

up your crosses and follow the Lord Jesus, who is your great example.

All the institutions of our Church have a claim upon you, and call for your liberality. Do not forget those who have borne the burden and heat of the day, and who are disabled by disease or the infirmities of age from further active service in the Master's vineyard. Some of them are very near the eventful termination of life's probation, and soon will be missed from our assemblages. Cheer them by your liberal donations, so that want may be driven away from them while they are halting feebly to the tomb.

The cause of missions, which has been so nobly sustained by your liberality in the past, calls for continued support. The indebtedness of our Missionary Treasury is being annually lessened and the current expenses paid. This is encouraging. A small increase in your annual contributions and the treasury will be free.

Albert College is still performing a noble work in the education of the youth of this Dominion, qualifying them for usefulness in the various avocations of life, although laboring under some degree of embarrassment at the present time; but the prospect of its being freed from embarrassment at no very distant day is somewhat flattering. Brethren, the College is yours; it belongs to the Church, and you constitute the Church in connection with the ministry.—Take hold with a will and persevere in your donations, and soon your College will be free and stand prominently forth as a monument of your interest in the welfare of our race and the prosperity of the Church of Christ.

We also invite your attention to our Book Room and Printing Establishment. The *C. C. Advocate* is still nobly doing battle in the cause of religion and morality. A new press is now a necessity, and one has been purchased without sufficient funds on hand to pay for it. A small donation from each circuit in the connexion will supply the necessary funds. We hope some of the good sisters on the different circuits will take hold of this matter, and the work will very soon be accomplished. A building in which to locate our Book Room and Press is very much needed, as quite a large sum is being paid annually for rent. The losses sustained each year through delinquent subscribers is not only fearful but positively shameful. Reach forth a helping hand to this establishment that it may be placed on a permanent basis, and march on in its work of scattering truth through the land and accomplishing good.

Sabbath schools are an important auxiliary to the Church; in fact we regard them as the nursery in which the tender plants are being cultured for transplanting into the Church. Give the Sabbath School your prayers and hearty co-operation.

"Remember the Sabbath day to keep it holy" is heaven's injunction, but alas! how little is this injunction regarded, and how fear-
