

FORESHORES BILL

NOW NOT MYSTERY

Attorney-General Baxter Says
He Knew About It

FURNISHED INFORMATION

Ex-Premier Flemming Prepared
Bill — Hon. Mr. Morrissey Re-
plies to Attacks by Faction
Hounding Him

Fredericton, April 30.—The balloon went up in the house this afternoon. Hon. John Morrissey, challenged his enemies to take their places in the firing line and back up their slanders by definite charges before the royal commission.

James K. Pinder condemned the highways, their management and their condition.

Attorney-General Baxter confessed to a complete knowledge of the famous and infamous foreshores bill, introduced last session, and Commissioner Stewart spoke for the government of the province by orders-in-council and caucuses.

It was a most interesting afternoon. Everybody was ready for a scrap as soon as the hat went into the ring. The attorney-general outdid himself in his cheap references to Liberal newspapers and politicians. "A gentleman named Carvell," he said, in beginning a sentence, then he paused. It seems to me I made a mistake in one word in that sentence. (Tearful applause from the government supporters.)

Mr. Baxter's Confession.
He said the St. John Globe was in error when it said recently that he (the attorney-general) knew nothing about the foreshores bill introduced by Premier Fleming last session. He (Mr. Baxter) did know all about it. He procured the information and gave it to Mr. Fleming, who prepared the bill, and introduced it. He referred to a St. John member who knew all about this, but who the St. John member was he did not back up Mr. Baxter. The at-

torney-general's confession was late, but the excuse he made for not owing up sooner was very lame. He wasn't going to tell Carvell during the royal commission inquiry because "that wasn't the proper place." And then he went on to reflect upon, and abuse the proceedings before the royal commission. He didn't praise the commission a bit, and he didn't refer to the fact that the commissioners have not been paid a cent for their services yet.

The governor may take a hint in the matter soon, and politely ask his ministers why the gentlemen he selected have been treated so unfairly and discourteously.

Hon. John Morrissey did not mince words when he spoke. He had his fighting garments on and was facing the lion who have hounded him for three years or more, ever since they thought themselves strong enough to get along without the aid of him or his friends. He spoke even of the penitentiary awaiting those who dared slander him outside the walls of the house.

Pinder, just out of a sick bed, was bitter. The patronage of his country has been taken from the old man. Young and Guthrie are in the ascendancy, and Pinder and Morehouse protest in vain. The old king even rebuked the government for taking the highways from the control of the county councils, and even ventured to say the roads were "knee deep with mud."

It was a most cheerful afternoon, and no spectators or gallery to enjoy it.

THE THREE LOCAL MILITARY UNITS ARE TO CO-OPERATE

The three local military units are to undertake a systematic policing of the city, beginning this evening, and besides the 26th Battalion, they will have an entire platoon of 30 or 60 men in readiness constantly for a call for assistance from the police.

This is the result of the trouble between soldiers and the police a few nights ago. The hearing against Charles Madden, charged with attacking Deputy Chief Jenkins, was concluded yesterday afternoon and when Major McKenna presented this proposition to the court, saying that it was the intention of the military to co-operate with the police in every way possible, the magistrate decided that it would be best to let the matter remain as it is.

JOHN BUNNY'S WEALTH (Boston Post)

John Bunney, the great comedian of the "movies," who died on Monday came to middle life as a good, but not remarkable, actor in the "legitimate" with a modest salary indeed. During the past few years he made his marvelous, almost grotesque face the most widely known in the world, and one of the most popular. His characteristics were exactly the things for the photographic drama, and he had the wisdom to see it.

It is said that John Bunney's yearly income of late has been greatly in excess of that of the president of the United States. Commercially he was worth all night long. The hearing against Charles Madden, charged with attacking Deputy Chief Jenkins, was concluded yesterday afternoon and when Major McKenna presented this proposition to the court, saying that it was the intention of the military to co-operate with the police in every way possible, the magistrate decided that it would be best to let the matter remain as it is.

These large fifty-cent cases contain enough "Pape's Diapiesin" to keep the entire family free from stomach disorders and indigestion for many months. It belongs to your home.

THIN FOLKS GET FAT ON
THREE MEALS A DAY

Specialist Explains Why Food Does Not
Always Produce Flesh and How Thin
People Can Increase Weight

Most people who are thin and under normal weight eat heartily but get no increase in flesh, while plump, chunky folks of normal weight eat less than they do and keep stout all the time. The underweight ones finally decide Nature intended them to be thin, that the amount or nature of their food has nothing to do with flesh-making and that nothing can make them fat. But this is not so.

A stout, strong, robust body can come from food nourishment. Food is the source of all fat and if you are thin and underweight it is merely a certain indication that only a small portion of the flesh-making nourishment in your meals is reaching your blood and tissues.

The assimilative functions of your stomach and intestines are not working properly and the larger part of the food value is leaving your body as waste.

To correct such a condition, to gain flesh, increase weight and get 100 per cent value from your food, a single Sargol tablet taken at each meal will work wonders. Sargol is a scientific combination of six splendid assimilative agents. It promptly stops the leakage of fats and while aiding digestion, also separates every last particle of the fats, oils, sugars and starches of your food from the waste matter and prepares the former into rich, ripe, flesh-producing nourishment which the blood readily absorbs and distributes throughout the body. Weight increase usually begins within a few days after Sargol is used with meals. In my opinion two ordinary hearty meals eaten with Sargol is equal in flesh-making value to six ordinary hearty meals eaten without it. Try it, you people who are thin, run down and underweight, and see if it is not right.

