Boston, Feb. 27.—Walter D. Sweeney of Yarmouth (N. S.), owner of the British schooner Grace and Ruby, which was seized last week, as a run-runner off Boston Light, and Michael J. WOMEN WAIT ON HON. MR. STEWART

Ottawa, Feb. 27.—Urging that the dominion government "revolve a national immigration policy based on the needs of the country and the adaptability of the immigrant, and insisting on a pre-dominance of British citizens among those admitted to the country," a deputation from the National Council of Women waited upon the minister of the interior, Hon. Charles Stewart, today and were promised that the resolution would

be laid before the special cabinet sub-committee. The deputation was composed of Mrs. W. E. Sanford, president National Council of Women; Miss Joan Arnold, regent of the Imperial Order of the Daughters of the Empire; Mrs. C. H. Thorburn, Ottawa, and Mrs. Fitz Randolph of Fredericton (N. B.).

TIMES IN CANADA ARE IMPROVING

(Canadian Press Despatch.)
Ottawa, Feb. 27.—The first two weeks of January show marked increase in employment throughout the dominion, in comparison with the similar period a year ago. Returns received by the employment service branch of the department of labor from 5,800 firms, with a total payroll of \$41,146 persons, show that increases in staff gave employment to approximately 19,000 additional workers. This indicates partial recovery from the heavy declines registered at the end of the old year, and is more marked than that recorded in the early part of January, 1921.

The bulletin says that the gains reported involved approximately 7,000 workers in Quebec, 5,000 persons in the prairie provinces and about 4,000 persons in Ontario. Partial recovery was evident during the month of January, 1921.

Sisters in beauty

Two pretty girls, sharing the same beauty secret, although one lived 3,000 years ago. Girls who both know that a fresh, smooth, radiant skin is not only a woman's greatest charm, but one within the reach of every woman.

For pretty girls used Palmolive in the days of ancient Egypt, just as they do today. The crude combination of palm and olive oils which served as beautifying cleanser was the inspiration of the famous Palmolive cake, famous for its mildness the world over.

Modern science, with all its progress, can find no milder, more soothing cleanser than these two ancient oils. It can only perfect their combination and offer it in the most efficient and convenient form.

Gives a perfect skin

To state that just washing your face every day will give you that all-desired, fresh, smooth skin may sound too simple to be true. But such cleanliness is the foundation of complexion beauty, for this reason:

The accumulations of dirt, oil and perspiration, cold cream and powder must be removed or they will collect and clog the tiny pores which compose the surface of the skin.

Such clogging enlarges, which soon results in coarse texture, and the imbedded dirt causes blackheads, and when it carries infection, eruptions follow.

There is no beauty in such a neglected skin, which repels when it should attract, and prevents popularity and social success.

Soothes while it cleanses

Some women will complain that soap is too harsh, that it ages and dries their skin. This proves they are using the wrong soap.

The smooth, creamy lather of Palmolive soothes while it cleanses. It removes every trace of injurious dirt and skin accumulations and secretions, leaving the face becomingly soft and smooth, with radiant freshness and natural color.

The use of cosmetics isn't harmful if the basis is a skin that is thoroughly, healthfully clean. In case of dryness, apply your favorite cold cream both before and after washing.

Not for face alone

Don't forget that your neck and throat are also conspicuous for skin beauty or the lack of it, and that this is where age first shows.

Arms and shoulders should be kept smooth and white and hands must be beautified. Use Palmolive for bathing and these results are insured, with the comfort of a skin which always feels luxuriously smooth.

Not extravagant at the price

If Palmolive was a very expensive soap, such advice would mean extravagance. But the firm, long wearing cake of generous size costs but a modest price.

The reason is gigantic production which keeps the Palmolive factories working day and night and the importation of the bland, mild oils in the vast volume which reduces cost.

Thus this finest facial soap, which if made in small quantities would cost at least 25 cents, is offered at the popular price which all can afford for every toilet purpose.
