carried out by a long line of presidents, was the possibility that out of some such league of nations might come a way to end the present war.

The president's proposed basis for a lasting peace was in brief as follows:

- "A peace without victory."
- "Add the authority and power of the United States to the authority and force of other nations to guarantee peace and justice throughout the world."
- "A peace founded on an equality of rights."
- "A united, independent and autonomous plan."
- "So far as practicable freedom to all nations for full development of resources and direct outlet to the great highways of the seas."
- "Freedom of the seas."
- "Limitation of naval and military armament."

For nearly a half hour the president spoke, with members of the senate, members of the cabinet and packed galleries listening with rapt attention. When he concluded there was a tremendous burst of applause.

When the president had finished and the senate returned to its regular business, Senator La Follette epitomized the sentiment of the president by saying:

"We have just passed through a very important hour in the life of the world. Senator Stone, chairman of the foreign relations committee, declared the message was a 'great state paper,' and should have a very striking effect upon the governments and people of Europe."

CHAPLAIN HOOPER'S FUND FOR WOUNDED SOLDIERS

The fund which was being raised for Chaplain Hooper's work among wounded Canadian soldiers in England, was closed yesterday. More than \$550 was received. Needless to say, Rev. Mr. Hooper will be delighted with this money, as it will enable him to bring further comfort to Canadians who have fought and died for their country. The Telegraph and The Times are deeply indebted to all who contributed so handsomely to this fund.

Yesterday, Mr. Hallam, treasurer of the fund, received the following amounts:

BILLY SUNDAY AND KING KELLY

Joe Page Takes up Cudgels in Old Time Player

ALLEGED STATEMENT OF PREACHER IS DENIED

Kelly's Wonderful Record as a Batsman Recalled—Some Personal Recollections of Him—He Rests in Mount Hope Cemetery, Boston

(By Joe Page)

In view of the fact that Billy Sunday has been doing a lot of evangelistic work in Boston for some weeks, he has naturally, through the press and otherwise, come prominently into the notice of all baseball enthusiasts who take an especial interest in the Boston Red Sox and Braves. And there are some considerable number of these throughout the country. One thing Billy Sunday surely did, he picked on a topic during one of his sermons, that has caused many an old time ball player and fan to take a second look at Sunday's religious performances.

When a man of Sunday's qualifications and attainments can so far forget himself as to take not only a former teammate, but in addition the greatest and brainiest all-round ball player ever produced—not even barring Ty Cobb—and also one who, it is contended, taught Billy Sunday four-fifths of all the baseball he ever knew, and make the statement that the famous Mike Kelly died a drunkard and was buried in the Potter's field, he certainly got a quick rise out of a lot of old time friends of the great catcher, who gave Sunday the lie direct.

Mike Kelly died of pneumonia in November, 1894. He was a member in good standing in the order of Elks, who took charge of the remains, and they now lie in the Elks' plot in Mount Hope Cemetery, in Boston.

Mike Kelly not only took a drink, but in his time many of them. With all he took during his baseball career, it is doubtful if there was any other one player who did nearly so brilliant work both in offense and defense, or played more regularly, or in more championship games in the same period of playing big league ball than did the same King Kelly. This in itself goes to show that the latter could not have been in any way what Billy Sunday is reported to have said of him.

The writer knew Mike Kelly very, very well. Here is a little story of one of his kindly acts.

It was during the season of 1897. Detroit had won eighteen straight games at home. The Chicago club, the last to meet them on their home grounds, arrived at the then Russell House, where they put up. The Chicago club and five runs scored by the Chicago against the Detroit.

In 1897, Treasurer, Billings of the Boston club signed Kelly to play with the Boston club at a salary of \$5,000, first paying the Chicago club \$10,000 for his release from the Detroit.

This announcement caused a thrill of joy to the heart of every admirer of the game in Boston, and created a sensation throughout the entire baseball world. Kelly stood at that time in the minds of the most enthusiastic lovers of the game of baseball, pre-eminently among the all round ball players on the diamond.

He had really been the central figure in the Chicago club, and to his skill and untiring energy, more than to any other player, was due the fact that Chicago won the pennant three times in succession.

In 1901 the Brotherhood Association was formed and Kelly went to Cincinnati to join the team. He finished the season with Boston. In 1902 he played with Boston and in 1903 was with the New York team. In 1904 Al Johnston secured him for the Allentown, Pa. club, which finished as the Yonkers club of the Eastern League. As before stated, Kelly was suddenly taken down with pneumonia and died on Nov. 23 of that year.

Kelly was undoubtedly the most popular man who ever played baseball. He had been given huge baskets of flowers, and columns of newspaper matter have been written in his honor and glory. His popularity was shown by the fact that a house and farm at Hingham, and a free turnout were presented to him while he was a Boston Brotherhood man.

He was regarded as one of the props of the baseball war and the triumph offered him big money to break away from that organization. When he was induced to quit the association's ranks the statement was sent out broadcast that the organization was defeated.

A friend in need is a friend indeed. But King Kelly was a friend when a friend was in need.

CIGARETTES GO UP

Advance in Price Laid to the High Cost of Paper

(New York Times, Jan. 20.)

Cigarettes—at least the medium-priced brands—are to be from one to three cents higher, beginning on Monday, at one big retail cigar company's stores, and it is only a question of time when the other concerns that have been selling at cut rates must follow suit. The increased cost of paper, it was said yesterday by a representative of one of the

biggest cigarette manufacturers, was chiefly responsible for the increase.

Several manufacturers announced a rise in prices recently, ranging from 25 cents to \$1 a thousand, and notices were posted in the stores that cigarettes would cost the buyer from one to three cents more a package. In the new scale cigarettes which used to sell at thirteen cents will cost fifteen cents. Probably there will be no advance in the more expensive brands, but fewer coupons will be issued with the sales.

Paper is a big item in the cigarette business, it was said yesterday. The

pasteboard used in the boxes is what counts chiefly.

A gentleman traveling on the Great Northern Railway, having delivered his luggage to the care of a porter, made himself comfortable in the corner of a carriage. The porter came to the carriage for the reward of merit.

"Well," said the passenger, "I see by the letters 'G.N.R.' on your cap that Gratiotides are Never Received."

"A little mistake, sir," replied the porter. "It should be Gratiotides Never Re-

fused."