You can buy Sargol from practically any druggist hereabouts and every package contains a positive guarantee of weight increase or money back. While also valuable as a treatment for nervous indigestion, it should not be used by people who do not wish to increase weight.

CROSS, FEVERISH

CHILD IS BILIOUS

OR CONSTIPATED

Look Mother! If Tongue is
Coated Give "California
Syrup of Figs"

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again.

When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "fruit laxative" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeits sold there, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."

torney-general's confession was late, but the excuse he made for not owing up sooner was very lame. He wasn't going to tell Carvell during the royal commission inquiry because "that wasn't the proper place." And then he went on to reflect upon, and abuse the proceedings before the royal commission. He didn't praise the commission a bit, and he didn't refer to the fact that the commissioners have not been paid a cent for their services yet.

TRY THIS RECIPE
IF YOUR HAIR
COMES OUT
IT WILL CHECK THE LOSS QUICKLY

If you are beginning to lose your hair and find quantities of dull dead looking hairs in your comb and brush whenever you use them this recipe will probably help you to stop the loss and prevent future baldness even though other remedies you may have tried have failed.

Mix together in 8 oz. bottle 6 oz. of a good quality of Bay Rum with 2 oz. of pure Lavender de Compose and add about 1/2 dram of Menthol Crystals. Shake thoroughly and allow to stand an hour before using. The mixture is best applied to hair and scalp by pouring a little on a soft cloth and then by drawing this cloth slowly through the hair taking one small strand at a time. When the head is quite thoroughly dampened rub briskly into the scalp with the finger tips until the skin tingles. A five to ten minutes' treatment like this each morning for a few days will generally stop all excessive loss of hair within a week and will also make the hair beautifully lustrous and glossy and easy to arrange. It is fine for getting rid of dandruff too and if kept up will almost certainly start new hair growing. Druggists everywhere sell Bay Rum, Lavender de Compose and Menthol Crystals and will be glad to show you how to mix them. If you prefer do the mixing for you at a small extra charge. If you like perfume, add a few drops of your favorite and see what a pleasant hair dressing this makes.

Lantic Sugar

The Perfect Cooking and Preserving Sugar

To avoid gritty sugar grains in your cakes and jellies, you must have sugar of fine, even granulation which dissolves quickly. Lantic Granulated is made to insure perfect cooking and preserving results.

Packed in 2 lb. and 5 lb. Sealed Cartons. Also 10 lb., 20 lb. and 100 lb. Bags

Look for the Lantic Red Ball on each package—and buy in Original Packages.

FORMER CHIEF

JUSTICE OF N. S.

Death of Sir Robert Weatherbe
After Brief Illness — His Eminence as a Lawyer and Judge

The death occurred at the Halifax Infirmary on Tuesday of Sir Robert Weatherbe, retired Chief Justice of the Supreme Court of Nova Scotia. Sir Robert was taken ill on Sunday afternoon and since that time his condition became gradually worse until shortly before twelve o'clock he passed away. Sir Robert is survived by his widow who was a daughter of Lewis Johnston, of Annapolis, N. S., and six sons, Dr. Lewis in England, Colonel Paul in western Canada, Carl, civil engineer with the G. T. Railway in the west; D'Arcy, a contractor in Europe; Dr. Philip of Halifax, and Capt. Jack Weatherbe, R. A., on the eastern coast of Africa. Sir Robert's many friends will be shocked to hear of his sudden death.

Hon. Sir Robert Linton Weatherbe, late chief justice, judge and jurist, was descended from the same Yorkshire family that produced the Weatherbys of London, who founded the stud book and established the Racing Calendar, and who for more than a century have done so much in furnishing England with the finest horses in the world. He was the son of Jonathan Weatherbe, merchant and ship-owner, by Mary Weatherbe, daughter of John Baker, the descendant of a Quaker family.

He was born at Bridgewater, P. E. I., April 7th, 1836, and was educated at Prince of Wales College, Wolfville, where he graduated in law taking his B. A. in 1858. M. A. in 1861 and hon. D. C. L. in 1888. He studied law here with the late Hon. J. W. Johnston (afterwards Judge in Equity, N. S.) and in early life for some years was editor of the Acadian Recorder, as well as a contributor to other legal journals.

He was called to the Bar of Nova Scotia in 1863 and the year following he published the pamphlet "The Dawn of a New Empire" in favor of colonial union, and joined Howe in opposing the publication of the pamphlet, "The Dawn of a New Empire," in favor of the Quebec scheme in defiance of the popular will, and became secretary of the Anti-Confederation League, of which Howe was president. He made his mark at once as a writer and speaker, and afterwards became a prominent and successful advocate of a brilliant bar, being, according to the testimony of ex-Chief Justice McDonald, invincible as a cross-examiner, his powers of persuasion amounting to magnetism with a jury. He was a prominent factor in the Liberal party in the heated contest ensuing out of the Pacific scandal which swept Sir John Macdonald from power, and subsequently became agent here of

A Word to Mothers!

We have
Improved
on the
RUBENS
VEST

After more than 20
years' experience in making
hygienic shirts for infants we
designed and patented in
Canada our

REGISTERED
"Browie's Vest"
The word of comfort for the little ones
No need to turn the baby over, for
we have done away with the fastening
in the back. No more pins to
open and hurt. Just four buttons and
all in front. The "Browie's Vest" com-
pletely double covers the lungs
and stomach.

Made in softest, pure wool, wool and cotton
and wool and silk. In sizes from birth up to
2 years. Price from 25c. to 75c. per garment.
Sold by Druggists, Grocers and
by mail direct from the factory.
