WALL STREET LISTLESS IS EXPERT SUMMARY

New York, April 28.—There is completely absent from all business anything resembling enterprise or enthusiasm. Capital ceased long ago in this country to take the initiative. For a time after that it could be coaxed to new undertakings. Today it is positively unmovable and repellent. This is the condition that has been brought about by corporation-baiting, and even the rank and file, and the rest at an at least for the better, until these are on the east, are beginning to appreciate that these are the consequences. The situation is complicated by the supreme court delay which seems unfortunate, and which every interest throughout the United States is held up and adversely affected. There is no business before the

count just begins to approach this in importance. Crop conditions and prospects are most favorable, and the outlook in this direction is the only positively encouraging feature of the situation. Money continues to pile up. Investors grow around inspecting securities. There is spasmodic movement here and there in the bond market, but general enough however to forecast activity soon.

Whatever else may be holding back the business of the country, it is certain that the supreme court decisions are a universal deterrent, and there can be little change, at least for the better, until these are on the way.

"I'm glad we don't live in China," said little Oswald. "It must be awfully tiresome to have it dark all day and the sun shining at night."—Chicago News.

QUANGONDY FLOATING HOSPITAL

Suggestion In Connection With Local White Plague Fight

PROGRESS OF THE WORK

Need of Financial Assistance is Strongly Felt and Association Hopes People Will Rally to Membership and Assist in Fight

But few people in the city realize the amount of good work that is being done in St. John by the members of the St. John Association for the Prevention of Tuberculosis in order to stamp out the dread disease. Nevertheless this active organization is constantly at work, and since it was organized, about a year ago, has done much. They have fitted up rooms in the Water and Sewerage Building in Leinster street, and there much of the good work is done.

The rooms are well lighted and sanitary and are well equipped for the carrying on of the work. One room is fitted up for an office, one for a waiting room, and one for an examining room. The place is open three afternoons each week, on Monday and Wednesday for adults, and on Friday afternoon for children. The hours are from 2.30 until 4.30. Miss Rogers, one of the Victorian nurses, who now devotes her entire time to looking after tubercular patients, is in charge of the dispensary, and is ably assisted by the ladies of the association.

People who go to the dispensary for examination, are looked after by local physicians who give their services gratuitously. If on examination the patient is found to be suffering with the disease, he or she is told what to do in order to check the disease. If the patient is too poor to purchase medicine, it is supplied free. The addresses of the patients are furnished to the members of the association, who visit their homes to see that the instructions are carried out. When the patient can afford to buy eggs, milk, fruit, etc., and other essentials, the church to which they belong is asked to furnish them, or the members of the society have to provide food at their own expense.

Need of Funds

And right here it might be stated that the association is not very well supplied with funds, having but a very small membership. It is hoped, however, that during the year the membership will be greatly increased, and that sufficient funds will be available to carry on the work.

At the present time the society is aiming to have a few hundred members, and children suffering with the disease are allowed to go to school, and as a consequence other pupils become infected. They are also agitating the supplying of a hospital on which tubercular patients might be treated. This has been done in various parts of New York and other cities, and Miss Rogers has submitted a report to the association regarding the work that is carried on in one of these boats. It has been suggested that the Quangondy and the members of the association should be used for such a hospital.

In order to increase their funds, the association is having a large number of stamps, somewhat similar to those issued by the Muskoeka Hospital last year, printed. These stamps will be placed on sale in a few days, in various places in the city, and it is hoped to raise a considerable sum by the means.

Many have written the sign of the double cross, which is used on all literature, etc., issued by Tuberculosis Associations, originated in 1907, and is now used in Berlin, by Dr. G. Semmler in October, 1902, as a symbol of the International Anti-Tuberculosis Association. At that time there were not more than half a dozen associations for the prevention of tuberculosis organized on a wide basis, while to-day there are associations of this kind all over the world.

Rules to Follow

The local association has issued a set of rules for the disinfection of rooms that have been occupied by persons suffering from pulmonary tuberculosis.

