JASPER, THEN JASS AND FINALLY JAZZ

The secret is out at last: The origin of the word "Jazz" has been discovered. Writing in the London Daily Express, the discoverer leads up to his sensational deduction by first saying, apologetically, that "we are not responsible for the vernacular of our brothers on the western continent," but since Jazz is now as much of a household word in merry old England as in America, he proceeds to explain.

facts all true southerners—some unkind employers call it "loferitis," which has a close connection with the initiative "to lout."

"Now, the white employer has many thousands of negroes working for him and consequently many overseers; so not being able to remember the names of all his foremen he generally names each one 'Jasper'—a term of higher esteem when used in connection with work, I understand.

classic-loving critics may say about it, at least inspires energy—hence the derivation."

WILL REPLACE CROSSES.

Permanent Memorials Over Soldiers' Graves in France.

before Sept. 1, stating the address to which the cross is to be sent and giving the usual particulars regarding the soldier on whose grave it is erected. It will be a convenience if the name of the cemetery is also given. A note will be made of these wishes, and the wooden cross will be sent in due course. This will, of course, not take place for some time, so next-of-kin should keep the secretary informed of any change of address.

STAGE IS BARRED TO ALL JAP NOBLES

Old Social Prejudice Against Actors Survives in Mikado's Kingdom.

Tokio, April 8.—The Mikado has forbidden all young Japanese lords from associating themselves with the stage, dramatic or vaudeville.

The Japanese imperial household department takes a paternal interest in the peers, and sees that they deport themselves in a manner befitting their exalted position.

Recently it called to order a number of the young lords who had formed a dramatic society, and proposed to act in a number of plays composed by themselves.

The performance was prohibited and the young lords were severely rebuked. Later, however, it came out that the society had refused to be suppressed, and its members were acting their plays before very private and select audiences.

About the same time Count Futaba, a university man, and formerly a high official in the provincial government, wrote a play for presentation on the stage of the principal theatre in Tokio.

dered him to cancel the arrangement for its production. The objection, as we explained, was not to the play itself, but to the idea of a Japanese patrician having anything to do with the stage.

The old social prejudice against actors survives in full force in certain circles in Japan.

MUNICIPAL OFFICERS MEET

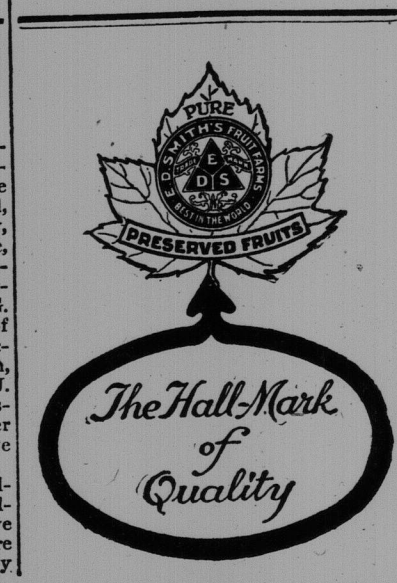

Fredericton, April 8.—The annual meeting of the New Brunswick municipal officers' association was opened in the mayor's office today. Louis Robichaud, B.A., LL.B., secretary of Kent county, was elected chairman. John A. Fowle, town treasurer of Chatham, vice-chairman; Agnes O. Glen, secretary-treasurer of York county, secretary; and G. O. D. Otty, K.C., secretary-treasurer of Kings county; J. King Kelley, K.C., secretary St. John county; D. A. Adamson, secretary-treasurer Sunbury county; J. E. T. Linden, town treasurer of Newcastle; and J. L. Thorne, county treasurer of St. John were elected to executive board.

The association decided to memorialize the government to fix a minimum salary for officials. It was resolved to have municipalities act amended so that hereafter officials shall be bonded only by

fidelity companies at the cost of the municipality. Private bonds are to be abolished.

FATALLY INJURED.

Glouce Bay, N. S., April 8.—Councillor, Hugh MacDonald, a well known miner, was fatally injured in No. 4 colliery last night by a flying splinter of stone which penetrated the artery of a leg. He bled to death before a doctor reached the scene.

April 10th to April 17th

This is DAYLO Battery Week

Get Out Your Idle Flashlight

SEARCH your cupboard drawers; rummage through that space by the cellar stairway; perhaps you'll find it in the sewing machine, atop the medicine chest, on the highest pantry shelf or on your work-bench in the basement.

Wherever it is, get it out—take it down—have it filled—take it home—PUT IT TO WORK!

Remember how useful your Daylo was when you first bought it? You need it worse now than you did then. Tonight, perhaps, its use may prevent a fire, save a life. You can't afford to take chances, when all that your Daylo needs may be a new battery.

This is Daylo Battery Week. The idea is to put every idle Daylo and flashlight back on the job of making it easier, safer and surer to go into and look into dark or dimly lighted places. Dealers everywhere have just received a new supply of Eveready Tungsten Batteries—jammed and crammed full of power

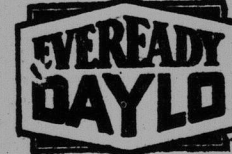

and pep, fresh as daisies and with a long life of useful service before every battery.

Eveready Tungsten Batteries fit all flashlights. They better every flashlight into which they're put—make it more useful—because they're the most power-full, long-lasting, peepiest batteries made. Twenty years' experience in making and perfecting flashlight batteries show in the quality of every Eveready Tungsten Battery.

Business houses don't scrap a typewriter because it needs a new ribbon. Don't you lose the valuable services of your Daylo just because it needs a battery. Get it out—take it down—have it filled—take it home—PUT IT TO WORK!

COMING—Another Eveready Contest

\$10,000.00 in Cash Prizes. \$3,000.00 First Prize. \$1,000.00 Second Prize. 102 other Prizes, \$500.00 to \$10.00. Ask your dealer for details.
