QUEBEC THE LIVELY CITY OF WINTER

The Ancient Capital Revels in Winter Sports With a Continuous Carnival.

Quebec is the lively city of winter. Keen frosty air, exhilarating and health-giving, and a continuous carnival of winter sports, is the medium that is attracting many visitors to the ancient capital.

Snow-shoe parades, tobogganing, skiing, curling, skating and hockey are the pastimes of the Quebec people, and hundreds of American visitors from less favored climates are being initiated into the real delights of an ideal Canadian winter.

From all maritime province points the Canadian National Railways offer the finest of train service to Quebec via the "Maritime Express" and "Ocean Limited."

From St. John there is also the through service via the Valley and Transcontinental line on Mondays, Wednesdays and Fridays. For further particulars apply to city ticket office, Canadian National Railways, 49 King street, or write general passenger department, Moncton, N. B.

S.S. "VEDIC" SAILS FROM NEW YORK FOR LIVERPOOL VIA QUEENSTOWN.

With a big list of British and Continental passengers, the new White Star Dominion liner "Vedic" sailed today from Pier 60, New York, bound for Liverpool and calling at Queenstown en route.

The "Vedic," which has been called the democratic ship, it will be remembered, made three voyages to Montreal last summer and has lately been on the Portland-Halifax-Liverpool route of the White Star-Dominion Line, having arrived at Portland on Jan. 27, being diverted later to New York in order to take the place of the White Star liner "Celtic," which is receiving her annual overhaul.

When the "Vedic" was at Montreal last summer she was an innovation in local shipping circles inasmuch as she was built and designed to carry third-class passengers only and was the first steamer to come up the St. Lawrence in this capacity. With broad and extensive promenade decks running the full length of the ship, large and airy state-rooms and public rooms, the "Vedic" has proved popular with many people traveling to and from Europe, and the idea of ships carrying third-class passengers only has now been definitely and concretely realized. The "Vedic" will sail from Portland, Me., to Liverpool direct on March 18, and from Halifax on March 19.

RECOMMENDATIONS BY BOARD OF TRADE

The council of the Board of Trade had a somewhat lengthy programme for consideration at its meeting yesterday, when the chair was occupied by M. E. Agar.

The secretary reported that he had been in communication with Hon. A. B. Copp, with regard to the separation of the Intercolonial railway, and that he

had been assured that if any change was brought about in the operation of the Intercolonial branch of the C. N. R. care would be taken to protect the interests of the maritime province ports. The matter of renewal of license numbers was brought to the attention of the council by the Halifax Board of Trade, and it was decided to co-operate with the Halifax board and with other organizations in a protest against any change in the renewal methods, which might result in added costs to the business men.

The council was asked for an expression of opinion with respect to the St. Lawrence inland port plan; it was felt, however, that the subject was a broad one and should receive careful study before any opinion was expressed.

Acknowledgements were received from the minister of railways with regard to more adequate pier terminals for the C. N. R.; from the minister of public works with respect to extension of the breakwater; and from the minister of customs respecting the marking of imported goods act, these matters having been brought to the attention of the respective departmental heads.

The development of the natural resources of the province, to a larger extent than at present, was brought to the attention of the council, and the secretary was authorized to follow the matter up with the mining department and with the research institute of Canada.

The establishment of a national research institute for Canada, which would give consideration to all portions of the

dominion, was favored by the council, and a resolution passed which will be forwarded to Ottawa.

Suggestions made by the St. Catharines chamber of commerce with respect to certain changes in the postal service were considered, and the secretary was authorized to follow the matter up with the postal department.

A letter was read from a leading firm in Kingston, Jamaica, expressing pleasure that a delegation from Canada proposed visiting the islands, and stated that a warm welcome would await them. This same firm expressed their desire to co-operate with the board in endeavoring to secure an enlargement of business between Canada and Jamaica.

After some discussion on the matter of harbor control, the following resolution was adopted:

Resolved, that in the opinion of this council it is most desirable that the port of St. John should be brought under a unified form of federal control, such as is provided for in the harbor commission act of 1918, and it would suggest to His Worship the mayor that he call a conference at an early day of such persons or organizations as might be interested, to give consideration to any amendments of the act that would tend to remove objections thereto and strengthen the position and possibilities of the port, such amendments to be recommended for government acceptance when a common understanding has been reached on the part of all city interests. A progress report was presented by the legislation committee on suggested

changes in the sales tax regulation. The committee was authorized to follow up the matter with other boards of trade.

The secretary was authorized to continue his membership in the American Association of Port Authorities.