- 1—Leave everything in the room which has to be fumigated. Keep the mattress and pillows up so that the fumes can reach them on both sides. Hang out all clothing worn by the patient which can not be boiled; also blankets, rugs and furs, etc.
- 2—After fumigation: Place out of doors and in the sunlight for seven days, mattress and pillows, blankets, all personal clothing which cannot be boiled, heavy curtains, rugs and carpets, blinds, etc.
- 3—Burn all books and papers.
- 4—Boil in a large pan of water, all cups, forks, spoons, etc., used by the patient, also spittoon.
- 5—Cleaning:
 - 1—Blankets and rugs, etc.: Soak in carbolic 1 in 20 until ready to wash.
 - 2—All clothing which can be boiled: Soak immediately for 30 minutes. Afterwards wash in the usual way.
 - 3—Carpets: Sweep with sawdust or tea-leaves moistened with carbolic 1 in 20. After sweeping, collect and burn the dust after tea-leaves.
 - 4—Ceiling of room: White-wash.
 - 5—Woodwork, Furniture and Floor: Scrub with soap and water. Then wipe over with cloths wrung out of carbolic 1 in 20. Caution: Protect cuts and sores on the hands from infection.
 - 6—Walls: If plastered, wash over thoroughly with wall-brush soaked in carbolic 1 in 20, from ceiling to floor. If the walls are papered, do the same, and strip off all the paper while it is wet and burn. Caution: Do not cut the walls dry, nor peel off the paper dry, as the threads and lumps of the paper will probably get infected with the tubercular germs.
 - 7—Windows: Leave wide open during the cleaning and afterwards all day and all night. Recommendations: (1) That the walls, floor, and woodwork shall be painted or polished after cleaning and disinfection. (2) That the rooms shall be used for ten days afterwards.
- 6—To make carbolic lotion: 1 in 30 carb.

DR. A. W. CHASE'S CATARRH POWDER 25c

is most direct and the most powerful remedy for the Improved Blower. It is the only medicine that stops droppings in the throat and permanently cures Catarrh and Hay Fever. 25c. Blower free.

HOUSE FURNISHING DEPT.

This Is NEMO Week

Commencing Today and Through the Week a Special Demonstration of Nemo Corset Features Will Be Given

The ladies of St. John are invited to attend this showing of the famous Nemo specialties. A demonstration will be given of the dozen or more patented improvements which have placed Nemo Corsets in a class by themselves and which have made it possible to fit every figure to perfection, yet obviating tight lacing with its injurious effects.

Nemo Corsets have attained world-wide fame for style, comfort and durability, they represent twice as much value, in material and workmanship, as any other corsets sold at the same prices.

Most Nemo special features can be seen and recognized at a glance. Others, quite as important from the hygienic standpoint, are not easily perceived by the eye.

For example, all Nemo Corsets are constructed so that no bone, steel or seam is allowed to press unduly upon a nerve or artery. Again, the shape is such that there is no pressure upon the stomach region—the diaphragm is "bridged."

Not even an expert can see these differences; much less can they be clearly described in print, or even by illustrations. But the wonderful benefit of these intangible features—the perfect ease and comfort of Nemo Corsets—is known and appreciated by the woman who wears one.

Come and learn why Nemo Corsets outwear all others and invariably make for health and comfort.

CORSET DEPARTMENT—SECOND FLOOR

MANCHESTER ROBERTSON ALLISON, LTD.

LINEN ROOM.

QUEBEC GOVERNOR DEAD

Quebec, April 30.—Flags are flying at half mast all over the city in memory of the late Governor Sir C. A. Pelletier, who passed away at Spencer Wood at 3 o'clock on Saturday afternoon. His honor, who had had several bad turns since

Call for Membership

It is to be hoped that the citizens in general will respond to the appeal for the association, especially the young men, for the carrying on of the good work. The membership fee is only \$1 a year and the members expect to have at least 1,000 enrolled before the close of the year. It is a work in which every person ought to be interested.

FAREWELL OLD COUNCIL

The last meeting of the present common council is being held this afternoon in the council chamber at the court house. There is likely to be an interesting discussion on ferry matters, and it is probable that some steps will be taken toward getting a new ferry boat in consequence of the action of the mayor in ordering the repairs on the Western Extension stopped. Among the communications is an invitation from St. Paul's church to the council to attend service there on the day of the coronation, heard, and a letter of information regarding city lands. J. King Kelley asking for compensation from the city for Mrs. Augusta Ferguson and daughter, in consequence of the death of Samuel Ferguson, while in the employ of the Maritime Baseball Club regarding free playground, Oscar Ring asking for permission to extend his arduous work, and the Canadian Free Library for the Blind, and from No. 1 Salvage Corps regarding the election of new officers.

KEEP YOUR MUSCLES LIMBER

And Relieve Soreness with Father Morrisey's Liment.

Athletes owe their prowess not so much to natural bodily superiority, as to the systematic conservation of Nature's gifts, particularly by means of regular rubbing with a good liment. It is not all athletes, but in any walk of life, if we keep our muscles limber, the walking will be much easier.

Father Morrisey, the priest whose medical skill was known from ocean to ocean, was especially successful in compounding a liment of superior merit. It is unequalled for rubbing the muscles. It rubs in quickly and thoroughly, scarcely a trace of it staying on the skin. And it certainly drives out the stiffness from the joints.

