NEW THEATRE OPENS WITH RUSH

The Empress Theatre in the lower section of City Hall, Carleton, opened last evening in a rain-storm, but was crowded to the doors from the start to closing time. The manager, William C. Smith, promises to accommodate many people tonight and for the remainder of the run, asking that patrons overlook the shortcomings of seating arrangements last evening, which was due to the exceptional rush. The interior of the big hall was a revelation to Carleton folk. They expressed surprise and delight with the clean, new appointments and the modern way in which the seats had been laid out and aisles placed. The mechanical arrangements projected a perfect picture of dazzling cleanliness and without a flicker.

The programme was truly of grand opening quality and included the first of the Keystone comedy reels, containing the farce "Riley and Schultz," with Fred Mac and Mark Bennett, ex-Biograph comedians, also the society comedy "Our New Neighbor," with beautiful Mabel Normand, the Biograph beauty in the leading role. The big feature of the bill was "Blood is Thicker Than Water," a story of the Northwest Mounted Police with King Baggot of the Imp Co. as the sergeant of the N. W. M. P. The western number was "One, Two, Three, Away She Goes," a sprightly offering.

The music was good and the programme more than an hour long. Another big crowd is expected tonight and a change of bill tomorrow. The new theatre is a children under fifteen attending at night without escort, will be rigidly enforced by the police.

THE LION TAMER'S REVENGE

Twenty frenzied South African lions and jesses in a fury of madness will be the startling picture that is to confront spectators Wednesday and Thursday. This is incidental to the intense Italian melodrama "The Lion Tamer's Revenge" by the Cine Company of players of the European melodrama is in a class by itself. The stories are always most gripping and consistent and the climaxes stupendous. This picture is a pure and simple melodrama with wild weather effects and notice. It is one of the most remarkable things yet in motion-photographic annals.
