Persons suffering from catarrhal deaf-ness and head noises will be glad to know that this distressing affliction can be successfully treated at home by an in-ternal medicine that in many instances has effected a complete cure after all else has failed. Sufferers who could scarcely hear a watch tick have had their hearing restored to such aan extent that the tick of a watch was plainly audible seven or eight inches away from

Therefore, if you know someone who is troubled with head noises or catarrh, or catarrhal deafness, cut out this formula and hand to them and you will have been the means of saving one poor sufferer perhaps from total deafness. The prescription can be prepared at home and is made as follows:

Secure from your druggist 1 oz. Parmint (Double Strength), about 75c. worth. Take this home and add to it 1/4 pint of hot water and 4 oz. of moist or granulated sware and 4 oz. of moist or granulated sugar; stir until dissolved.
Take one tablespoonful four times a day.

distressing head noises, dullness, cloudy thinking, etc, while the hearing rapidly returns as the system is invigorated by the tonic action of the treatment. Loss of smell and mucus dropping in the back of the throat are other symptoms that show the presence of catarrhal poison, and which are quickly overcome by this efficacious treatment. Nearly ninety per cent. of all ear troubles are directly caused by catarrh; therefore, there are but few people whose hearing cannot be restored by this simple home treatment. Every person who is troubled with head noises, catarrhal deafness, or catarrh in any form should give this prescription a

Important—In ordering Parmint always specify that you want Double Strength; your druggist has it or he can get it for you; if not, send 75c to the International Laboratories, 74 St. Antoine St., Montreal, P. Q., who make a

"During August last, I went to Montreal to consult a specialist as I had been suffering terribly with Stone in the Bladder.

He decided to operate but said the stone was too large to review and too.

stone was too large to remove and too hard to crush. I returned home and was recommended by a friend to try GIN PILLS.

They relieved the pain. I took two boxes and went back to the specialist. He said the stone was smaller but he could not remove it although he tried for two hours and a half. I returned home and continued to take GIN PILLS, and to my great surprise and joy, I passed the stone.

Larder Lake, Ont., March 26th. "I had been suffering for some time with my Kidneys and Urine. I was constantly passing water, which was very scanty, sometimes as many as thirty times a day. Each time the

pain was something awful, and no rest at night.

I heard of your GIN PILLS and decided to give them a trial at once. I sent my chum 60 miles to get them and I am pleased to inform you that in less than six hours, I felt relief. In two days the pain had left me entirely. I took about half a box and to-day I feel as well as ever and my kidneys are acting quite natural again". SID. CASTLEMAN.

"Over a year ago I was taken ter-ribly sick with unbearable pains in the Kidneys, so called in a Doctor, and he said at once that I had a Stone in the Kidney, and all he could do was to give me ease by injecting morphine. He said there was no cure but an operation. About two months ago I got a box of GIN PILLS and took one and two at a time, and then another box. A week ago the Stone passed from the Kidney to the Bladder. Two days ago it passed away altogether. I have taken no other medicine but GIN PILLS, and it is through them that I am free from that stone"
