GOOD THINGS COMING TO THEATRES OF ST. JOHN

MERRY VAUDEVILLE AND NEW PICTURE

A Ripping Good Show at Opera House—First Chapter of Serial Tonight

One of the most entertaining vaudeville programmes that has been seen in this city for a long time is that at the Opera House this week. Those three comical chaps, More, Less and More, have the audience convulsed with laughter at every performance with their antics. Incidentally they do some of the best step dancing ever offered on a local stage.

They are not the whole show either, for there are four other splendid acts on the programme, genuine "big time" artists, just the same kind of features that one sees in the leading vaudeville theatres of cities like Boston, New York, at high prices. It is a good show right through and worth seeing—one you can't afford to miss.

THE FINNISH FLAG REPLACES RUSSIAN

Helsingfors, Finland, May 13—(By the Associated Press).—The Finnish flag today was raised with solemn ceremonies over the fortress of Sveaborg, in Helsingfors harbor, where, 110 years ago, it made way for the Russian banner.

Reports of the resumption of diplomatic relations between Finland and Russia are officially denied. It is declared there can be no question of the resumption of relations so long as Russian warships remain in Finnish waters, while Finnish rebels and their booty are given refuge in Petrograd, or if the authorities of East Karelia continue to support enemy actions against Finland.

THE WAR NEWS

Paris, May 14—Heavy artillery fighting in the Champagne is reported in today's official statement. Only patrol actions occurred on the main battle front in Picardy. The announcement followed "French patrols carried out operations north of Hangeard (on the front before Amiens), near Courcy and west of the Meuse, bringing back prisoners. We easily repulsed a German raid on small French posts northwest of Orville."

"The artillery fighting was particularly violent last night in the Somme and Ancre sectors, says the official statement from Field Marshal Haig today.

The statement follows: "We carried out a successful raid last night northeast of Robecq (Flanders) and captured a few prisoners without casualties to ourselves. A party of the enemy which attacked one of our posts west of Merville was repulsed with losses.

"The hostile artillery was active during the night in the Somme and Ancre sectors. It is believed that this was only the first of a series of efforts to regain the lost ground, owing to the value of the height, which commands the approaches to the valley leading from Trent to Hovevort.

The light last night was in the darkness and was a bloody hand-to-hand struggle over the rocky slopes of the mountain. The Russian and German troops were maintained intact.

Thus far the fighting around Monte Corneo has been of local character, and not a part of any general offensive, although the outposts show increasing activity all along the front.

Emperor William in a proclamation said it is assumed Lithuania will participate in the war by the use of arms.
