

## JULIA ARTHUR AGAIN BEFORE THE FOOTLIGHTS

Of a now famous actress who played a earlier years with W. S. Harkins in St. John the following is an interesting sketch. She returned to the stage this week.

Julia Arthur is to return to the stage. It was rumored a short time ago that the great actress and famous beauty had about determined to reconsider her decision to retire forever from the theatrical world, but the confirmation of the fact was obtainable only today.

Great as was the surprise and almost nation-wide protest when Mary Anderson announced her intention of retiring from the stage it was as nothing compared to that which arose when the beautiful Julia Arthur declared she would never appear before the footlights again. Her marriage shortly afterward to B. T. Cheney, of Boston, millionaire and member of one of the oldest Back Bay families, convinced those who had held out the hope that she might reconsider her determination, and regretfully they accepted her decision as final.

And now she is to come back. It is the lure of the stage that is bringing her—that and one other thing. Inexpressible happiness in her married life, with everything that limitless wealth can give, possession of an honored place in the best families of the drama; standing first among all of America's charming and talented women of the stage, it would not have been surprising were Julia Arthur content never to step before a curtain and acknowledge the plaudits of thousands again.

When she left the theatre with its lights, its bright lights, its sea of eager friendly faces, it was a new world which the beautiful Julia Arthur stepped. But just when she had won her place as the leader in the world of society into which she was introduced, George Bernard Shaw has reconsidered his decision to give up play writing in order to devote himself entirely to the study of secret diplomacy. It has just become known in America that the architect has written a new play entitled "O'Flaherty, V. C." which will probably be given in New York this season under the direction of the Shuberts. The play tells the story of an Irish soldier who wins the Victoria Cross for valor in fighting and goes home on leave. His domestic cross proves so heavy, however, that he is glad to be sent back to the trenches.

Joseph Kilgour, formerly with W. S. Harkins in St. John has been selected to play a prominent part in the adaptation of Dr. Cyrus Townsend Brundage's "My Lady's Slipper" in which Anita Stewart and Earle Williams are to be starred. Robert Whitworth, English actor, has been engaged by the Vitaphone company. His first part as a screen actor will be in "Wanted Live," a three-part society drama by Ouida Bergere. Theodore Marston is the director.

George O'Donnell, operatic basso and actor, has been engaged by the Vitaphone company, and will be seen in the adaptation of "My Lady's Slipper," produced under the direction of Ralph W. Ince.

Premise Well

The two amateur productions now in rehearsal in the city "Arsene Lupin" to be given by the I. L. & B. under direction of John McCloskey for the patriotic fund and "The House Next Door" to be presented under the direction of Mrs. A. D. Wilson for the Red Cross fund, are proceeding encouragingly. Both will be given in the Opera House. Talented amateurs are to take part in each, with clever specialties between the acts.

The two plays are of an entirely different nature, each has its own success upon the American stage, being offered for presentation by amateurs after having won notable prizes and been produced by prominent professionals. Each production is being anticipated with eagerness and crowded houses are expected for each.

## CONSTIPATENTS

It must be remembered that the bowels should move freely once a day to ensure perfect health. When such is not the case the poisonous waste material is absorbed into the system, thus producing a self blood poisoning. The causes of Constipation are many and varied. Among the more common may be mentioned poor stomach digestion, a deficiency of bile in the intestines, a lack of secretion in the bowels, and a want of the natural muscular contraction of the intestines from above downward.

Abbey's Effervescent Salt, sold everywhere at 25c and 50c, stimulates and restores the stomach digestion, increases the flow of bile into the intestine, causes a flow from the intestinal glands, and restores the natural downward action of the intestines, rendering it easy to secure a free action of the bowels, which is one of the most important requisites to health.