Father Morrisey's Liment has repeatedly cured and healed cuts, bruises, burns, frostbites, chapped hands, chilblains, sprains and strains, sore muscles, backache, toothache, earache, and similar affections. In connection with No. 7, it is valuable in rheumatism, while it is a helpful adjunct to the Lung Tonic in sore throats and chest colds.

This well-tested and reliable liment is mild and soothing to the skin and does not blister. It is clean and has a wholesome, agreeable odor, unlike other preparations.

In every family medicine chest, there should be a bottle of Father Morrisey's Liment side by side with the other prescriptions of the beloved Priest-physician.

Every one who has tried the Eminent testifies to its wonderful soothing and healing powers. From the young ball player to his grand father or grand-uncle, every member of the family will find occasional or constant use for this invaluable preparation.

Father Morrisey's Liment, 25c a bottle. At your dealer's, or from Father Morrisey Medicine Co., 440, Montreal, Que.

MORNING LOCALS

The treasurer of the St. John Association for the prevention of Tuberculosis acknowledges the following amounts collected in April: J. P. McIntyre, \$5; E. R. Reid, Richard O'Brien, Mrs. Morrison, A. G. Barnham, A. Morrison, W. J. Sutherland, M. E. Agar, W. A. McLaughlin, W. A. Ewing, Miss M. McLaughlin, \$1 each.

In Brussels street Baptist church yesterday at both services, F. S. Roy, pastor-elect of the Baptist church in Digby, occupied the pulpit. Mr. Roy is a strong preacher and he made a good impression on two large congregations yesterday. For a time before commencing his college course he lived in this city, being employed at Oak Hall. Rev. Dr. Kierstead of the U. N. B., occupied the pulpit of the Fairville Baptist church at both services yesterday.

W. J. Bower, attorney-general of British Columbia, reached the city yesterday on his way to England. He expects to visit his home in Kent county before sailing.

Mrs. W. D. Smith, of Blissville, passed through the city yesterday for Wolfville, N. S., where her daughter, Ethel, a student in Acadia Seminary is ill with typhoid.

In Centenary school room yesterday afternoon, the scholars presented to their retiring superintendent, F. R. Murray, a set of R. L. Stevenson's works, and to

THE NEW COUNCIL

The caucus of the new members of the common council held on Saturday afternoon to determine on the make-up of the various boards and committees for the ensuing year, resulted practically as outlined in the Times on Saturday evening. Alderman Hayes will receive the support of the members for the position of warden of the county and Ald. Kierstead and Elliott were chosen to remain off the city representation in the county council.

Following is a list of the boards and committees and their chairmen as finally decided on:

Treasury board—Ald. Hayes (chairman), Russell, McLeod, Smith, Colner, McLeod, Wigmore.

Safety board—Ald. Russell (chairman), McLeod, Potts, J. B. Jones, C. T. Jones, Green, Elliott, Wigmore, Scully.

Water and sewerage board—Ald. Wigmore (chairman), Russell, Smith, Wilson, Hayes, Kierstead, Scully.

Board of public works—Ald. McLeod (chairman), Elliott, Wilson, Colner, Hayes, Kierstead, Christie, C. T. Jones, Elkin, Grebe, J. B. Jones, Smith, McLeod.

Appraisals committee—Alderman-elect Colner (chairman), Kierstead, McLeod, Hayes, J. B. Jones, Elliott, Christie.

Bills and by-laws—Ald. McLeod (chairman), McLeod, Scully, Green, Potts.

Market committee—Mayor Frank (chairman), J. B. Jones, Kierstead, Smith, Ferry, Christie, Ald. Smith (chairman), McLeod, Kierstead, Elliott, Potts, Reeves—Ald. Elkin and Scully.

Deputy mayor—Ald. J. B. Jones.

Schooner's Hard Time

Boston, Mass., May 1.—With her crew exhausted after a two weeks' struggle with storms, and her flag flying half-mast for Mate James Horner, of Baltimore, who was swept overboard and drowned on April 29, off Hatteras the four-masted schooner Lydia M. Dearing was towed into Boston harbor yesterday. She had lost her sails and had a load of valuable

ATTEMPT ON HIS LIFE

Using a penknife, Louis Train, made an unsuccessful attempt on Saturday night to end his life in his home in White street. Previous to committing the act, he announced his intention to his wife and children, and they tried to prevent him. His effort to do away with himself was unsuccessful, but he was painfully injured, and is now in the General Hospital. Mrs. Train said she had a drinking. Today she had to move her former home while her husband is in the hospital, and her child is the only one to aid her.
